SHARPS AND FLATS

AMONG THE MUSICIANS

The J. B. Cavern boys have been given Monday nights off from their little bird nest so we find them enjoying themselves around the town on Mondays.

Wonder why Paul Hayes has stopped saying "Play it again," when he hears, "Oh, Release Me, Release Me or Let Me Alone."

We will have the opportunity of hearing Miss Anna Mae Windburn with Hunter's new band at Krug Park soon. They should be pretty good, now.

Neil Parker is going to surprise us and play the complete composition of Rhapsody in Blue for piano real soon.

Thomas Heckman is putting one over on the boys who rehearse at the Center every morning. He manages to wear something different every day, either a new hat, shirt, tie or something. How does he do it.

Julian McPherson has learned to play guitar in record breaking time. He is now winking and playing with a quartette at the Fontenelle hotel. Smart boy.

Tennesseans Urge Dr. Bell To Remain

Jackson, Tenn., July 24, ANP.—At the Young People's Jubilee held at Lane college here last week, strong resolutions were adopted by unanimous vote urging Dr. W. Y. Bell of Mt. Olive C. M. E. church, Memphis to remain in his pulpit and not accept the professorship tendered him by the board of trustees of Howard university.

The petition which was signed by approximately 100 young people and pastors attending the Jubilee said "discontinuance of Dr. Bell's services at this particular time in the history of our church life would be both a colossal and irreparable loss."

elves, and he promised to do so soon as he was able.

George had taken over his father's insurance business, and doing fine. It was going to be difficult for him to move away from the big Bates house; his father continued ill, and his mother would not want him to leave. I was in or a long seige, I thought.

When my baby was two months old, early in November, I decided I would like to visit my Dad. He had not answered any of my letters, but I felt if he saw me and Rose, all would be forgiven. When I brought the subject up to my husband, he consented. He said he thought the trip would be good for me. I began to make plans to go—I thought Thanksgiving would be the ideal time to go home and make up with my father.

But I reckoned without the consent of my mother-in-law. She flew into a rage when she heard the news.

"The baby is too young for a trip like that," she informed me. "You can go, but the baby will remain here."

"My baby will go with me," I shouted. "You have nothing to do with me or my baby."

"We'll see about that," cried Mrs. Bates—and I knew there would be more of this argument, which I was determined to win at any cost.

Green Calls Conference on Discrimination in Trade Unions

Continued From Page 1

about their personal knowledge as technicians and carpenters of discriminations they met with upon seeking entrance into the trade unions in Washington; Dr. Robert C. Weaver, Special Advisor on Negro Affairs in the Department of the Interior, and Dr. Ralph J. Bunche of the Department of Government of Howard University, sought to emphasize with the committee the necessity of the A. F. of L. doing something definite in the interest of eliminating the color bar, as well as the practice of discrimination against Negro workers. Dr. Charles S. Johnson of Fisk University made a brief statement to the committee on the question and indicated that he would submit a brief covering the whole matter. Briefs and statements will also be submitted by Dr. Weaver, Mr. John P. Davis and A. Phillip Randolph. Upon the convening of the hearing, Mr. Randolph made a statement on the occasion of the hearing and earnestly urged the committee to recommend to President William Green and the Executive Council, the necessity of the committee holding hearings on discriminations by trade unions against Negro workers, in other cities, including New York, Chicago, Cleveland, Detroit, St. Louis, Cincinnati and Los Angeles, in order that the workers who are themselves the victims of discrimination may be able to appear in person and tell their story. Randolph pointed out that this was necessary since the Negro workers who had a real grievance against some of the trade unions, neither had the money or time to come to Washington to testify. Besides, he continued, most of them are on relief and should absent themselves from the city where they live, they will be cut off. He presented factual data of a serious condition of discrimination against the Negro plumbers, steamfitters and latherers in Chicago. He submitted affidavits and photostatic copies of letters that had been gathered by the Consolidated Negro Trades Council of Chicago, tending to establish, beyond the question of the plumbers', steamfitters' and latherers' unions. The request for regional hearings on this question was supported by John P. Davis and Charles H. Houston.

The following program was submitted for adoption by the A. F. of L. for the solution of the problem of the Negro worker in trade unions by John P. Davis: 1. End for all time color bars in union constitutions. 2. End creation of separate locals for Negroes. 3. Name a Negro organizer for Negro workers. 4. Begin an educational campaign among black and white workers to the end that both be convinced there can be no strong trade union movement until both races are organized for joint action. 5. Place A. Phillip Randolph as the Negro representative on the Federation Executive Council.

The committee appeared sympathetic with the whole program of going to the bottom of discriminations against Negroes and will be pleased to receive material from various workers as evidence of difficulties encountered by them in securing membership in the union. Recommendations will be made for the solution of this problem of discriminations against Negro workers, by this committee at the next A. F. of L. Convention in Atlantic City.

The First Utopia

Text: And they went forth into the land of Canaan.—12:5.

Here we have the beginning of emigration. The emigrants were Abraham, Isaac, Lot, and all the souls they had forgotten in Haran.

THE FIRST UTOPIA. This land of Canaan was a land of plenty. It was known as "the promised land." And after the loss of Eden it was the world's first Utopia. From this journey and subsequent ones we have some important lessons.

Misconceptions then and now, are to be considered. The land was to be one of milk and honey. The immigrants were to have what they did not work for, in spite of the decree to eat bread by the sweat of the brow. So, Utopian seekers still are looking for a land where they will not have to work; where they can utilize what others have labored for. "Share the wealth" is a case in point.

There is no short cut to Utopian conditions. Abraham was a long time reaching Canaan. Later, the Children of Israel wandered 40 years in the wilderness, enroute to this ancient Utopia. So, there is no short cut to the Utopian conditions desired today. The only way is earnest striving and honest earning.

