DR. THOMPSON SCORED HEALTH DEPARTMENT AND U. S. PUBLIC HEALTH SERVICE

WASHINGTON, July 6.—(CNS)—Dr. William J. Thompson, the new Recorder of Deeds of the District of Columbia has not been in the City very long, but "out of a rich experience as a one time superintendent of the Kansas City General Hospital No. 2, and Assistant Commissioner of Health of Kansas City, he has called attention to District Health conditions, with the accompanying high death rate among infants from tuberculosis.

Dr. Thompson scored both the Health Department and the Public Health Service for neglect of health of colored children of pre-school age. He advocated establishment of well baby stations in every community, pointing out the frequent impracticability of a colored mother with several children reporting to Freedmen's Hospital for clinical instruction.

J. F.—What kind of employment will I enter into next and will I make it success of it? Ans: You will not work for anyone else for you will open up a SMALL BUSINESS of your own this summer.

C. E. D.—How long will my son go to school next term? Ans: He is not thinking of quitting school. He will remain in school for the full nine months and will pass his work with good grades.

H. A. G.—Will I get anything from the party that I worked with in a near city? Ans: Your old business partner fully intends to beat you out of the money that he owes you for labor.

J. B.—How will my husband make now and is he guilty? Ans: He will receive a sentence, but it will not be a very long one. He has not been misjudged and he will take his medicine like a man.

E. F. C.—What is my talent and will I cultivate it? Ans: The work that you could do most successfully throughout your life is ACTING. Enter into all the dramatic plays that they hold in your city and try to join a dramatic club.

It is impossible to enter into discussion of business conditions these days without bringing in the ominous word "strike". The labor problem is uppermost in the mind of every executive—even though his business has not been directly affected, threats of a general strike keep him awake nights.

It is an interesting fact that we hear more of strikes now than at any time since the great post-war walk-outs—yet the number of men involved in strikes, and the total of working hours lost, are about the same as in the past five or six years.

Recently a birthday party of great national importance occurred. It marked the first anniversary of the NRA—the most extraordinary bureau ever created by the Federal Government.

it had abrogated every major provision of the Constitution. Neither of these viewpoints is indicative of the stand the American people will take when they finally express an opinion.

Most commentators are of the opinion that the main trouble with the NRA is that it grew too fast and tried to cover too much territory. In the beginning, it was principally an arbiter of working conditions—it laid down minimum wage and maximum hours-of-work rulings.

The powers-that-be in Washington, as a matter of fact, have recognized this. The NRA is giving up price-fixing. It is about to reduce the number of codes in effect by 70 of 80 per cent. It is becoming less arbitrary in its actions.

Most of these changes, which are being received with great applause by the bulk of industries, may be credited to Mr. Roosevelt. The President is the commander-in-chief who makes the final decisions.

of a tax system that would relieve the tax ridden property owners. He stated that if a man had \$5,000 worth of real estate, he had to pay taxes on it, but if a man had \$5,000 worth of exempt securities, he escaped the tax burden.

Mr. Joe Rosenbloom was introduced as a representative for Judge Herbert Rhoades, who is running for Congressman from second district. Mr. Rosenbloom made a very fiery address for Judge Rhoades, which was well received by the audience.

Senator Wherry, the principal speaker of the evening, stated the basic wealth of Nebraska coming from the soil, that unless the agricultural district prospered, it was impossible for Omaha to prosper, therefore Nebraska as a whole prospered as a whole depended on the success of the farmer, and if he was elected to the United States Senate, his job would be to fight for the rights of the farmer and to strengthen our financial institution.

It is predicted by Mr. Friedlander that Senator Wherry will carry the second and third ward of Omaha 100%. At the close of the meeting refreshments were served by the Refreshments Committee.
