Summers, Box 160, Notre Dame Ind., will send her home treatment to any mother. She asks no money. Write her today if your children trouble you in this way. Don't blame the child. **IMPORTANT NEWS OF THE WEEK**

Three Chicago banking institutions—the Chicago National, Home Savings and Equitable Trust—have been declared insolvent by Comptroller of the Currency Ridgley. These banks were owned by John R. Walsh, who has now been forced out of the management, which has been placed in the hands of the Chicago Clearing House association. The liabilities amount to \$24,000,000. All depositors will be paid, the other Chicago banks having pledged themselves to make up any deficiency in the assets. This action prevented a panic. The causes which led to the failure of the Walsh banks were investments in the private enterprises of Mr. Walsh, and particularly loans made to a railroad company which he controlled. This company built a line out of Bedford, Ind., where Mr. Walsh has stone quarries, the Monon route having declined to give Mr. Walsh satisfactory rates on stone. It is reported that the national and state authorities will prosecute Mr. Walsh for illegal methods. National Bank Examiner Bosworth is a discharged employe of Mr. Walsh.

It develops that James R. Garfield, commissioner of corporations, and his chief assistant, Dr. E. A. Durand, have practically become witnesses for the defense in the "beef trust" case. Mr. Garfield has been served with a subpoena directing him to produce all the books and reports he has, and be ready to testify regarding them. By this procedure, it is said, the packers will try to show that Commissioner Garfield has sworn statements which were made while Mr. Garfield was investigating the business methods of the beef trust, and which, if produced, are said to guarantee immunity from prosecution.

The midshipmen of the United States naval academy have resumed hazing in the most violent form. Midshipman Jerdone P. Kimbough, from Tennessee, was found unconscious in his room after being hazed by upper classmen. As a result of affair Midshipmen Tremore Coffin Jr. of Nevada and Warren A. Vandevor of New Jersey have been suspended. Within an hour after their suspension Real Admiral Sands had sent to the navy department at Washington his recommendation for their final punishment. The penalty for hazing is dismissal.

Following close upon the heels of the W. Ellis Corey family trouble comes another sensation in United States Steel corporation circles. This time it is Gibson D. Parker, one of Andrew Carnegie's young business associates, who, like many others, became a millionaire when the Carnegie Steel company was taken over by the steel trust. Gibson has been sued by Mrs. Mary I. Vetter, a handsome young widow of this city, for \$100,000 damages for alleged breach of promise to marry.

The court of appeals in the New York city ballot box case, sustains the contention of counsel for Mayor George B. McClellan and denies that of attorneys for William R. Hearst and his colleagues on the municipal ownership league ticket. The court holds, as was argued by former Chief Judge Parker and his associates, that the courts have no power under the election law to order by mandamus the opening of the ballot boxes and a recount and recanvass of ballots.

The tobacco factory at Elkton, Ky., owned by Mrs. M. B. Penyck and operated by the American Snuff com-

pany, was blown up by dynamite. There was no loss of life, but the factory was completely destroyed. There was no insurance on the plant. For a long time there has been trouble between different factions among the tobacco men of that section, and this is believed to have been the cause of the destruction of the plant.

The requisition of the governor of Iowa for Pat Crowe arrived at the Railroad rate legislation will be allowed to rest until after the Christmas holidays. Members of the house committee on interstate and foreign commerce have agreed to take up and dispose of less important measures than those affecting rates before the recess. In the senate also there is a disposition to let rate legislation slumber for the time being.

The ferment in the Moscow garrison over bad rations and numerous arrests resulted in an open mutiny of the Rostoff Grenadier regiment. The Grenadiers freed their arrested comrades by force, seized the arsenal with the stores of arms and munitions and disposed machine guns before the barracks.

Joel Chandler Harris only works when inspiration seizes him. He has no settled library, no study, no desk, no workroom of his own, but in every room of his house is to be found a table with pen, ink and paper, so that if the happy idea comes to him it can be caught and fixed without delay.
