

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By Rev. P. B. FITZWATER, D. D., Member of Faculty, Moody Bible Institute of Chicago, and Western Newspaper Union.

Lesson for March 3

PETER UNMASKS FALSEHOOD AND HYPOCRISY

LESSON TEXT—Acts 6:1-11, 8:18-24. GOLDEN TEXT—Wherefore putting away lying, speak every man truth with his neighbor: for we are members one of another. Ephesians 4:25.

PRIMARY TOPIC—Peter's Friend Helps People. JUNIOR TOPIC—Peter Stands for Truth and Honesty. INTERMEDIATE AND SENIOR TOPIC—The Sin of Lying. YOUNG PEOPLE AND ADULT TOPIC—Modern Forms of Hypocrisy.

I. Ananias and Sapphira (Acts 5:1-11).

The new community formed after Pentecost is now for the first time called the Church. Since the Christians have now broken with Judaism the success of the new community depends upon its gaining recognition. The Church is now superseding the Mosaic economy. It was now to be God's dwelling place, as hitherto it had been in the Tabernacle and Temple. Their sanctity was now being transferred to the Church. This fact the Church itself must learn as well as the Jewish people who surrounded it.

1. Their sin (vv. 1, 2). It was a hypocritical imitation of the generous act of Barnabas (4:36, 37). Because of the particular distress of the early Church following its open rupture with Judaism, its members for a time had a "community of goods." This was not universal nor permanent. Ananias kept back a part of the proceeds from the sale of his land, while pretending to have brought it all. His wife was a partner in it. They wanted the honor of generosity without paying the price thereof.

2. Their judgment (vv. 8-10). Physical death was visited upon Ananias and Sapphira for their sin. They lied to the Holy Ghost in keeping back a part of the price of their land. They were not obliged to sell their land or, having sold it, to bring any of their money and place it in the common fund. People today are walking in the way of Ananias and Sapphira when they make a profession of Christianity for temporal gain and pleasure. Preaching the sermons of Moody, Spurgeon, etc., without giving credit is another form of this evil. God is passing judgment upon many for their sins of this kind (1 Cor. 11:27-30).

3. The effect (vv. 11-16). a. Great fear came upon the Church and upon all who heard of these things (v. 11). The Church should be regarded as holy because of its being the very dwelling place of the Most High God. Irreverence is an outstanding sin of this age.

b. Multitudes of men and women were added to the Lord (v. 14, 15). The fame of Peter was spread far and wide, so that the people were anxious to come under his shadow. The proper recognition of the holiness of the Church, the body of Christ, will bring many to Christ for salvation.

c. Hypocrites did not dare to join (v. 13). The vindication of the holiness of the Church deterred none but hypocrites from joining. No unregenerate person and nothing unhallored has any place in the Church.

4. Simon the Sorcerer (Acts 8:18-24). 1. His wicked request (v. 18, 19). When Simon saw that Peter's power to work wonders exceeded his own and that this power was received through the laying on of hands, he offered money for the gift. This act revealed his hypocrisy. He professed faith in Christ and was baptized, and even followed the apostles for a selfish end. Traffic in sacred things is called "simony" from the name of this sorcerer. Making merchandise of Christianity is committing the same sin. Using the name of Christ for the purpose of gain is to be guilty of this sin.

2. Peter's severe rebuke (vv. 20-22). a. "Thy money perish with thee." This implies that Peter's judgment was that Simon was unregenerate and that he himself was in the way of perishing.

b. "Thy heart is not right in the sight of God." One whose inner life delights in God could not seek the Spirit's power for selfish reasons.

c. "Repent of thy wickedness and pray to God for forgiveness." While Peter recognized that this man was unregenerate, he did not regard him as beyond the hope of salvation, but urged him to turn from his sin and ask for forgiveness.

d. "Thou art in the gall of bitterness and in the bond of iniquity." The one and only thing for this man to do was to repent and seek forgiveness. Simon requested Peter's prayer to the end that he might escape divine judgment.

