## LIVE STOCK MARKETS

Special market letter from Nye & Buchanan Co., Live Stock Commission Merchants.

South Omaha, Neb., July 25.—We had a \$6.40 top on cattle Tuesday, 40 cents above Chicago's top for that day. Ripe dry lot heaves are holding nearly steady with last week but the short fed and common kinds come in competition with the western ranges; and are 15 to 25 cents lower. This same condition prevails with the cow and heifer market. Inquiries for stockers and feeders are disappointingly small. Choice heavy feeders are about a dime lower and undesirable ones 15 to 25 cents lower.

We quote:

- Choice steers .....\$5.25@6.40
- Fair to good .....\$4.25@5.20
- Cows and heifers .....\$3.00@4.50
- Canners and cutters .....\$1.90@3.00
- Choice feeders .....\$3.40@4.15
- Common stockers .....\$2.25@3.25
- Bulls and stags .....\$2.75@4.10
- Veal calves .....\$5.00@5.75

The hog market is again on the advance under pressure of light receipts. Range \$6.50@6.65.

Receipts of sheep are becoming more liberal with the tendency to weaken values from the high level so

### ABOUT ANCIENT GLASS

#### Relics of Egyptian Ware Dating Back to 2,000 B. C.

In ancient Egypt the blowing of glass and the contriving of glass vessels were in vogue quite two thousand years before the Christian era. One of the tombs at Sakkara bears a representation of glass blowing considered to be the earliest known record of an art which, even at that early date, might have been quite an old-established institution among the dwellers by the Nile. The ancient Egyptian glass work was usually opaque and more or less brightly colored. The vases and other vessels were generally small. Glass beads of various colors were made and one of these still surviving is reputed to bear the name of Queen Hatason which if true, would date this very ancient bead back to about 1440 B. C., says the Detroit News-Tribune.

In the British museum are many examples of early Egyptian glass, one of the most notable pieces being the Nineveh goblet, reputed to have left the hand of some glass worker of ancient Egypt in or about the year of 700 B. C. From the Phoenicians and Egyptians the secrets of glassmaking spread to and were handled on by the Greeks, Etruscans and Sicilians. There is no more beautiful glass ware than that of the Romans, which
