Chappell, the radio announcer says, you know what I mean.

We tried to convince a lot of people against their will in the spring and summer of 1933, as to whom and what to vote for, but the writer says, "If you convince a fool of his will, he is of the same opinion still."

The "Singing Windows" of Tuskegee

The Chancel Windows of the Tuskegee Institute Chapel are a pictorial record in stained glass of the history and aspirations of the Negro in America as expressed in the religious folk-music of the race. Eleven of the best loved spirituals provided the motifs in the design whose central theme is the basic unity of the human family. The Windows in design and execution are the work of the Lamb Studios of New York City. Each window is eighteen feet high by four and a half feet wide.

United States has condemned lynching and urged enactments of federal legislation to assist the states in eradicating this national evil; and:

"WHEREAS: The National Board of the Young Women's Christian Associations of the United States, the National Student Council, the National Public Affairs Committee, and many local Associations have endorsed the Costigan-Wagner Anti-Lynching Bill (Senate 1978):

"BE IT RESOLVED: That the Thirteenth National Convention of the Young Women's Christian Associations of the United States telegraph the President expressing great appreciation of his stand against lynching, and requesting him to urge the leaders of Congress to enact the Costigan-Wagner Bill at this session of Congress and be it further:

"RESOLVED: That inasmuch as effective enforcement of any legislation depends on public opinion in states and communities, we commend to the President for his consideration the calling of a conference of governors of at least those states where there have been lynchings during the last ten years, for the purpose of formulating sustaining state legislation embodying fundamental principles essential to the eradication of lynching."

This is active participation! This is history in the making! These women of the United States of America, representing 600,000 enrolled members in Associations in the North, South, East and West, will be working cooperatively on this progressive program for mutual social betterment.

BABY SHOW PROMOTERS ARE JAILED

(Continued From Page One) they were attempting to convert all of the proceeds and leave the Legion high and dry, Mayo and Holland entered into a promotion scheme with Roosevelt Post No. 30 or the American Legion, wherein they were to be given the right to promote a Baby Show under the Legion name, and giving to the Legion a guarantee of \$100 for the use of the Post name. At the wind of the Baby Show, the promoters were unable to pay the \$100 guaranteed the Legion.

In a conference of Post officials, and promoters of the Baby Show, some of the Legionaires were of the opinion that the promoters should be jailed, while others thought a settlement would be better. Mr. Ed Turner, Post member, stood out for settling the matter without going to Court. Turner had nearly completed a deal with Mayo for payment of \$50, when someone in the meeting shouted "throw them in jail." Holland, one of the promoters, then spoke up and said, "if that is your attitude, we won't give you a dam cent, you haven't anything on us, throw us in jail." Turner stated the finances, as listed to him by the promoters, were expenses \$300, income \$167, deficits \$133.

Arrest of the Baby Show promoters, Mayo and Holland, was ordered upon assigned complaint filed by the American Legion Commander and the Roosevelt Post Number 30 Executive Board.

HANDKERCHIEF TEST THRILLS SMOKERS

How a New Kind of Tooth Paste Dissolves and Removes Ugly Tobacco Stains

BOST Tooth Paste is more than a clean-tasting, refreshing dentifrice. It is the only tooth paste specifically created to remove the unsightly yellow stains from smokers' teeth. Go to your druggist today, buy a tube of BOST Tooth Paste and make the famous "handkerchief test."

It is this: Inhale a mouthful of tobacco smoke and blow it through your handkerchief. The brownish, yellow stain on the cloth is the same "Smoke Screen" that cigarettes deposit on your teeth. Now squeeze enough BOST Tooth Paste on the handkerchief to cover the stain. Then rub the spot briskly with your wet toothbrush and see how quickly the discoloration disappears.

Make this same test with any other tooth paste and you will find that the stain remains on your

handkerchief. In like manner, BOST Tooth Paste, and no other, will remove from your teeth the stubborn chemical deposit of tobacco. BOST contains no acid, no abrasives, and is as safe and beneficial for the teeth of children as for adults. It sweetens the breath and refreshes the mouth.

Brush your teeth with BOST Tooth Paste regularly. Consult your dentist periodically. And you will be doing all that you possibly can do to protect your teeth and keep them spotlessly clean.

BOST Tooth Paste is sold at leading drug counters everywhere. Or in liberal trial tubes at your nearest chain store. If your dealer is out of stock, send 15c (to cover postage and handling) for a quantity 14-day supply. BOST Tooth Paste Corp., 9 East 43rd St., New York City.