ST. JOHN'S A. M. E. CHURCH "The Friendly Church"

Rev. L. P. Bryant, Pastor

The fine weather made a big difference in the attendance at St. John's last Sunday. Rev. Bryant preached in the morning and the choir gave its regular fourth Sunday night all request program.

The cars in the rally are moving off by degrees. Miss A. Offutt is now in the lead. See your captain, and help get your group in the lead. There are some interesting programs in the

near future that will benefit the rally fund.

The Sunday School is still looking for you to come and stary your regular attendance every Sunday. Last Friday at the teachers' meeting, there was a program in the form of a discussion on the growth of the Christian Church. The problems of the Methodists was one of the main points for discussion.

The members and friends of the Church regret to know of the death of the husband of Mrs. Flora Rhodes. Our deepest sympathy goes out to sister Rhodes and family in their days of sorrow.

Now that the weather is getting better as the spring draws near, we hope that the members and friends will attend all services and come on time that they may get the full gospel message in store for them.

ST. BENEDICT'S PARISH NOTES

Sister Mary Edith, left last Friday evening, to attend the funeral of an aunt who died in a small Nebraska town. She is expected to return in a few days.

The Cooking and sewing classes are proving their popularity by an overflow of enrollment in both branches, thereby making it necessary to open night classes for the ladies who are employed, and wish to take advantage of this opportunity. An elaborate style show is planned to follow the sewing class, and a parish dinner will be given by the ladies assisted by Mrs. Mahammitt, at the close of the "lass in cooking."

Several of the children made avist to St. Mary's High School, and gave a short program, in appreciation of the wonderful gifts of clothing donated to the poor children of St. Benedict's, by the Students of St. Mary's.

A "Kiddie Kostume" dance is being planned for the near future, by all the members of the parish, taking the adults back to the days of childhood, (in costume, anyway). The date will be given soon.

A series of Bridge games, ending with a tournament, is being sponsored by the hospitality committee of the P. T. A. Five games will be played at intervals and a prize given for the winning score, then at the close of the tournament a grand prize will be given to the highest general score.

SALEM BAPTIST CHURCH

22nd and Seward Sts.

Rev. E. H. Hison, Pastor

After the session of Sunday School, presided over by the superintendent, had ended, the minister took his place in the pulpit. There was evidence of much tension as the gospel was delivered by all present. His subject was one of caution, "The Covenant With Death and Hell". The passage of scripture for this liable subject is Isaiah 28:14-19.

Rev. Hison stated that Judgment should first start in the house of God; that now is the time to pray, for the people must first come back to God before He will come back to them.

Among the many in attendance Sunday, we were happy to see Mr. J. D. Lewis, one of the outstanding morticians of our race, Mr. Robert Jackson, Mr. John McLaugh, a Fellow-Worker from Chicago, and many other visiting friends, including a personal friend of Rev. Hison, the great Bishop L. M. Musgraves, of Oklahoma.

METROPOLITAN SPIRITUAL CHURCH

1818 N. 24th St.

R. W. Johnson, Pastor

Mrs. Georgia Peoples, Reporter

Rev. Frank R. Massey, pastor of the Spiritual Church in New York City, conducted a wonderful revival in our city last week. He is a wonderful speaker and brought to us so many worthwhile thoughts.

Professor Boswell is here this week and has brought a wonderful lesson. We are always glad to have visitors.

SENATOR COSTIGAN TO SPEAK FEB. 12 OVER NATION-WIDE RADIO ON ANTI-LYNCH BILL

New York, Jan. 25.—Senator Edward P. Costigan and perhaps Senator Robert F. Wagner will speak over a nation-wide radio hook-up of the Columbia Broadcasting System Tuesday, February 12, at 11:00 p. m. Eastern standard time, on the Costigan-Wagner anti-lynching bill, it was announced here today by the National Association for the Advancement of Colored People.

The exact stations in the broadcast are not known today, but the list will be made public as soon as member stations of the Columbia chain reply to headquarters on whether or not they have local commercial programs at that hour. All stations which are free will carry the speech.

