

"REVEALING" your PAST, PRESENT and FUTURE...

B. W.—Will you please advise me whether or not I should marry the man I have in mind?
 Ans: The man you have been corresponding with would like very much to make you his wife, but I would not advise you to marry him as long as there is the slightest doubt in your mind about him. Anyone who is as close with money as you are couldn't be happy with a spend thrift.

M. B.—Where will I go to school?
 Ans: Concentration reveals your aunt coming down to see you this summer and taking you back home with her. You will attend school in the city she now lives in.

S. M.—Please tell me how soon will my daddy own a car and have the lights turned back on?
 Ans: Just as soon as he gets money enough. He too, is just as fond of good times and luxuries as you are. He knows when he can afford a thing and when he can't. Try saving your own pennies and help him and the day will come when you will be in a new home and have a new car and modern conveniences.

O. P.—Will the doctor I owe a

large doctor bill to, cut this bill or will I have to file suit?
 Ans: I believe it will not be necessary for you to file suit against the hospital you were in for your operation. They realize that it was their mistake when they left a needle in your body and will do the right thing by you and cut the bill.

I. V. S.—Will my son be successful or will he have to give up his plans?
 Ans: Your son will have to make another attempt before he will get in the Navy. That line is crowded at this time and he will have to remain on the waiting list quite a while before they will be able to take him.

E. E. M.—My sister wants me to return to school. What do you think I should do about it?
 Ans: It would be a brilliant idea for you to continue your education however, you cannot go to school in your home town on account of the misfortune you had two years ago, as you will be looked down upon. Why not go to another city to complete your education and let this mistake be outlived.

P. C.—Do you think I should change my course in college?
 Ans: Since you are planning on teaching in the grade school, it would be a good idea for you to take up the course in that line. If you do not take this course now, you will have to take it before you will be permitted to teach grade school.

J. R.—When and where will I get to see the people I have in mind?
 Ans: Your father and uncle are now in Detroit, Michigan, it is revealed that you will get to pay them a visit in the near future. Why don't you let your father know how badly you want to see him—I believe you persuade him to give you enough money to make this trip.

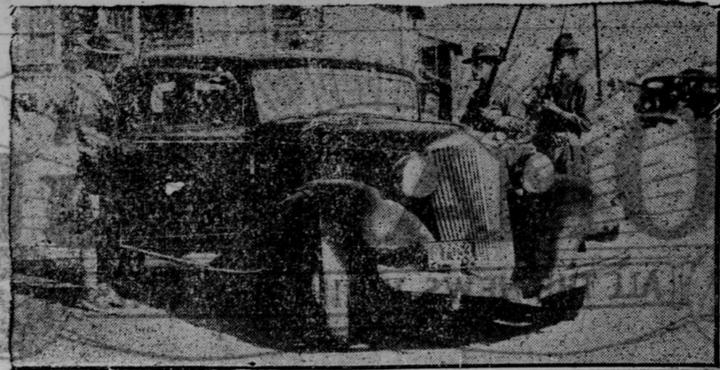

V. H.—Will you please tell me what causes this breaking out I have?
 Ans: This breaking out on your face and back appears to be ACNE which is a disease that is hard to cure with medicine. Have your doctor make you out a diet as I believe this will be the best way to cure it.

O. S.—Do you advise me to have an operation and should I get married?
 Ans: I see no reason why you should not get married, to this man you are now engaged to. This operation you are planning on having does not seem to be very serious, however it will be several years after it before you will be able to bear a child.

residential bulding between 1920 and 1929 was not in excess of requirements. Even though the high average total of 5,000,000 new residences were erected each year, changes in population density, increases in the total population, and obsolescence of old dwellings, prevented overproduction of housing.

Since 1929, residential building has dropped from 800,000 homes a year; to less than 100,000.

The shortage is especially acute in rural districts, inasmuch as depression forced an exodus from cities to the farm. Also, the rural homes offer the greatest field for raising the standard of housing through introduction of labor saving conveniences.

It seems inevitable that the United States, within the comparatively near future, will witness heavy increases in building and remodeling.

 ing the disturbances. After the manager left the white boys were alleged to have started calling the colored boys names, and abusing them, which resulted in a fight, and both of the colored boys were cut on the right cheek. They were taken to the Lord Lister Hospital by officer Buford, and attended by Dr. Goodrich, then went to their homes.

The white boys left the theatre before the officer arrived, but a description of the boys was given.

PLEADS NOT GUILTY
 A man came before the Judge after hearing the evidence of three witnesses, the Judge said to the defendant, "How can you plead not guilty when these three people saw you do it?" The man said, "Judge, your honor, there are three million people that didn't see me do it."

Judge took the case under consideration.

Castro, Swanson and Jensen gave a description of the two men who came inside, but they did not get a chance to see the man at the wheel good enough for a description.

ROB TWENTY GRAND POOL ALL

Three men entered the Twenty Grand Pool Room and Barber Shop, 1330 N. 24th St., Sunday, Sept. 2, at 9:20 p. m. The robbers took \$50.00 from the assistant manager, Tommy Coleman. One man stood at the front door, while the other two men went behind the partition into the pool hall. One man with a .45 pistol, covered Coleman while the others scooped up the money. The patrons ran out of the place when they saw the revolver. Policemen investigated and got the description of the men.
