

Weekly Market Report

CHICAGO GRAIN MARKET

Chicago, April 25.—Reports of damage to the crop by dry weather in the southwest caused an advance today by over 1 cent per bushel in the price of wheat here. At the close of the July option was precisely 1 cent above yesterday's quotations. July corn and oats were each up an eighth.

Strength in wheat developed toward the middle of the session. Prior to that time trading was of a dragging nature and the tone of the market was easy. The early weakness of the market was due to lower cables, a slack demand for cash and favorable weather for seeding in the northwest. One of the principal reasons for the sharp upturn was found in reports from the winter wheat sections, where it is claimed the crop is being damaged by high winds and dry weather. The greatest demand was for the distant deliveries. As offerings were rather light, prices advanced rapidly. The market continued active and strong the remainder of the day. July closed higher at 79½@79. May ranged between 78 and 80c.

Corn was dull but steady on predicted wet weather. July closed an eighth higher at 46¼c; May sold between 46¼@46½c and 47¼@47½c, and closed at 47½c.

Local receipts were 226 cars with 32 of contract grade.

Oats were moderately active and firm on wet weather predictions. July closed ½c higher at 30¾c. May ranged between 31¾@32c and 32¼c and closed at 32¼c.

Local receipts were 245 cars. Provisions were inclined to weakness the greater part of the day because of liquidation by local holders.

LIVE STOCK

South Omaha, April 25.—Cattle—Receipts of cattle were quite liberal, although not up to the record of a week ago. The cattle markets at all points for several days have been slow with a downward tendency owing to the poor consuming demand for meat products in the large centers.

Local packers had orders for a few loads of cattle for immediate slaughter and in securing these they put a little more life into the trade earlier than has been the case on a good many mornings of late. The general market, however, outside of the earlier purchases was not very active.

Cows and heifers did not show any material change and the market was without new or interesting features of any kind. The trade was none too active at prices that were just about steady with yesterday.

Hogs—The break in hogs is having the usual effect of increasing receipts the country evidently fearing a further decline and being under the impression that it is better to take the present loss than to wait for it to grow bigger. It was not therefore surprising that the market should have opened 5 cents lower than yesterday, with buyers bidding even worse than in some cases.

Ranges of prices \$627½@6.30. The following with show the prices paid for the different kinds of cattle on the South Omaha market:

Good to fair corn fed steers \$4.85@5.40.

Fair to choice corn fed steers \$4.65@4.85.

Common to fair corn fed steers \$4.00@4.65.

Good to choice cows and heifers, \$3.65@4.50.

Fair to good cows and heifers \$3.00@3.65.

Common to fair cows and heifers, \$1.50@3.00.

Good to choice feeders \$4.00@4.70.

Fair to good stockers and feeders \$3.50@4.00.

Common to fair stockers \$2.75@3.50.

Bulls, stags, etc., \$2.50@4.00.

"Does your rheumatism bother you much?"

"I should say it did. Every idiot I meet asks questions about it."—Philadelphia Press.
