From the beginning of his career up to date, Omaha has always known that there was nothing behind the scenes unexplainable in every act of his life in the many law enforcement positions he has held in the last 20 years. Robert Smaradick was found in everyone of these positions, as solid as the pyramids in Egypt. He is courageous, honest, fearless and a true friend of society. Even the enemies of good government will give him that credit. He is kind, sympath etic, but positive in his command to his associates in the line of their duty to society, and likewise to the law vio lators. Even the law violators have this to say about Stmardick. He will give the third warning before taking! definite action against anyone that is (Continued on Page 3)