With the broadcast coming on February 12, the 26th birthday of the association, the national office in New York has issued an appeal to all branches to arrange meetings on that night with an appropriate program, the climax of which would be the speech over the radio against lynching.

ing. Branches have been urged to arrange for the connection of radio loudspeakers in halls and auditoriums so that the Costigan speech may be heard by the assembled audience. For listeners in the middle west the speech will come through at 10 p. m. and for mountain zone listeners at 9 p. m.

N. A. A. C. P. branches are asking all cooperating organizations to join them in sponsoring these meetings. The national office is asking all persons interested in supporting this legislation to make inquiry of their local Columbia radio station whether it intends carrying the anti-lynching speech.

FAKE CHARGES AGAINST JANE NEWTON DISMISSED; WAS PERSECUTED BECAUSE SHE MARRIED A NEGRO

Chicago, Ill.—(CNA)—A city-wide protest here by Negro and white toilers resulted in the dismissal of 'disorderly conduct' charges against Jane Emery Newton (white), wife of Herbert Newton, Communist leader.

Case Storm Center of Struggle

The Newton case has been the storm center of struggle and controversy for several months. Early in December, the Newtons moved into the apartment of a friend, Mrs. Williams (white) at 615 Oakwood Boulevard. When the landlord, Dr. Mitchell, learned of their presence, he served an eviction notice signed by Judge Green on Mrs. Williams. When the Newtons and Mrs. Williams refused to move, the police swooped down on the apartment and arrested the Newtons.

At once, Dr. David Rotman, municipal psychiatrist, declared Mrs. Newton to be a victim of 'dementia simplex' or in the cruder words of Judge Green she must be insane to marry a Negro. Jane Newton was fined \$200 and placed on probation.

Exceptionally Brilliant

Subsequent examinations by psychiatrists proved that she was not only sane but exceptionally brilliant. Mass protest rallied by the League of Struggle for Negro Rights forced the court last week to dismiss the charge of disorderly conduct, to revoke the fine and to lift the probation.

At the same time, Herbert Newton, arrested for picketing the Oakwood Relief station, was freed. He still faces two charges arising from the eviction struggle.

FERA WORK PROGRAM RECEIVES HELP OF PLANNED PROCEDURES

Jacob Baker Assistant Administrator of the FERA in charge of the Work Relief Program, in a recent bulletin to State and local Emergency relief administrations has suggested working procedures for six socially valuable projects which can be carried on with a minimum expenditure for materials thru those on relief, who are qualified, regardless of race, creed or color. These special service projects offer deal opportunities for the training and talents in a coordinated community program.

The first, "Developing and Planning New Projects," suggests fundamental methods for proper preparation of work projects.

"Foods and Nutrition" offer a big opportunity for home economics classes enlarged community friendships and the application of the broadest educational interests.

"Demonstration Use of Surplus Commodities" suggests procedures for instruction in the preparation of appetizing dishes by relief clients for themselves through those competent to teach, but at present unemployed.

"Publicity for Public Health" further emphasizes the real and constant campaign for social progress along a broadening welfare front for all the people.

"Recording Results of Work Projects" indicates the scientific and regular check up on procedure and testing methods during the actual progress of the work projects.

"Photographic Records of Work Projects," suggests pictures of work projects both for the edification of those participating and their neighbors about them.

PROTESTED RELIEF CUT—ARRESTED FOR DISORDERLY CONDUCT

Patterson, N. J.—(CNA)—James Pinky, 50 year-old unemployed laborer was arrested in the office of Case Sup't Doris Keller of the Emergency Unemployment Relief Association when he protested the cutting off of his relief.

Two white workers, Sol Walker and George Norman, members of the United Unemployed Relief Association who accompanied Pinky, were also arrested.

Because Pinky's wife, who died recently, left a small insurance, he was dropped from the relief role. The officials argued that the sum was sufficient to enable Pinky to exist for 6 months. Most of the money was spent for unrel expenses and the remainder for immediate necessities.

