## NRA BUSINESS BRIEFS.

The St. Louis Shoe Manufacturers' Association estimated, from a survey of key plants, that the shoe output from that city was 20 per cent ahead of this same season last year. The association reports no unemployment among skilled shoe workers in the district.

Electric power production according to the New York Times Weekly Index, for the week ended February 9 was only one per cent below the highest production ever recorded for the comparable period, and almost 7 percent over the week for 1934.

Automobiles are being sold as fast as they are made, report leading manufacturers. Dealers' stocks are abnormally low. February schedules, according to Business Week, call for 375,000 units against the demand for 306,000 units for January.

Commercial failures continued to decline last week to 64.6 points according to the weekly survey of the department of commerce. This is 1.2 points below the index figure for the week ended February 2, and 6.9 points below the same week of 1934.

Steel production for last week according to the same source moved sideways, continuing operations at about 55 percent of capacity.

Freight carloading increased 3.3 per cent for the week ended February 16, over the comparable week of last year, reports the New York Times. A decrease of less than one per cent under the figure for the preceding week was due to retarded movements in grain, livestock and coke.

Thus far this year orders in the plumbing trade are averaging 20 per cent to 35 per cent above those for the comparable period of 1934, according to Dun and Bradstreet, Inc. Many manufacturers have adopted the highest schedules in 6 years and report employment at the highest since 1930.

An increase of 6.47 per cent in total dollar sales of 24 merchandising chains during the month of January over the same period of 1934, is reported by Merrill Lynch & Co. Total sales for these companies last month was \$151,066,916, compared with \$141,831, in January 1934.

Bank debits reported by the Federal Reserve Board for the 141 reporting cities, recorded a total 5 billion 635 millions for the week ended February 13, compared to \$5 billion 482 millions for the same week last year. This is almost a 2.8 per cent gain.

Reports from various corporations dealing in fruit, automobiles, steel and rubber show sharp increases in the earnings for 1934, over preceding years. Retail clothing sales for last week increased, according to a survey by Kirby & Co., and there is activity towards heavy spring selling.

Blessed is he who has found his work; let him ask no other blessedness. He has a work, a life purpose. Labor is life.—Caryle.

## THE RIGHTS OF CRIMINALS

By R. A. Adams (For The Literary Service Bureau.)

To Police Commissioner John F. Ryan of New York City, is attributed this statement: "The police find it difficult to understand a social system which concerns itself with the so-called rights of criminals and so little with the safety and security of the law-abiding public."

In this we have the cause of crime checked up to society—to the weakness which makes so many turn "sisters" in regard to criminals who laugh at this maudlin sympathy and go on with their careers of crime.

This responsibility rests upon the electorate which elects an unworthy and unscrupulous judiciary; on the officials who misuse the parole power and the pardoning power; on grafting directors of prisons who "make it easy" for rich criminals; on those unworthy political bosses who corrupt the ignorant and encourage the vicious by using them to build and maintain corrupt political machines. But all this is understandable. Two things are chiefly responsible. Let-down of the church in fighting against unrighteousness, and failure of the homes to give proper training to and to exercise requisite restraint of the youth of the nation.

It is a serious charge, but churches are "particeps criminis" when their leaders accept political "slush money" and use the influence of the church to elevate corrupt men and women to political positions.

Several of the men have asked me for some of my toasts, and while I am in the mood, I will give you one that you can say anywhere. I will also give you one each week, but like the mind reader tells you, some of them you will have to have a private reading. Here it is, and I hope you like it:

Have you ever loved someone, When you knew they weren't loving you? Have you ever dreamed a perfect dream To wake and find it wasn't true? Huh? Have you ever tried to make things seem true When you knew it would be all in vain? Have you ever said, "If I lose my gal, I will go, I am sure, completely insane?" Well, put them all together, and I will tell you what to do. Never start loving anyone Until you are sure they are loving you! By Hopie.

Oh, yes: Draper tells me that night life is really a tight life. Believe me, and last Sunday night, someone put a nickel in the piano, and it started the whole house at Jim Bells to begin to swing, to and fro, to the Tiger Rag. And by some means or other, it caused the Tiger to go on the war path and, believe me, some of the Paxton waiters failed to escape the mighty claws, and the result was an extra day, and a little extra pay, for the extra waiters. Cooperation, I say. Live and let live says Calloway. Captain Booth said, "There is some good in all evil". True, Captain. So true. News comes to me that the U. P. boys are packing their grips and trunks to be ready to locate back in old California. Baker Heater is red hot, and it may burn out something. You can never tell. Lots of other good news seems to be in the Heater. But let's wait and see, and if so, we will have plenty time to talk about it. Don't you think?

Here is news for you, listen: Our old, no not old, but Bert Moore has decided to try a comeback, and he is really making a good stab at it. Makes the old saying true, "A race horse always feels that he can still run a race", and the late picture says, "Once a pancake, always a pancake". Warning! Don't ever put your age in the paper no matter what happens. Last week there appeared in the paper the age of a waiter, and what a shock. One man said he was 53, and he busied for this man at the Chief-tian, across the river, 20 years ago, and said he heard that this yater was a bussboy on Noah's Ark. Oh, me!

Thanks, Mr. Watson. Mr. R. Watson was successful in getting another place for the boys, and if possible I am sure he will place several more of our race out there. This is a very beautiful place, located out on Saddle Creek road, called the Saddle Creek Garden". Mr. Lawrence Tucker is out there with Mr. Watson, and Mr. Art Wilkins is playing the saxophone. We all join in hoping Mr. Watson and others much success, and hope that this is a step forward, for us this summer. Remember, Mr. Watson, "Labor conquers all". Speaking of labor. That means 'woik'. So here is a poem about it.

