STORM ON CUBAN COAST

Hurricane Sweeps East Coast of Cuba and it is Feared That 2,000 Lives Have Been Lost

Miami, Fla.—Belated reports from the tropical storm which swept Cuba and the coast of Florida indicate that it was one of the most appalling since the Galveston disaster. The losses of both life and property may surpass that cataclysm.

A tidal wave accompanied the cyclone. This increased the sea horrors. It is estimated that upwards of 500 people were killed or lost at sea along the Florida coast alone.

Hundreds of workmen employed on barges which sunk were nearly all lost.

The steamer St. Lucie, crushed by a tidal wave, went down with 100 passengers off the Florida coast near Miami.

About 250 lives at Elliot's key were blotted out and the island was engulfed by a great tidal wave.

The entire fishing fleet, with its scores of men, off the coast at St. Augustine has disappeared.

Scores of deaths are being reported from points in the interior of the peninsula.

There were hundreds of vessels in the gulf and in the harbor of Havana it is known that many of the vessels were dashed to pieces on the rocks. Others were overturned. Many vessels were swept to sea and may be heard from later.

It is estimated that over 100 were killed in Cuba. This estimate is independent of the sea losses.

Jacksonville, Fla.—Five hundred lives lost in the storm is the very latest estimate given out today. As communication is being restored reports of the disaster come in from places heretofore unheard from.

There are grounds for the belief that the worst news is yet to come. The property loss is one million dollars.

Havana—The steamer Elvira was caught outside the harbor by the hurricane and capsized. Five men are reported lost. It is feared that many other coasting vessels were lost.

According to the most reliable accounts, the list of dead and fatally injured in Havana is between thirty and forty, and the total casualties on the island will exceed 100 dead and 500 injured.

The latest figures are that the loss to the park and boulevard systems alone is a million dollars. The total damage may exceed three million dollars.

Harry Fosdick, a teamster with the Twenty-eighth infantry, was crushed by a falling palm tree. He may die. It is rumored that one or two American civilians are among the dead.

Troops are co-operating with the police to establish order.

A NATION'S PLUNDER

In announcing the consummation of a deal whereby the steel trust is given possession of the iron lands on the Mesaba range controlled by the Great Northern railway, the Northern Pacific railway, James J. Hill and J. W. Longyear, E. H. Gary, chairman of the steel corporation's board of directors, states that "the price to be paid is \$1.65 a ton, delivered at the upper lake docks, with an increase of 3.4 per ton each succeeding year. The minimum of ore agreed to be mined is 750,000 tons for the year 1907, increased by 750,000

FOUND RELIEF BY TAKING

PE-RU-NA

MRS. ANNA MUNDEN

There can be no doubt about it that the tendency to resort to surgical operations has been too great in the past and that this harmful tendency is growing less every day.

Experience has demonstrated that many ailments which seemed to require surgical operations in the past are now being cured by the use of harmless remedies. Peruna has done as much as any other remedy to establish this very important fact.

Thousands of people have been condemned to undergo surgical operations. Their physicians have told them that they must either submit to such operations or lose their lives.

After this they have resorted to Peruna and found relief.

Other good remedies have accomplished the same result, but it is safe to assume that no other remedy has equaled Peruna in its beneficent work.

Many of the alleged incurable derangements of the pelvis are dependent upon catarrh.

There is no cure for these except the removal of the catarrh.

Peruna seemingly works miracles in some of these cases. The explanation, however, is very simple. Peruna removes the catarrh and Nature does the rest.

tons each year until it reaches 8,250,000 tons. Thereafter it continues on that basis."

The amount of ore involved is estimated by Mr. Gary at 750,000,000 tons. At the lowest estimate he places it at 700,000,000 tons. At the royalty to be paid, the owners of these iron lands will derive over a billion dollars for the right of mining the iron that they contain. And none of this wealth has been created by them. They merely have gotten title to it through the stupidity of the people combined with the craft and corruption of their public servants.

If the public's interest had been consulted the billion dollars that is to be paid into the pockets of Mr. Hill and his associates would go to the public. Not only is the public deprived of this princely revenue to which in justice it is entitled, but it must proceed to pay into the pockets of the men that have grabbed the Mesaba iron range the billion and more of money that the steel trust will collect and hand over to them.

Suffered Thirteen Years With Pelvic Troubles, Unable to Find Relief.

AN OPERATION ADVOCATED.

Pe-ru-na, Taken as a Last Resort, Brings Health and Strength.

ANNA MUNDEN, Brinkley, Ark., writes:

"I suffered with female troubles for thirteen years, and tried the best doctors in Louisville, Ky., without relief.

"I spent thousands of dollars at the Springs.

"The doctors desired that I have an operation performed to remove my ovaries, which I would not consent to.

"I saw an advertisement of your Peruna and bought one bottle and before I had taken it all I could get out of bed and walk about.

"After taking three bottles I was as well and hearty as ever.

"I gained in flesh. From 118 I increased to 186 pounds.

"If it had not been for your great and wonderful medicine, I would now be in my grave.

"I would advise all women sufferers to try it.

"I would not be without it for the world."

A WOMAN'S LETTER TO WOMEN.

Mrs. Caroline Kramer, Fort Collins, Col., writes:

"The majority of women who are suffering from disordered periods and other troubles, have such strong faith in doctors that they allow them to experiment on them for kidney, liver, or stomach troubles, until they become discouraged and their money is gone.

"This was my unfortunate experience for nearly two years, when my attention was called to Peruna.

"I hardly dared believe that at last I had found the right medicine, but as I kept on using it and was finally cured I could only thank God and take courage.

"I have had most satisfying results from the use of your medicine and have advised dozens of women who were suffering with **SATISFACTORY RESULTS FROM PE-RU-NA.**"

It was only a few years ago that the Mesaba iron range belonged to the public domain. The lands have been frittered away and stolen. It is a shameful record—the public stripped through its fatuity and the craft of private interests and the lack of public spirit and breadth of view of American statesmen. It is part and parcel of a civilization that is based upon what Rockefeller is pleased to term "opportunity"—opportunity for the crafty and greedy to exploit and plunder the many.

And yet there are those that wonder that there is discontent in the United States and a rising wave of social unrest and radicalism. Would they marvel if an Attila or a Ghazan Khan should have descended upon the United States and through force have stripped the American people of the things which cunning and greed have possessed themselves of through the operation of law and privilege? Discontent! The wonder is that there is so little of it that there is only grumbling.—Milwaukee News.
