

# THREE LEADING FEATURES OF OUR MEN'S CLOTHING

## The Foremost Feature of Our Men's Clothing at \$6.50 to \$12 is Our **\$10 Line**

### THE SUITS

The best American woolsens are represented in the cheviots, cassimeres, thibets and worsteds, of which this line is made. They come in all the stylish gray effects, the new green mixtures and other handsome cloths, including plain blue and plain black cheviots and thibets. Both the extra long and the conservative cuts, with button side or center vents are found in the three and four button coats that are the correct style this year. Garments that make economy easy without any sacrifice of appearance.

### THE TOPCOATS

These come in coverts and whipcords, in the tan and brown shades most favored by fashion, as well as in the conservative oxford grays and black cheviots. Some of them are satin-lined. All are genteel garments, carefully finished and the correct length for Fall 1905.

The \$10 lines of Raincoats and three-quarter coats are admirable in every point of clothing excellence.

## The Leading Thing in Our Men's Clothing at \$12 to \$18 is Our **\$15 Line**

Finer woolsens, hand-tailoring at every point that needs careful shaping to impart correct contour and still closer attention to every detail of fit and finish, make our \$15 Suits, Topcoats, Raincoats and Overcoats the ideal garments for business men who have to keep up appearances and want clothing which combines neatness with the greatest durability at a moderate cost.

### OUR GARMENTS AT \$20 TO \$30 CONFORM TO THE HIGHEST CUSTOM STANDARD

The finest imported woolsens, hand tailoring throughout and assiduous attention to the minute details, with expert inspection all through the process of manufacture, make our high-grade garments the peer of any clothing in America. Professional men, financiers and the closest followers of fashion in elegant attire for men find these garments in full keeping with their needs.

**HOG CHOLERA AND WORMS**

There is now more complaint about disease and other troubles in hogs in this part of the country than has been for years. There is some discussion as to whether or not the trouble is real cholera or if it is worms that kill the hogs. The hog owner is not interested particularly in a correct solution of this question, but he is vitally interested in saving his hogs. The Snoddy treatment for hogs is very highly recommended by a great many of the best known breeders and farmers of this part of the country. Such men as Messrs. P. W. Peterson, Vermillion, S. D.; O. S. West, Paulina,

Iowa; George Seckman, Ripley, Ill.; and Dave Rankin, Tarkio, Mo., use and recommend this treatment as a real cure and preventive of cholera, a thorough and satisfactory worm remedy and a great health and thrift producer among hogs. Farmers should write to Snoddy Remedy Co., Box 862, Des Moines, Iowa, for their free book of valuable information on the care and treatment of hogs. It costs nothing to learn all about it.