The men who are not satisfied Are they who set the pace The men who do not meet defeat With calm contented face. The men who labor on and on With minds and fingers skilled They are the great unsatisfied Who plan and fight and build. Keep this in your mind, Mr. Watson, and you will succeed. Well, Mr. Shearson lost two days last week, and still goes to show that it doesn't pay to stand up for your self when you are right. They still want us to take low, regardless. Oh, God, when will man be the man you wish him to be? Forget it, Shearson! I would like to say to the Young waiters class, keep the good work up. Work harder all the time to accomplish that which is given you and may mean the beginning of your success. I am sorry, indeed, that I haven't been able to meet you. This week old man sickness had me, but hope to be able to meet you next week. Remember, work today, and enjoy it tomorrow.

There is some talk in the air about a style show down in Harlem, but I haven't received full details of it as yet, but will slip it to you when more information comes in. Watch for it. Eso es todo!

# DOINGS AMONG THE DINING CAR AND HOTEL WAITERS

By Hopie

## "BETWEEN YESTERDAY AND TOMORROW"

What have I done to be remembered? Between yesterday and tomorrow? Have I done something to make some tremble And caused them grief and sorrow?

Oh, have I done one little deed? To cause gladness to replace sorrow? Oh, God, tell me I have, I plead, Between yesterday and tomorrow.

For one good little deed, done gladly, Will make your heart bright and gay For between yesterday and tomorrow, spent gay or sadly, Is just today swiftly passing away.

Friends: I truly hope you like my poem, and if you can grasp it as you should, and I think you will, you will get a lot of good out of it. Plant it in your mind, and try to say it at least once a day and instead of all that ballyhoo that you make a daily study, try to do some good deed, no matter how small, and you will find pleasure after pleasure coming into your life. Between yesterday and tomorrow will be the happiest day of your life. Try it! When we look back and see yesterday gone without any gain, and today fastly passing with the same, we know our fate for tomorrow will not be a bright one. And we should know that tomorrow expects more of us than yesterday because in this fast progressing world it is expected of us to do something between yesterday and tomorrow. Think this over carefully, and act as you see fit. But remember if you don't consider tomorrow, when it comes and ill health, misfortune or the hand of fate grasps you, there is no one but yourself to blame. Remember, what I am saying; While you are having a good time, as you call it, and your so-called friends are sipping those cocktails while you pay for them today, they may laugh at you when you are unable to do it tomorrow. Who knows any better than you how quick your friends can forget you when all of your cash is gone. What did I say last week? Never be a better friend to anyone than you are to yourself, and by so doing, you will be a good friend to your friends. Just a tip, take it or leave it.

Several of the men have asked me for some of my toasts, and while I am in the mood, I will give you one that you can say anywhere. I will also give you one each week, but like the mind reader tells you, some of them you will have to have a private reading. Here it is, and I hope you like it:

Accomplished Denver Matron Serves On City-Wide "Y" Board. Mrs. L. H. Lightner Leads In Social Service.

By Fritz Casler Denver, Colo., March 9 Mrs. Lawrence H. Lightner, accomplished Denver Matron, was named chairman of the Committee of Management of the Phyllis Wheatley Branch of the YWCA at the annual meeting held last week, following a service to the "Y"-Branch and other civic and social agencies covering a long period of years. Mrs. Lightner, wife of Supreme Commander L. H. Lightner of the American Woodmen Fraternal Insurance Company, is a native of Denver and a graduate of the University located in the city.

Mrs. Lightner's activities include a wide range of interests. She was recently selected to represent the Phyllis Wheatley Branch on the Board of Directors of the Denver YWCA and now holds important committee assignments in groups responsible for the entire scope of the work of the Association in the city. She is also a member of the Scott M. E. Church, the Denver Interracial Commission and other civic and cultural groups. WEEKLY SHORT SERMON By Dr. A. G. Beater (For The Literary Service Bureau.) Aristobulus—Best Adviser Text: Salute Apelles approved in Christ. Salute them which are of Aristobulus household.—Romans 16:10 Little is known of Aristobulus. It is not certain whether he was a believer or not; but the name signifies a good adviser or good counsellor. The members of his household must have been people worthwhile for in this text Paul sends salutations to them. And no doubt the worthiness of his household, his wife, his children and his servants was due to the wise counsel, good advice and good example of Aristobulus.

1. Sense of Responsibility. No doubt he recognized the importance of his position, the responsibility which rested on him, and the indications are that he measured up to the requirements and proved equal to the exigencies.

2. Application to Modern Conditions. As this man was responsible for his own household, so is every man. The indications are that he labored to make his family a blessing to themselves and to others; so should the head of every family. No doubt he gave them a living example of what should be done; so should every household.

3. His Reward. There must have been great consolation in seeing his children making good, and by good conduct, meriting and holding the respect of the community. This privilege may be the portion of every father, and the world needs more fathers and householders of the type of Aristobulus.

ALTA VESTA—A GIRL'S PROBLEM By Videtta Ish (For The Literary Service Bureau.) Father's Letter To Alta Vesta, No. 3 Dear little Daughter: Your letter was bright and sparkling. I am glad you had a nice party and I'm sure all enjoyed it. You didn't tell me about refreshments or about your company, but I know everything was all right. So, I'm your banker, am I? Yes, dear, I am. But you do not write a check to your banker, but on your banker. A check is an order on your banker. Well, in a sense it is to your banker, but that is not the regular way of expressing it. I am sending you money to purchase all that was on your list and a little more. Have parties whenever your dear aunt thinks advisable and bring into your young life all the innocent pleasure possible. Give my love to Aunt Cornelia.

Your loving father. Spring hangs her infant blossoms on the trees—Cowper.
