

### Files For County Attorney

Mr. Harland Mossman.

Harland L. Mossman filed for the Democratic nomination for County Attorney on Wednesday, March 14, 1934.

Mr. Mossman has been a resident of Omaha for years, where he has been a practicing attorney. He now offices at 1045 Omaha National Bank Building.

Mr. Mossman is a family man. Besides Mrs. Mossman his family consists of five sons and one daughter.

In announcing his candidacy Mr. Mossman said: "The press carried stories almost daily of lawbreakers who...

"I promise the people of Douglas County speedy, fearless and vigorous prosecution of crime and careful attention to the civil matters relating to the county government."

When interviewed Mr. Mossman said: "Being county attorney is a real job. If properly handled it will take best there is in a man."

#### WHAT NEGRO EDITORS ARE SAYING

"The only way to cure an evil or right a wrong is by definite positive action... The longer the disease of discrimination continues the more difficult will be the cure..."

#### WHAT OTHERS SAY ABOUT US

"Our colored population represents the evolution of the one-time African slave through various generations into a peaceful, law-abiding, and useful unit."

### HOW WILL THE VOTE GO?

The proposed Congressional bill to tax all government business enterprises on exactly the same basis as private enterprises should not be lost sight of. It should be brought to a vote at the earliest possible opportunity.

The bill is vitally important for two very different reasons.

First, the government is in dire need of additional revenue—and it is becoming increasingly evident that this cannot be safely obtained by additional taxes on individuals and industry.

Second, the public has never had an opportunity to judge the efficiency of government in business—largely because, being free from taxes, public enterprises have a tremendous advantage over private businesses of the same nature.

There is not a single good reason why government ventures which fall within the realm of business, as distinct from those performing a necessary service benefiting the entire nation, should not be taxed.

for release a series of eighteen articles dealing with various aspects of the Association's activity during the past twenty-five years.

The first article, entitled "The War on Lynching" is attached herewith. The succeeding articles will be under the same heading, having only different sub-headings. They will be approximately of the same length as this one and will deal with such topics as: "Fighting for the Rights of Residence," "Fighting Educational Handicaps," "Fighting for the Negro Farmers," "Protecting Negro Womanhood," "The Fight for the Right to Vote," "Stimulating Cultural Achievement," "The Fight for Public Accommodation."

We are offering these articles in the hope that they will prove of interest to your readers, and we have endeavored to make them interesting, running accounts, and not simply a dry propaganda. We trust that you will be able to reserve this amount of space weekly for them.

#### NOW THAT SPRING IS HERE AGAIN

Now that spring is here, and summer is just around the corner, the minds of millions are occupied with plans for vacationing.

This is an unusual year for the traveler, so far as paying for one's wanderlust is concerned. The current rate of exchange with most European currencies, for example, is much less favorable than it was a year ago.

The result is that where travelers used to think of first in Europe, they are now looking elsewhere. They're going either to countries where the money rate is favorable—or they are going to follow the old adage and really see America.

Seeing America is an especially excellent idea. It's a big country—and very few of its citizens have more

lynched at Laurens, S. C. was awarded damages of \$2,000.

The long and determined fight of the Association for a federal anti-lynching law culminated in the passage of the Dyer Bill in the House of 1922 by a vote of 230 to 119. The national office with the full support and cooperation of the branches now pushed the fight on every front for passage through the Senate.

Today, after a passage of ten years in which lynching steadily declined until the rise from 10 to 28 last year, the association is again fighting for the passage of an anti-lynching law.

The Association did not confine its agitation against the lynching evil to the United States. It sent lynching facts and parades with stirring placards in London, France, Germany, Italy, Russia, Japan, Sweden, Norway, Finland and all Latin America, and still does.

The Cooperative Division of the Farm Credit Administration reports that a million more animals were handled by farms' cooperative sales agencies operating on terminal livestock markets in 1933 than in '32. The value of the increase is placed at \$7,000,000.

That record is similar to those made by other major cooperative groups last year. The cotton producers, the dairymen, the fruit farmers of various sections—all of them showed an increasing faith in the necessity and efficacy of the cooperative plan.

Cooperation is the keystone of agri-

culture—precisely as it has been the keystone of industry for many years. All the government relief in the world no matter how well intentioned and how expertly administered, can be of but temporary benefit. It can aid—but it cannot cure a problem. It may carry farmers over lean periods—but it cannot assure fat ones. The cooperatives are permanent. They are uninfected by political considerations. They do not go out of business with the change of each administration. They are here to stay—and their work never stops, never wavers.

Farmers should make 1934 the record "cooperative year." They should loyally support their organizations, and seek to enlist new members. Doing that means money in their pockets—and it means that real farm recovery is on the way.
