Happily Surprised

Mrs. Henrietta Claxton, 2418 Burdette Street, was happily surprised Wednesday morning when she answered the front door bell. But the supposed salesman insisted that he should have her attention, which caused Mrs. Claxton to make further investigation.

She gave him another look, this time, going to the door. When she opened the door, the intruder clasped her in his arms and said, "Hello, sister, don't you know your own brother?"

A Negro Benefactor

(Literary Digest.) Only seven of the seven thousand Negroes living in Gloucester county, Virginia, are on relief rolls. Ninety per cent of the seven thousand own the land they cultivate. For 40 years they have been advised and guided by Thomas C. Walker, Negro, graduate of Hampton Institute, of whom it has been said he "has done more for the race in Virginia than any other Negro born on its soil. His faith is a beautiful thing, and his optimism is of the kind that links itself with absolute trust in God."

Advertisement for Recovery. Text: "Let's have Recovery... THE one goal toward which we are all striving is RECOVERY, in Nebraska and throughout the country! What will bring Recovery? Recovery depends upon the building of bigger payrolls; fewer people on the dole; the creation of more real jobs. And the only way to build bigger payrolls is through renewed business confidence, confidence of investors in the soundness of the securities of American industries, confidence of business in the fairness of government. There can never be RECOVERY as long as industry is threatened and harassed, as long as it is throttled by crushing taxes, destroyed by unfair government competition or ruined by governmental red tape, interference and political control. The Wheeler-Rayburn utility bill now pending in Congress has instilled new and increased fear into all business, especially the public utilities. Thousands of employees of the electric and gas holding and operating companies, which the bill would arbitrarily hinder and destroy, would be forced to join the millions of jobless. Here, for instance, is what this kind of legislative threat has done in this territory: Last year the Nebraska Power Company and the Citizens Power and Light Company spent only about \$200,000 in improving our facilities for service. If we knew that all business were going to be relieved of governmental interference, we could easily be spending a million dollars a year—and creating more jobs. But it would be reckless extravagance now, with the Wheeler-Rayburn bill pending. WOULD YOU ORDER A NEW HOME BUILT, IF YOU WERE THREATENED WITH LOSING YOUR JOB? The way to RECOVERY is through the re-establishment of business confidence which will permit private, tax-paying capital to go to work again. If we are to attain RECOVERY in the next few years our country must become a workshop, not a laboratory. The Wheeler-Rayburn bill would seriously retard RECOVERY! J. E. Davidson, President Nebraska Power Company. You can help to defeat the Wheeler-Rayburn bill. Write to your senators and representatives in Washington, and tell them you are opposed to it. Act Now."
