

Mayor' Loses Head Cut Off by Antagonist

Philadelphia, —(ANP)—While his neighbors looked on, Eddie Gibson, a member of the "Society for the Development of Our Own", used a razor to cut off the head of Henry Grant, 50, self-styled "mayor" of a squatter's settlement on a dump here during an altercation last week.

Gibson told police who arrested him that Grant, because of his height and weight, often "picked on" other members of the society especially when he had been drinking. The "mayor" was known as a tyrant "ruler."

During the fatal altercation, according to witnesses, Grant, who went to Gibson's house and called Gibson outside, attacked Gibson with a pick-handle. Aiming the handle at Gibson, Grant missed him and struck another man. A second blow hit Gibson on the hip, according to the story.

The two men then seized each other in mortal combat. Gibson took a razor from his pocket and severed the "mayor's" head from his body.

Gibson was arrested and held without bail to await the action of the grand jury.

Communists Demand Equality For Negroes In A. F. of L.

NEW YORK—(CNA)—In an appeal issued by the Communist Party of America to the delegates of the forthcoming 55th Convention of the American Federation of Labor, discrimination against Negro workers in A. F. of L. Unions was roundly scored.

In part the appeal declared: "Green (President of the A. F. of L.) and the A. F. of L. Council declare that they cannot stop Internationalism from excluding Negroes as the unions are autonomous, and thus refuse to organize Negro workers, but autonomy does not stop him from splitting unions."

The statement also contained a demand that discrimination against Negro workers be stopped. The proposal read as follows:

"Equal rights and abolition of all discrimination against Negro and foreign born workers in employment, wages and relief."

The rank and file A. F. of L. members were urged by the appeal to put through a legislative program which included, "Declaring illegal and providing penalties for any and all discrimination against Negro workers and providing the death penalty for lynchings and anti-Negro terrorists." The 55th annual convention of the A. F. of L. will be held in October at Atlantic City, N. J.

HEALTH, BEAUTY and CHARM Keep Young and Beautiful—If You Want To Be Loved

SCHOOL DAYS! HAPPY DAYS! With the advent of September the minds and steps of the Mother as well as of the child turn "Schoolward" happy days are here again for both. The child is happy because of the anticipated joy and pleasure of again seeing other children. The mother is happy for the child because of the protection and advantages the schools offer; Happy for herself, because of the few hours of quietness at home. So often we hear mother exclaim, "Oh! I'll be so glad when school starts so I can get these children out of the house and have a little peace!"

Mother when you purchased the necessary dresses, hats shoes and etc., for your child preparatory to the opening of school you naturally have in mind a mental picture of just how your child would look so dressed. Were you pleased with the result? Were your efforts gratifying? How did you arrange your little girl's hair? Was 't a problem to you? When you found it impossible to arrange a suitable hair dress did you do for your child what you do for yourself under like conditions? Namely, did you send your child to the hairdresser of your choice? Many of you did, we know that. If you did not it is not too late. You do not want to help your child develop an inferiority complex. The present school system of Omaha is taking care of this nicely and needs no help from you.

Your little girl or big girl for that matter does not want to go to school with kinks or with small braids over her head. The girl in front of her has her hair bobbed, waved or arranged in a mass of curls. You can not afford to force your child to look conspicuous by appearing different. In your shop this month we are featuring styles from the kindergarten, through the grade school, high school and colleges.

Mothers bring your children in and let us help you to help them. By courtesy of the Christine Althouse Beauty School.

THINGS ONE REMEMBERS

By R. M. Hofer
It's easier to make a flowery statement than to answer simple questions. The people of the world are getting pretty sick and tired of statements. They want answers.

This summer I have met many business men in different parts of the country I have asked questions and tried to get answers. I have talked with waiters in hotel dining rooms, with clerks in grocery stores, with mechanics in garages, with attendants at oil filling stations, with proprietors of small stores and, recently at that cosmopolitan meeting place, the Mark Hopkins hotel in San Francisco, I heard opinions expressed by prominent business men who drift in from all parts of the world.

After the smoke of partisan politics has been blown away, sentiment expressed by thoughtful persons is remarkably uniform on the following three points:

1. There is no sympathy for European war preparations and very definite opposition to this nation participating in another European conflict in any manner.
2. There is general resentment against political attempts to undermine constitutional safeguards of persons and property in the United States.
3. From all sides come protests against the alarming increase in public debt and tax bills—genuine fear is expressed as to what a "soak the rich" tax program will do to American business and family savings.

It's a healthy sign when political and economic questions are brought so close to the average American that he can see his place in the picture—from the clerk in a grocery store to the head-waiter in a leading hotel and the president of a great corporation. Their pocketbooks and constitutional

Bishop Washington Is Honored

Monday, Sept. 16. A committee representing The Nebraska Interdenominational Holiness Association, which is made up of churches all over the state, met for the purpose of selecting speakers for the 1936 camp meeting to be held in Lincoln. After a considerable discussion of the leading pulpits of the east, west, and south, Rev. Burckhardt took the floor and assumed the privilege of offering to this convention a Negro speaker in the person of Bishop Washington and at the close of Rev. Burckhardt's talk.

Bishop Washington was unanimously chosen as one of the speakers. This will mark a new epoch in the history of this association which has never before in its history had a paid Negro speaker on the program.

Making Others Suffer

Sometimes we hear the petulant statement "It's nobody's business what I do to myself," and "He harms nobody but himself." But such is impossible.

A wife suffers when her husband's wrong doings bring their inevitable penalties. The husband of a derelict cannot escape, when she sins and suffers. Sorrow, grief, shame, humiliation, come to parents when their children are wayward and bring trouble upon themselves. And let it be remembered also, that many a child suffers because of mistakes and sins of parents.

Yes, it is a fact, an inescapable fact, that "Suffering follows sin," and it is true, undeniably true, that the suffering is never confined to the individual who is guilty of transgressions. Because of their relation to such derelicts, many are made to suffer innocently. These are things to which most serious consideration should be given, especially at times when there is inclination to go wrong.