There is no Utopian land, but Utopian conditions are attainable by striving, sacrificing, conquering evil propensities and practice of "The Golden Rule."

Frame Man on Assault Charges

Brooklyn, N. Y. (CNA)—Although Unity Hospital physicians state that a rape was not committed and the family of the alleged victim refuses to press charges, Stanley Moore is still being detained by the police.

In court last Tuesday, the police were unable to produce any witnesses. When Mr. Heimlich, white, father of the alleged victim, asked that prosecution against Moore be dropped, the police chased him out of court and ordered him to take his family out of town.

At the time of his arrest and later at the 77th precinct, Moore was horribly beaten. No medical attention was administered to him at the Raymond Street jail. When questioned by a delegation of Negro and white laborers, the warden admitted that Moore had been badly beaten but suggested that they take their complaint to the police.

The Brooklyn Council of the League of Struggle for Negro Rights has announced that it will mobilize seek punishment for police responsible for the beating.

T. N. T.—I am in a quandary as what is the best thing for me to do; whether to remain or resign from this job?

Ans: It would be best to remain on your present job and continue to STUDY if you can possibly make both ends meet for it will mean much to your future financially. Although if you do make a change you should not think of giving up your studies.

I. M.—I want to know if I should marry the man that I am with?

Ans: It would be a very good idea for you and your COMMON LAW HUSBAND to enter matrimony for when you grow a little older you will both realize that it would be a mistake for you to live as you are doing at present. You and he should be most happy together.

B. D.—Do you think that I will realize any money soon?

Ans: Yes, you will receive a small sum of money in the month of JULY from DES MOINES, IOWA. Your suspicions were right concerning the party and he will come across.

M. E. O.—Please tell me if the misunderstanding is ever to be forgotten and what should I do?

Ans: Yes—the misunderstanding between you and your HUSBAND will eventually be forgotten but you should consider your husband's feelings before ANYONE'S in the future. You and he have been quite happy and you should not think of letting the little quarrel break up your home.

L. L.—Please tell me what is the best thing for me to do about my health?

Ans: Consult your doctor and then GO AWAY for a few weeks. A good long rest is what you need. Your health should be considered first and it is essential that you take a vacation this year.

F. M. W.—Please tell me why this girl that I have in mind wants

Defend Ethiopia

The ringing call of the Ethiopian emperor, Haile Selassie, to "the soldiers, traders and peasants" of Ethiopia to resist fascist aggression expresses the will of the Ethiopian people. They are ready to defend, with their lives, their national independence against the arrogant war threat of Italian Fascism.

Better to die free than live as slaves, Haile Selassie declared, amid tremendous applause in his address to the Ethiopian parliament last Thursday.

We hail the mobilization of the people of Ethiopia, Christian and Mohammedan alike, in defense of their national independence. We, likewise, in this country must mobilize, white and colored, Negroes and Italians and all opponents of fascist barbarism, in support of the joint struggles of the Ethiopian people and the anti-fascist masses of Italy against the fascist war-mongers.

The immediate point of mobilization is the demonstration called for next Saturday before the Italian Consulate, 134 East 70th street, New York City. Every friend of the Negro people should take part in this demonstration.

Let us rally millions-strong to the anti-war demonstrations on August 1, August 3 in New York and some other cities. For the defense of the Negro peoples of Ethiopia and this country. Against war and fascism!

Ghost Milks Cows, Chokes Watchdog, Has Size 14 Shoes

Rock Island, Ill., July 24.—A trap was prepared tonight for the "ghost" at the George Billingsley farm, near Moline.

Roads were barred by police at all points within a mile of the place, serving as a barrier to thousands of curious who have clogged the highways for days, as well as a "Milk someone else's cows" sign to the ghost.

For that's just one of the malicious tricks the Billingsleys blame on their nocturnal visitor, who, like all good ghosts, wears flowing white robes. To enliven his visits, the farmer's family said the ghost also rattles windows, boos, whoos, choked the watchdog and pointed a pistol at Marry Louise Billingsley, 15. He left a size 14 footprint, too.

to fight everytime she sees me?

Ans: How would you feel if someone took your BOY FRIEND away when you were engaged to be married? She resents your going with the boy that she used to go with and she feels that it is your fault that they broke up. She doesn't know that he stopped going with her before you met him—she will never fight you.

M. S. L.—Will anything prevent me from doing what I have in mind?

Ans: Nothing will cause you to have to quit school for your education is already PAID FOR and you can go until you complete your college training.

R. F. W.—Do you think I will be able to carry out my plans and when will I be able to do so?

Ans: Yes, you will have enough money to BUILD you a THREE ROOM HOUSE. Your work that you are on now is permanent and you can save enough to begin building in 1936. The lot that you have purchased is a very desirable location.

R. O. B.—Will I get the money that I am trying to get?

Ans: No—I don't believe there is a chance in you receiving a sum of money for the death of your Nephew for you did not carry insurance on him. Although he was DROWNED in the Mississippi, the party who owned the boat was not responsible for his death.

L. M. H.—Will get married any time soon, and who will I marry? Am I doing the right thing about the younger man?

Ans: Yes, you will marry before the summer of 1936. The young man that you were engaged to last CHRISTMAS will be the fortunate man. You will forgive him for the wrong that he did for you know perfectly well that his mother was to blame.

E. R. S.—Did I make a mistake for changing wives?

Ans: I believe that you have already found out that you made a mistake. Your first wife was a TRUE PAL and when you told her to get out you caused her to HATE YOU. Now that you have chosen the second girl you may as well continue with her or find someone else for your first wife is determined not to return.
