QUACK ACTIVITIES

As a part of its contribution to the North Side "Y" this year the Quack Club is having the office in the building partitioned. Having no partition between the main reception room and the office makes it very difficult to work in the office when activities are being carried on in the building. The Quack Club is able to have this work done with a part of the proceeds from its Annual Style Revue.

"Maxie Miller Writes"

(For the Literary Service Bureau)

(Note for advice write to Maxie Miller, care of Literary Service Bureau, 516 Minnesota Ave., Kansas City, Mo. For personal reply send self-addressed, stamped envelope.)

MAXIE MILLER:—I'm twenty-two and I'm in love. But I don't want to leave my mother. My boy friend is older, is in good circumstances and says he wants us to live by ourselves. He laughs and says "I'm afraid of living with in-laws." Mother says it is all right with her if I go or stay. Sometimes I think I'll go; then I'm inclined to let this man go rather than leave home. What would you do?—Bertha.

Bertha: If I loved a man, believed he loved me, and he could take care of me, I'd not be fool enough to cast him aside. This man is right. When young people marry they'd better go to themselves. This will avoid friction and will give them a chance to gain knowledge through experience and to develop initiative and self-reliance. Marry and go.
—MAXIE MILLER.

CHILDREN AND CHILDREN'S DAY

by R. A. ADAMS
(For the Literary Service Bureau)

Children's Day involves interests and problems of children. The programs and exercises will have as their object the cultural development of children. This is wise because upon children depends the perpetuity of the human race. And, on the nature of this development will depend the quality and the utility of future civilization.

But, one of the unfortunate weaknesses of our present dealings with our children and their problems is that of placing the greatest stress on intellectual development, and assigning a place of lesser importance to the ethical and spiritual phases of these activities. This needs to be corrected, because, at best, the intellectual is erratic, given to dangerous errancies, and unable to direct the course of human life into safe channels.

Ethical enlightenment is necessary to bring knowledge of human relations, obligations and responsibilities, and to incite behaviour consonant with these. Much of the trouble in the world today is the result of failure to recognize these relationships and obligations, and to make practical application thereof.

Spiritual enlightenment explains and stresses relationship to God and the devolving duties ensuing. Duties to God and to our fellowman affect all human behaviour. Individual and collective peace, amity, and social prosperity are dependent upon them. These phases of human life and activities should be taught to children at a very

early age and are an indispensable element of culture development. These are matters worthy of consideration by parents, teachers, ministers, and all others who have to do with culture and development of children.

Book Review

"THE MERCHANT OF VENICE"

The National Home Library Foundation, 1518 K Street, N. W. Washington, D. C.

No comment is necessary on the literary content of Shakespeare's "The Merchant of Venice." There are, however, two interesting items in connection with my reading of this particular volume.

Quite recently it was my privilege to be called before Michigan's parole commission with a view of determining whether I should be granted a parole or made to serve further periods of incarceration.

Knowing that I might have to spend hours while awaiting my turn before

the commission I looked around my private collection of books and spied this little pocket-size edition of Shakespeare's drama. I recalled that years ago in school we had to learn the lines about "The quality of mercy is not staid—etc." and inasmuch as I was seeking mercy I took this little book along to read while waiting.

And while no modern-day Portia's appeared in my behalf I was fully prepared with letters from many of America's colored Portias, and by now all readers know that on June 8th I will have fully paid my pound of flesh. The second thought in connection with this volume is that it is one of the Jacket Library volumes and sells for only fifteen cents.

Youthful Strength
Dr. Magnus Hirschfeld, the world-known authority on Sexology and Director of the Institute for Sexual Science of Berlin, Germany, created
TITUS--PEARLS
to help the millions of men and women who have lost or are losing their vital physical power. In his 35 years of practice and research, however, he realized that the weakening of man's glands was also responsible for other troubles: High blood pressure, hardening of the arteries, physical exhaustion after work or exercise, dizziness, depression, neurasthenia, etc.
All these troubles can be removed with Titus-Pearls. Numerous cases were treated by Dr. Hirschfeld in his Berlin Institute.
L. S. (State Official; 60 years old, married) complained of physical exhaustion, dizziness and tremors. Was easily tired. Mental power dull and slow moving. Physical powers had been incomplete for previous 5 years. Blood pressure too high. Given 2 Titus-Pearls 3 times a day, 2 weeks later the medical report on this man was:—general health better, more vigor; dizziness much less and returning of power. Treatment continued and 2 weeks later L. S. reported again, this time to say that all weariness and exhaustion had gone; he felt fresh and buoyant. His blood pressure had fallen, and at 60 years of age he had regained the physical power and virility that he had known in the prime of his life.
Start regaining your youthfulness now! To-day! In 2 weeks time you will be aware of the new, virile force within you. Send \$5.00 (cash registered or money-order) for 2 weeks treatment. C. O. D. Orders accepted. Write for Booklet.
