GREEN BUG TO THE RESCUE

REPORTS OF FURTHER RAVAGES BOOMS WHEAT.

PRICES GOES UP OVER CENT

Market Firm Most of the Day, With But Single Reaction - Corn Up Half Cent, and Oats

Even More.

CHICAGO, April 10.-Reports of further chicago, April 10.—Reports of further spread of the green bug pest caused an advance of more than 1c a bushel today in the price of wheat. At the close the May option was up to %6%c. Corn was up to, coats %c, and provisions 10c to 20c. The wheat market was firm the greater part of the day. A moderate reaction occurred as a result of the government report but the market quickly recovered from this slight setback and prices soon rose to a higher level than had existed prior to the announcement of the official prior to the announcement of the official statistics. The government figures on the average condition of winter wheat met the expectations of the most radical bears, but fresh reports of damage by green bugs in the southwest outweighed

green bugs in the southwest outweighed the effects of the government's statistics as it was generally conceded that great injury has been inflicted since the government figures were compiled. Many reports received today tell of further rapid spread of the green bug in the wheat fields of Kansas. The market closed strong with prices near the highest point of the day. May wheat pened 14.014c to 14.03c higher at 77th 77thc, sold at 75%c and then advanced to 78c. Final quotations were at 775%c. Clearances of wheat and flour were equal to 128,700 bushels. Primary receipts were 589,000 bushels against 361,000 bushels for the same time a year ago Minneapolis. Duluth and Chicago reported receipts of 364 cars against 417 cars last week and 185 a year ago. quotations were at 77%c. Clearances of

Trading incorn was quiet but the market displayed considerable firmness. The close was firm. May corn opened 1/401/4/4 higher at 46% to 46%c, sold up to 47%c and closed at 47%c. Local receipts were 153 cars with two cars of contract grade.

A new high record mark for the season was scored in the oats market, the May ention selling up to 43%c. The prin-

May option selling up to 43%c. The principal trading was in the July and September deliveries. One of the main sources of strength was a report that most of the oats already sown in Iowa would have to be plowed up owing to last night's cold wave.

May oats opened unchanged to 16c high.

May oats opened unchanged to 1/2c higher at 42% to 1/3c, advanced to 47% c and closed at 43% c. Local receipts were 141

Provisons were firm on covering by shorts. At the close May pork was up 20c at 16.224. Lard was up 10c at 8.85. Ribs were 12½c higher at 8.674. Estimated receipts for the week: Wheat 22 cars; corn, 192 cars; oats, 187 cars; hogs, 22,060 head.

Cattle.

Receipts were of fair proportion today and if there was any change in the char-acter of the offerings the quality was not

so good as yesterday.

On account of the improved tone to reports from eastern markets and the better general demand, the market was rather more active than yesterday and prices were a shade higher for desirable cattle of all weights. While the demand was largely consigned to local dressed beef men, there was enough inquiry for shipmen, there was enough inquiry for shipping account to make a good lively mar-ket and practically everything was dis-posed of some time before noon.

The supply of cow stuff was not very heavy, with the demand somewhat more vigorous than it has been lately. The trade was lively and prices a shade higher than yesterday for all useful offerings. Veal calves, bulls, stags, etc., were picked up freely at steady to strong prices, and the tone to the market was

healthy and firm throughout.

There was a good inquiry from both yard trader and country buyers for desirable feeding steers, particularly the cattle of good weight and quality, and prices were fully as high as they have been any time this season. On the other hand, there was a disposition on the part hand, there was a disposition on the part of buyers to discriminate against the light and medium weight stuff unless it had the quality. Grass is a little backward and the country is evidently not anxious to stock up with light stuff until the pastures are in good shape to receive them. Prices for the light weights were generally a shade lower than yesterday and 10605c lower than the close of last

Hogs.

Receipts of hogs were somewhat smaller than on yesterday and the market showed quite a little improvement in consequence. Advices from outside points were also in the main favorable and dealers got down to business early on the basts of prices, about 5s higher than yesterday, all around. The demand from packers appears aversed to putting on anything, and as a rule an up market is a slow one. Tops brought \$6.43% today, as against \$6.40 yesterday and the bulk of the trading was at \$6.27%26.40, as against \$6.35 yesterday. Everything was disposed of in good season, the market closing a little easier than the opening.

Sheep.

The sheep market was moderately supplied this morning and there was nothing very choice in receipts, except one let of god yearling wethers. The inquiry was fair from packers in the face of a decline at Chicago and while values were not quotably higher than yesterday the trade was active at the prices. Old execution trade was active at the prices. Old ewes fetched \$5.85 and clipped wethers and yearlings, \$5.90 Yesterda ya choice string of wooled ewes sold for \$6.00, a record price for some time. The market was active and the moderate number here sold in good season. It will be mnoted that support sheep are selling about \$'.00