N. R. A. HI-LIGHTS

1934 EAGLES GOOD IN 1935:

The NIRA has announced that Blue Eagles for particular trades and industries marked "1934", as well as those originally issued under the President's Reemployment Agreement, may be used in 1935.

Restitutions Averaging \$75,000 Weekly:

Through the efforts of the 54 field officers of the Compliance Division, workers are now enjoying back wage restitution at the rate of \$75,000 a week. Since June 16, 1934, the total sum won for workers by the field officers is \$1,468,000.

Stay Ordered On Scrip Provisions:

Provisions of various retail codes which prohibit the acceptance of "scrip" in payment for goods have been stayed for thirty days, to and including February 6, 1945, under an order announced by the NIRA. The codes affected are those for the retail trade, the retrail jewelry trade and the retrail food and grocery trade, together with "any other code or codes" in which similar provisions may exist.

One Code Assessment for Retail Trade:

The NIRA has approved an order under which a firm engaged in retail trade will be required to pay only one assessment for code administration regardless of the number of retail codes which affect portions of its business. However, it will be required to pay that assessment on a basis to cover its entire retail business, no matter how many lines it includes and other than its retail business will not be affected. The action indicates similar simplification throughout the code structure as soon as equitable means for working it out are perfected.

Cotton Garment Code Authority:

The NRA has reconstituted the Code Authority of the Cotton Garment Manufacturing Industry. The membership was removed by executive order on December 6, last, most of the old members are reinstated. The cause for dropping the others is that they have interests which conflict with their duties as Code Authority members.

Emergency In Cigarette Trade

Extended: the NIRA has extended to January 26, inclusive, orders recognizing an emergency due to destructive price cutting in the wholesale and retail cigarette trades and fixing minimum mark-ups. The extension was granted in order to provide additional time for review of a survey by the NRA Research and Planning Division of conditions in the cigarette trade.

Specific Labeling Proposed:

The Industrial Advisory Board, which has investigated the results of 16 years of grade labeling in Canada, reports that only one housewife out of eight buys on the strength of them, and only two out of eight knows that cans are labeled. It proposes that American canners use descriptions instead of symbols as "A", "B", and "C", or the words Fancy, Choice and Standard.

PENNSYLVANIA MAN IS EXONERATED ON RAPE CHARGE

New York, Jan. 25.—Samuel Smith, reputable Lewistown, Pa., man tried and convicted in November 1933, for alleged attempted assault with intent to rape a white woman, has been completely exonerated. On July 4, 1934, the trial court refused a new trial but in December the Superior Court of Pennsylvania held that evidence was insufficient to show criminal intent, that the highest offense that could possibly arise from the evidence was simple assault and battery, and ordered a new trial. Now, according to the National Association for the Advancement of Colored People which contributed \$100 to Smith's defense, the prosecutrix, one Ada Wise, has withdrawn all charges, and on motion of the District Attorney in open court on January 18, the Judge granted a dismissal.

RESULTS FROM CLASSIFIED ADVERTISEMENT

Mrs. Sigall called the Omaha Guide office about 9:30 Monday morning in search of someone to do house work at 2701 Maple Street. We are happy to state that inside of half an hour when Mrs. Sigall called back we had been successful in getting a very fine young woman to take the job. This same service the Omaha Guide will render to all of its readers. Give us a ring, WE, 1750, for any kind of work you may have around your house, sweeping floors, patching the roof, washing windows or papering your rooms. We are able to reach people who are efficient and honest. We do not have any applicants for whom we cannot vouch.

BRING DEAD TO LIFE WITH LATE DEVICES

Cae Stimulates Heart, Another Restores Breathing.

New York.—Nearly 500 persons apparently dead have been brought back to life in New York and Chicago by two of the scientific instruments recently developed by physicians.

Many of these 500 were quite literally "dead" by ordinary tests—a few of them new-born babies whose bodies had been laid aside with the last hope given up.

The 500 were restored not only to life but to health. They are the practical application of the same knowledge which is being used for the more sensational experiments. The immediate objective is an annual company of American "dead" about equaling the number of automobile fatalities. It is believed that as many as 50,000 in this group could be saved yearly if the new devices reached them soon enough.

