PURE MEDICINES

Remarks Before the Committee on Public Health of the Massachusetts Legislature, at a Public Hearing, Feb. 27, 1906, by Mr. G. H. Taylor, Secretary of C. I. Hood Company

Mr. Chairman and Gentlemen of the Committee:

I appear here as a representative of C. I. Hood Co., manufacturing chem-

CAUGHT BY THE GRIP-- RELEASED BY PE-RU-NA

La Grippe Is Epidemic Catarrh.

LA GRIPPE spares no class or nationality. The cultured and the ignorant, the aristocrat and the pauper, the masses and the classes are all subject to la grippe. None are exempt—all are liable.

La grippe is well-named. The original term, la grippe, is French, but it has been shortened by the busy American to one word "grip."

Without any intention of doing so, a new word has been coined which describes the disease exactly.

The ailment clings to the patient as tenaciously as if some terrible giant had clutched him in a fatal clasp.

Men, women and children—whole towns and cities are caught in the baneful grip of this terrible monster.

Have you the grip? Or, rather, has the grip caught you? If so, read the following letters.

These testimonials will show you the quickest and best means of ridding yourself of this tenacious disease and its after-effects.

Suffered Twelve Years From After-Effects of La Grippe.

Mr. Victor Patneaude, 328 Madison St., Topeka, Kas., a well-known carpenter and member of Knights and Ladies of Security, writes:

"Twelve years ago I had a severe attack of la grippe and I never really recovered my health and strength—but grew weaker every year, until I was unable to work.

"Two years ago I began using Peruna and it built up my strength so that in a couple of months I was able to go to work again.

"This winter I had another attack of la grippe, but Peruna soon drove it out of my system.

"My wife and I consider Peruna a household remedy."

Pneumonia Followed La Grippe—Pe-ru-na, the Remedy That Brought Relief.

Mr. T. Barnecott, West Aylmer, Ontario, Can., writes:

"Last winter I was ill with pneumonia after having la grippe. I took Peruna for two months, when I became quite well, and I can say that any one can be cured by it in a reasonable time and at little expense.

"Every time I take a cold, I take some Peruna, which makes me well again.

"I also advised it for my daughter who was so ill with prostration that she could not follow her trade of dress making.

"A bottle of Peruna made such a change in her that she has been able to follow her trade ever since.

"I also induced a young lady, who was all rundown and confined to the house, to take Peruna, and after taking Peruna for three months she is able to follow her trade of tailoring.

ists, and proprietors of Hood's Sarsaparilla, Hood's Pills, and other preparations. I am secretary of the company and come in place of Mr. C. I. Hood, the president, who is unable to be here. Our laboratory is in Lowell, where we have been located and have been making these medicines for more than thirty years.

C. I. Hood Co. will welcome any and all legislation in the interests of pure foods and pure drugs. We certainly will not oppose the passage of any law that will stop or restrict the sale of secret nostrums that contain poisons or other ingredients so compounded as to be injurious to health. We do not wish to be even suspected of believing that the Commonwealth of Massachusetts is to adopt any legis-

The Medical Profession Recognizes La Grippe as Epidemic Catarrh.

"I can recommend Peruna for all such who are ill and require a tonic."

Systemic Catarrh, the Result of La Grippe. Pe-ru-na Receives Credit for Present Good Health.

Mrs. Jennie W. Gilmore, Box 44, White Oak, Ind. Ter., formerly Housekeeper for Indiana Reform School for Boys, writes:

"Six years ago I had la grippe, which was followed by systemic catarrh.

"The only thing I used was Peruna and Manalin, and I have been in better health the last three years than for years before.

"I give Peruna all the credit for my good health."

Pe-ru-na—A Tonic After La Grippe.

Mrs. Chas. E. Wells, Sr., Delaware, Ohio, writes:

"After a severe attack of la grippe, I took Peruna and found it a very good tonic."

Judge Horatio J. Goss, Hartwell, Ga., writes: "I had a severe spell of la grippe which left me with systemic catarrh. A friend advised me to try Peruna. The third bottle completed the cure."

"Most Effective Medicine Ever for La Grippe"

Robt. L. Madison, A. M., Principal Cullowhee High School, Painter, N. C. is chairman of the Jackson County Board of Education. He has for nearly six years been teaching in Painter. He is a writer of occasional verse and has contributed to a number of local papers and magazines,—religious, national and secular.

In speaking of Peruna, Mr. Madison says:

"I am hardly ever without Peruna at my home. It is the most effective medicine that I have ever tried for la grippe."

"It also cured my wife of nasal catarrh. Her condition at one time was such that she could not at night breathe through her nostrils.

"In consequence, an inflammation of the throat was brought about, getting worse and worse, yielding to no remedy until Peruna was tried."

For special instructions, address Hartman, President of the Hartman Sanitarium, Columbus, Ohio.

lation that can do any harm to our business, and any legislation for the public good most surely has our unqualified support.

We have never hesitated to tell any person who asked what the ingredients of Hood's Sarsaparilla are. In fact we publish the names of the ingredients used. For obvious reasons we have not considered it advisable to publish our working formula. One of these reasons stated briefly is that our experience and our facilities and the care we exercise enable us to compound and put up our remedy perfectly; and only the man who wishes to imitate or substitute would have any real use for it. Imitations which might be made would be of inferior quality. No imitator wishes to pro-

duce the best; his only object is to get money, he would make the cheapest possible mixture. We are willing to submit our working formula if desired to any competent board of experts and we regard the Massachusetts State Board of Pharmacy as being such a board, and we wish to say here that our formula are just as they have been for many years, not changed nor adapted to meet the exigencies of the present situation.

Our interests in the matter of legislation for the benefit of pure and honest medicines are identical with the interests of the Commonwealth. Thirty years of constant effort to produce the best medicine naturally commits us to this position.
