

The Best Thing About Armstrong Clothes

Is the Way the Clothes Look on You!

If you cannot come to the store to find out about these clothes the next best thing to do is to send for our beautiful illustrated catalogue which shows many samples from which the clothes are made. Its a book that points the way clearly to right dress and tells you what your clothes should cost. Write for the book today. Its **FREE**.

If you have a boy to dress, send for our Boys Clothing Catalogue, it takes up the whole matter of boys and little fellows suits, odd pants, shirt waists, hosiery, in fact everything that a boy wears, shows many cloth samples, tells you how to save half of the boys clothes money. The book is Free.

Armstrong Clothing Co.

1221-1227 O Street, Lincoln, Nebraska.

teaspoonful of salt, and a teaspoonful and a half baking powder with a quart of flour; then add two table-spoonfuls of melted butter with milk enough to make the dough roll out easily. Bake in a quick oven.

Spanish Toast

As a change from the usual or French toast, try this dish for supper. Cook in a double boiler until smooth, two well-beaten eggs, a tea-spoonful of flour, and one cupful of milk with a little salt. Dip slices of bread in the mixture and fry a nice brown in hot lard or drippings. For the lad with the sweet tooth, sift

powdered sugar over each slice and serve hot.

WOOLEN NECKTIES

To be thoroughly up-to-date, you must let your best girl knit you one of the new woolen neckties, which are all the fashion among the young people who live in and about our great metropolis. These neckties are made with fine wool and slender needles and the stitch is the same as the silk ties which have been so fashionable for the past three years. These neckties can be made in all the different colors and are meant to be worn with a business suit or a sporting costume. Slate gray is one

of the leading tones and some of them are made of two shades of wool of the same color—a light and a dark shade of red or two shades of green or blue. Worn with one of the new knitted waistcoats they are most attractive and becoming.

WITCH HAZEL "STUNTS"

Do you know that the witch hazel shoots its seeds ten or fifteen feet? If you want a brand new sensation, bring home some branches of witch hazel having both flowers and un-opened seed pods on them and put them in vases of water.

The pods burst at the most unexpected times, waking you in the night

and peppering you with their hard, shiny black seeds. Branches that are to be used for a party must be selected with care, to be sure of having perfectly fresh flowers and seed pods that have not opened. If it is possible to do so, cut them the same day they are needed.

If they must be cut the day before they are needed put them in a cold place in water and wrap a damp cloth around the branches, in order to prevent the flowers from withering and to keep the seeds from being expelled too soon.

Why are some women like facts? Because they are stubborn things.
