

KINGFISH LAVENSKI K, O.'S SNYDER

The leading dailies tell us of a grass hood-wink, engineered by Lena Levy. The whole crowd claimed that Snyder was told to dive, after hearing, that the gate receipts amounted to a small and disapproved sum of 1300 smackers. Snyder was to get a hundred smacks a round for each round, until the King felt like putting him

SCIENCE NOW INTERESTED IN SPORTS

The Scientific world must have been eyeing the hams of various lines of sports with disgust. Boy and we need them, especially the prize ring. We haven't had a 40 round fight since the days of Jack JJohnson. Most fighters find 10 rounds of fighting a hard thing to do today, and 15 rounds are a murder. Should science show a man or fighter how to get his second wind or keep a level head and good Bear Cat Wright found K. O. Crist- eye sight, at the same time, the whole

ALLECT FURNITURE WITH CARE

MERICAN women have won international reputations as intelligent buyers and their skill in this direction is one reason for so many econo mically

accessful homes. In these days of declining prices, women are doubly on the alert for good values and are keenly aware that "cheap" prices, in many instances, have been accompanied by unfortunata lowering of quality.

This is particularly true in upholster a furniture. Thousands of women have learned to their sorrow, that this is so and wish they en car te textile experts but here
