COMPANY 786, C. C. C.

The colored people of Omaha has been well represented in the Civilian Conservation Corps, notwithstanding the fact that a full quota was not allotted. Last April, twenty-one, from our group were selected. Our pro rata was thirty.

I shall endeavor briefly to give the reader a summary of our itineraries. After a month's stay at Fort Riley, we were sent to Minnesota. We stopped a short time at Fort Snelling, Minnesota in order to get needed supplies. From here, we went directly to our permanent camp located at Clear River, fourteen miles from Warroad and only nineteen miles from the Canadian Border.

Types of work at Clear River Camp consisted of road construction, fire fighting, clearing the forests and dam construction. We remained at Clear River all summer. In September, we moved to winter quarters at New Independence, twenty four miles northwest of Duluth, Minn. The name of the camp is S-60.

I have given you full details of all Company 786's travels. The colored foresters from Omaha have made a splendid record for themselves. We hold the highest positions in the company such as overseer, section, subsection, and squad leaders. According to our percentage in the company, we hold more than our pro rata of responsible positions.

This concludes my summary of colored Omaha's representation in the Civilian Conservation Corps.

LES CHARMANTES

Hello Folks:

For a correct pronunciation of our club name, Miss Edson sent to Washington for the complete "layout" of our French name for the benefit of our friends. Lay shar-mants is the correct pronunciation.

We are wondering if Mr. Charles Davis, our president, is thinking about having a combat with Mr. Roosevelt in the next election. He has been spending his brief spare moments in the library plundering over parliamentary law books. Oh, well Les Charmantes will boost you "Charles".

The Halloween Party was the main business feature for the evening. It will be an invitational affair held October 30th at the Community Center.

Mr. David Mems was appointed by the president to be Sergeant at arms. We wonder if its due to Mr. Mems large stature or to the gruffness of his voice? Anyway the president stated "not too much violence Mr. Mems," booby by Mrs. Carr.

They tell us that Whimpy and William White tried to see how fast they could run the night after the dance. And they weren't doing road work either. Now just who was behind you boys. Tell us all about it. We'd like to know.
