California Gov. Says Lynching A Good Thing

St. Joseph, Mo.—Within less than a weeks time of the sensational lynching at San Jose, California, Lloyd Warner, 19 year old Negro youth met his fate at the hands of an angry mob of Missouri lynchers after he was turned over to the lynchers by Sheriff Otto Theisen Tuesday night. Sheriff Theisen said that he turned the Negro over to the mob rather than open fire on the crowd surrounding the county jail because he would have killed innocent people.

Sheriff Otto Theisen gave the victim to the lynchers after they had battered at the jail for hours, doing heavy damage to the sturdy building. At 11:40 o'clock, after the mob had torn away the steel barred outer door of the jail with a motor truck and chain, the sheriff came out in front of the building and raised his hand to be heard. Only those nearest could hear his words, but he said he was willing to give up Lloyd Warner.

Warner then was dragged out, and propelled around the corner and south on Fifth street in a press of thousands of bodies, wedged tight across the street. The crowd was shouting and cursing. The huge crowd pressed around, filling the street and sidewalk space for about three blocks, packed solid, the weaker ones jostled and bruised. Three youths shinned up the trunk of the big tree, one hauling a heavy rope. They threw it over a limb, and the Negro, stripped to the waist, was jerked into the air, as most of the crowd cheered.

Salisbury, Md.—Defying Governor Ritchie's order to arrest nine men said to have led the mob which October 18 lynched George Armwood in Princess Anne, another mob of resentful Marylanders Tuesday attacked state guardsmen who had been sent to capture the lynchers.

Says Miss Anna Louise Strong. New York, N. Y., November 25 (CNA)—Contrary to the popular opinion generally held that there are no Negroes in the Soviet Union, Anna Louise Strong, famous international journalist now visiting America, revealed that a tribe of Julius had been discovered recently in the lower Caucasus near the Black Sea.

"They exist under a condition of complete freedom in the Soviet Union. The Government is utilizing every means possible to help them develop and consolidate their culture. There is no race prejudice in the Soviet Union," said Miss Strong. The government is founded on a socialist basis which will not tolerate such practices."

Scottsboro Boy Rec. 3rd Death Sentence

Decatur, Alabama, Dec. 2, 1933—The jury holding the fate of Haywood Patterson in their group returned a verdict, which call for a death sentence in the trial of the first of seven defendants in the Scottsboro trial, accused of attacking Victoria Price and Ruby Bates, one of the girls issued the following statement before the trial.

"Boys Are Innocent" I hear that the Scottsboro boys are going to have to go back for a new trial," she said. "I hear the lawyers and everybody are going down there again, and I want to go too. Last time I told how these innocent boys were framed up by the deputy sheriffs and Victoria Price and it made me feel better after I told the truth. I want the world to know them boys is innocent and that they did not touch Victoria Price or me. I want everybody to know that the story I told to Reverend Fosdick is the true story of Scottsboro."

LATEST NEWS ON TRIAL. Decatur, Ala., November 25 (CNA) Heywood Patterson goes to trial on Monday, November 27th before the Ku Klux Klan Judge Callahan. Callahan has expressed the determination to rush the trials of at least four of the seven boys through before Christmas. Charlie Weems is to be arraigned a week from Monday, and his trial to follow shortly. Judge Callahan overruled the defense motion to squash the jury venire holding that Negroes are not illegally excluded from the Morgan County. Callahan made this ruling fully aware of the fact that in his forty-two years of law practice he had never seen a Negro on a southern jury.

Attorney-General Knight has announced that he will call to the witness stand for the prosecution Orville Gilley, white boy, whose testimony the state failed to present at the first and second Scottsboro trials. Ruby Bates whose life has been threatened if she appears in Decatur again, gave her testimony to Julius Applebaum, 32 Broadway, as directed by an order of the court. Joseph Brodsky, International Labor Defense attorney, explained to Judge Callahan that Ruby Bates refused to come to Decatur because of the open-voiced threats to kill her.

The atmosphere in Decatur is very tense. The safety of the Scottsboro Boys and their attorneys grows less secure every hour. Unless the Negro people, white workers and sympathizers act and that quickly, morally and financially the Scottsboro boys will not be saved.

There has been more than forty-four lynchings in America since the first of this year. Two Negroes were lynched in South Carolina and Louisiana this week.

Sheriff Murphy covered up his dastard deed by saying that Leslie had attempted to reach for a hidden weapon.

Leslie's arrest followed the arrest of more than fourteen Negro farmers in Farmersville who were active in the League of Struggle for Negro Rights.

The state also argued over these two words in the lynching of Norris Dendy July 4 at Clinton, S. C. Both men were taken from jail and killed. The county solicitor here will present the Thompson case to the grand jury next month. Four white textile workers are being held for Thompson's death. ANTI-LYNCH BILL INTRODUCED IN MARYLAND LEGISLATURE

Annapolis, Md.—(CNS) A special session of the General Assembly of the State of Maryland opened Thursday November 23, and the day was marked by the introduction of 15 miscellaneous bills and five liquor measures. Among the miscellaneous bills was one on lynching introduced by Delegate Oliver Metzger of Prince Georges County, who represents in the lower house of the Maryland Legislature, approximately 60,000 persons of whom about 15,000 are Negroes. Mr. Metzger in speaking of the anti-lynch bill said it would no doubt prove a controversial measure but that it embodied his own ideas on the subject.

An unusual feature of the bill prohibits persons who have formed or expressed any opinions in favor of lynching from serving on juries which try lynching cases. The measure aims to abolish lynching chiefly by making counties and cities liable to the extent of \$5,000 when a crime of this type occurs within their borders.

Undismayed by the fate of a similar bill received in the last regular session. Delegate Frank Hirt introduced an unemployment insurance bill providing for weekly payments of \$18.

A bill to regulate the business of hair dressers and beauticians was introduced by Mrs. Lulu W. Boucher of Allegheny County, at the request of beauty parlor operators who desire to shut out the "kitchen sink" hairdressers.