Gold Needle Saves.

There is no progress yet toward restoring to life the person who has died of a wasting disease—nor any wish by physicians to attempt it.

About 200 of those brought back to life here and in Chicago were treated with the artificial pacemaker, a gold needle which stimulates heart beats with electrical impulses at the rate of 30 to 120 a minute.

This needle was brought out two years ago by the Witkin foundation of Beth David hospital, New York City. It grew out of the fact that up to 1930 about 60 persons, apparently dead, had been brought back to life by hypodermic injections directly into their hearts.

Adrenalin was frequently used, but even a 'shot' of caffeine similarly given, restored some of the 'dead.' This all called attention to a mighty effort which nature herself makes in every heart, in the first 90 seconds after it stops, to get it to resume beating.

The heart quickly loses alkalinity, and its acidity rises. With rising acidity the heart becomes a better conductor of electricity, its own natural control is partly electrical, with exceedingly faint chemical-electric currents.

Gives Electric Shock

The prick of a needle, without any hypodermic at all, is an electric shock to a heart in this condition. Realization brought the protection of the 'artificial pacemaker' to supply electric impulses.

It was found also that the heart has an electrical pacemaker of its own, a small group of cells in the right atricle, which seem to regulate the beat of the entire heart muscle. The gold electrical needle is used to substitute for these pacemaking cells.

Use of the needle tip there, instead of haphazardly about the heart, appeared to be frequently the direct source of recovery of life and permanent health.

The other new device for restoring the 'dead' is an insufflator, sponsored by the society for the prevention of asphyxial death. It is a pressure apparatus for mechanical breathing, which goes a step farther than the 'mechanical lungs,' the equipment of emergency squads and artificial respiration.

Insufflation forces oxygen and carbon dioxide into the lungs. Moreover it mixes them when necessary in proportions to stimulate as well as give the ordinary effects of air.

ITALY 'DISCOVERS' ABYSSINIAN OIL

Then Invades Only Independent Negro Republic

New York.—(CNA)—Discovery of rich oil deposits in Abyssinia reveals the cause of the unprovoked invasion of that country by troops of the Fascist dictator Mussolini. The attraction of Abyssinian uplands for Italy's 'surplus' population is also advanced as a reason for the attack.

The oil wells at Ualual were long guarded by Italian troops before the attack on December 5. Official maps, however, place this territory well within the boundaries of Abyssinia. France's agreement to Italy's proposed participation in control of the railroad from Djibouti to Addis Ababa, Abyssinian capital, undoubtedly means that Italy will be placed in a position to exercise control of arms shipments and other supplies of national defense which Abyssinia must bring by rail from Djibouti.

PRESIDENT JOHN HOPE WELCOMES VISITING DELEGATES TO MEETING OF ASSOCIATION OF AMERICAN COLLEGES

Atlanta, Georgia, January 18.—Special—At the annual meeting of the Association of American Colleges, held on Thursday and Friday at the Atlanta Biltmore Hotel, more than 480 college presidents and official representatives were in attendance.

At the opening session on Thursday morning, President John Hope of Atlanta University, in behalf of the white and colored colleges in Atlanta delivered the address of welcome. In his address, Doctor Hope pointed out the significance of the friendly cooperation existing between the two groups in Atlanta which made possible his welcoming address. He referred to the importance of education in creating such a situation as now exists and paid tribute to the college men and men, North and South, who were pioneers in the education of Negroes.

The Association of American Colleges is the largest and most inclusive association of colleges and universities in America. Its membership is drawn chiefly from the church-related and privately endowed institutions, although a number of state-owned colleges and universities also are members.

Sixteen colleges were recommended for membership in the Association among which were: Tuskegee Institute, Florida A. & M. College, Morris Brown College, and Hampton Institute.

Dr. Henry M. Wriston, President of Lawrence College, Appleton Wisconsin, was elected president of the Association to succeed Dr. W. M. Lewis, president of Lafayette College, in Easton, Pennsylvania.

