Decorative designs can be laid in a new kind of carpet made with a binder that holds the warp and weft threads together when it is cut, two pieces being bound together by cementing tape on their backs.

The Canton-Hainan airplane route has been extended to Nanchang, province capital of Kwansi.

Celebrates Anniversary

MRS. ROBBIE TURNER DAVIS Wife of Mr. William Davis. The popular young couple celebrated their fifth wedding anniversary last Sunday night, at their home.

Tremendous sales increases in the sale of automatic water heaters indicate this trend.

"Sales volume on automatic gas water heaters in Omaha has doubled over last year," states W. J. Barber, Assistant to the General Manager of the Metropolitan Utilities District.

Lower prices and attractive installation terms have been another important factor. Special effort has been made by the Metropolitan Utilities District sales and advertising departments, in cooperation with registered plumbers, to acquaint the public with the distinct advantages of automatic gas water heating.

Omahans were quick to recognize the comforts and convenience of automatic gas hot water service.

Harlem Has Most Densely Populated Block

New York, Oct. 5—(ANP)—When it comes to population congestion, Harlem leads all other sections of New York. A survey recently completed by relief workers reveals that the most densely populated block in the city is Harlem, between 7th and 8th avenues and 142nd and 143rd streets. It has 3,871 inhabitants.

Eight blocks in Harlem have an excess of 3,000 residents, or a total population exceeding that of Danbury, Conn., which covers 2,432 acres. There are approximately 40 acres in eight Harlem blocks.

However, congestion isn't what it used to be. There are slightly more than 700 people to an acre in Harlem's most thickly populated block, but 45 years ago there were several blocks in the old Eleventh ward from 800 to 1,000 inhabitants.

N. A. A. C. P. Unfair

Defends His Bill. In a discussion of his bill to create an industrial commission on Negro affairs now pending before the House, Mitchell stated he had sent copies of the proposed legislation before presentation to white and Negro leaders in all parts of the country and had received laudatory replies.

The congressman feels reasonably confident the measure will pass. To Virgin Isles. When he sails for the Virgin Islands before Oct. 10, it will be at his own expense although he will be caring for government business, Mitchell asserted.

Mrs. Burke, who is active in civic life and in the Delta Sigma Theta Sorority, has the distinction not only of being the first colored school teacher in Los Angeles, but the first colored principal of which the city could boast as well.

ETHIOPIA PRINCESS MAKES BANDGAGES AT CAPITAL

Addis Ababa, Oct. 5—(ANP)—Princess Tsahai, young daughter of Emperor Haile Selassie, broke with the tradition of the imperial house, when, with her father's consent, she became a volunteer worker for the first field ambulance unit of the Ethiopian army which already has 1,139,000 warriors or 11 percent of the population, mobilized.

Attended by only a single guard, the princess drives in her car to the headquarters of the Ethiopian Women's Work association where she joins 31 women of the court after donning a white smock over her robe of flowered silk. Three native nuns from the Roman Catholic Mission are instructing the women. Using copies of bandage rolling machines made by a native artisan from a model brought here by air from London, the workers soon learn quickly and all, Princess Tsahai included, add their work to her pile.

The Princess, who speaks English fluently, visited leading hospitals on her visit to London some years ago. It is her regret that she was not able to forecast the impending clash and thus take advantage of learning more about the care of the wounded. She realizes Ethiopia is without the facilities possessed by other nations for the care of their soldiers, and is aiding because so much remains to be done to help warriors should fighting start.

HEALTH BEAUTY and CHARM Keep young and beautiful—if you want to be loved! A scalp treatment for dandruff and falling hair. Now that summer is definitely over, and "the fall of the year" is here, the wise woman will take a retrospective view of her physical charms. How about your hair, the crowning point of a woman's glory? The sun, wind and hot weather are very pleasant, but leave drastic effects on the hair. They bleach its pigments, dry up natural oils, leave the hair dull, drab and coarse. Now is the time for a scientific scalp treatment. The treatment we are stressing is given with the Arno Electric steamer. It exercises the scalp, produces active circulation, provides nourishment, softens the hair and loosens surface deposits. There are five steps that we follow in giving these scalp treatments for dandruff and falling hair. They are: brushing, saturating with oil; massaging and steaming; hot water on the head, and drying, etc. In our next weeks article we will take up the first one or two of these steps.