At the Wednesday evening joint meeting of the Council of Church Boards of Education and the Church Related Colleges, a chorus of over sixty voices from Spelman College, Morehouse College and Atlanta University presented a program of music which elicited much favorable comment.

\$1000 IN PRIZES FOR STORIES OF LIVING NEGROES

Twenty Handsome Awards for Accounts of Struggle, Failure and Success—Rosenwald Fund the Donor.

Atlanta, Ga., Jan. 23.—On behalf of the Julius Rosenwald Fund, the Commission on Interracial Cooperation today announced the offer of \$1,000 in awards for notable stories of the efforts of living Negroes in the economic field.

In each of five classifications—domestic service, agriculture, industry, business, and the professions—there will be a first prize of a hundred dollars, a second of fifty dollars, and two of twenty-five dollars each. This will make a total of twenty prizes to be awarded for the most unique and significant accounts of the efforts of individual Negroes to make a living, or build a business, or succeed in a profession. Stories of struggle and failure, as well as those of success, will be eligible in the competition. Each will be judged on the basis of its probable helpfulness to others struggling with their economic problems.

Each story must be true in every detail, should not exceed 3,000 words, and may be written and submitted either by the subject or by some friend. In the latter case, the award will be divided equally between the subject and the person writing and submitting the story.

All papers must be in by September 1st and the awards will be made as soon thereafter as possible by a committee of competent judges whose personnel will be announced shortly. Full information as to the conditions of the competition may be had from the Commission on Interracial Cooperation, 703 Standard Building, Atlanta.

FEDERAL EMERGENCY RELIEF ADMINISTRATION

Must Make 'Excellent Biscuits' to Succeed As Household Worker In The South, Says FERA Official.

Mrs. Ellen S. Woodward' head of the woman's division of the Federal Emergency Relief Administration sent out a bulletin this week to forty-eight State Administrators and the Virgin Islands, in response to hundreds of requests from responsible city and county heads of work programs, setting forth information on standards for training general household workers.

"In the South, it is essential that a general household worker be able to make excellent biscuits", says Mrs. Woodward.

"This may be more important," she continues, "to the success of the worker than to be able to know a little about making a variety of dishes and have skill in none."

Mrs. Woodward further points out that it is desirable to distinguish clearly between training as nursemaids or cooks and training as general household workers. She also suggests that a survey be made as to the demand for household workers in a given community. The number of women on relief who can profit by such training should be considered and small groups ranging from 4 to 20, homogeneous as to education, training, and ages should be selected as far as possible.

A school Y. W. C. A., community service center, or church may be used for the place of instruction and available unemployed teachers utilized, as well as special supervision of home economics teachers from departments of education and colleges. Qualified home makers may also be selected to give instruction. A liberal and intelligent approach to the problem of employer-employee relationships is indicated in the following suggestion:

"A meeting may be called of household employers and employees to list the things householders wish done by a general household worker, hours of work, wages and other relationships. This may then be used as a basis for the course".

The bulletin goes on to some length in suggesting plans of procedure and a comprehensive and scientific technique where desired, but the chief emphasis is well summed up by this concluding sentence:

"Contents of the course will be governed by local requirements for the position of general household worker."

DEAN BOUCHER MEETS FACULTIES OF THE AFFILIATED SCHOOLS

Special—This afternoon at 3:00 o'clock in the Exhibition Room of the Atlanta University Library, Dr. C. S. Boucher, Dean of the College of Arts, Literature, and Science, of the University of Chicago spoke to the faculties of Atlanta University, Morehouse College and Spelman College.

Dean Boucher has had much to do with making and working out the New Plan at the University of Chicago. He outlined to the assembled college teachers and administrators the chief features of this plan with reference to the curriculum and the measurement of achievement in the courses. At the conclusion of the talk, many questions were asked and answered.

Dean Boucher was leader of the sectional meeting of the Association of American Colleges held at the Biltmore Hotel on Thursday afternoon on the subject "Improved Examinations—as better measurements of achievement, and as stimuli to improvements in the organization of courses and better instruction".
