## THE BACCHANITE CLUB

The Bacchanite club met at the home of Mr. Roy Hunter. The meeting opened with the calling of the roll by Charles Johnson, there being only one member absent. The club appointed Mr. John Idillwood, chairman of the entertainment committee, and I think he is really capable for the office, and you will think so too, because in the near future, I think he's going to show you one of the aces that he has in the hole. Take a tip from me, he's a little man, but he's got a big way of putting things over.

And now my dear public, I know some of you wonder what has happened to the Bacchanites, well we're still here, and you, of the old school, know that in the past, whenever something big was put over, it was the Bacchanites that did it, am I right or wrong. So we had to recuperate awhile, but here we are back with a bag full of new tricks that even Thurston couldn't solve. It takes time to put things over like we do, for we always give the public the best that's in us.

You see we have fellows in our club like Mr. Adrian Stamps, Charles Johnson, Macioe Farrel, and etc., that are really in the limelight of Omaha, so what did the old Knights of Bacchaus have that we haven't got?

After a perfectly conducted meeting, Mr. Johnnie Floyd took us for a spin in one of his cars, the V-8 this time, and we stopped and had our usual repast of beer.

Read the Guide each and every week if you want to know about some of the aces we still have left in the hole.

Mr. Kenneth Pollard, President.  
Mr. Louis Carpenter, Reporter.

## Quack! Quack! Quack!

The Quack Club held its sixth anniversary on Friday, Oct. 11. After a brief business routine the meeting was turned over to the program chairman. Bernice Marshall, second president of the Quack Club, presided. We were very glad to see some of the older girls out. Louise Deckard Smith made a short talk. A paper on the history of the club was read by Eloma Robinson. A poem to the deceased members of the Quack's was read by Hazel Miller, after which all the girls stood in a moment of silent prayer.

The rest of the evening was spent in a riot of fun. A Quack prophecy was read and stunts enacted. Theresa James favored the girls with a tap dance, Josephine Bell a very good impersonation, while Eloma Robinson, Lucy Mae Stamps, Christine Brown, and Gretchen Selectman acted out a prison scene. Light refreshments were served and all said they had a very, very nice time.

# More Velvet in the Fall Mode

By CHERIE NICHOLAS

WE ARE going to be more elegant in dress this fall and winter than ever. All the pre-showings of advance fashions declare for greater luxury in jewels, in furs, in fabrics, in costume design. Where there is luxury and elegance to apparel there is velvet. Which leads to the message we would convey—the outstanding importance of velvet in the mode.

There is simply no limit to the enthusiasm which style creators are expressing for velvet this fall. It's velvet everywhere this season.

Apropos of the craze for velvet which is sweeping throughout the world of fashion Paris cables the news of tailored cloth suits which are styled with velvet collars and revers. Several suits shown in early contour showings have velvet skirts with cloth jackets often of rough surfaced, bright colored novelty woolen.

The girl planning her going-away-to-school wardrobe will adore the new velvet-plus-woolen outfits. Consider, for instance, the cunning ensemble shown to the right in the picture. It is a style-elet when it comes to assembling the college girl's wardrobe. The dress is of stiff deep red (red of the Italian master paintings) velvet. The bodice is designfully stitched in squares. The cloth cape in matching red has velvet buttons and velvet flowers at the throat.

Black velorganza, which is a thin velvet pile on an organdie base, fashions the handsome costume to the left in the group. Note that the flaring jacket is lined with the same gay printed organdie as makes the blouse. Linings which correlate the ensemble into an harmonious unit is a pet theme with fashion this season.

There is a holdy picturesque note about the so-named "plate" dress centered in the trio. The unique bodice is of green mat velvet. The skirt is of non-crushable heavy white linen strikingly printed in green.

Velvet has become almost inseparable with black when it comes to talking from the viewpoint of daytime fashions. However, it is a little newer this year to introduce color—any of the dark warm colors that are booming for fall, particularly the wine purple and rich green range reflecting the Italian renaissance influence.

The favorite velvet suit for all-around wear during the daytime activities is linked with fitted lines. The very short jacket is apt to have almost a basque trimness, with its neatly buttoned-up-front closing, and intricate seaming and goes for the skirt.

The shirtwaist in velvet, begun by Mainbocher, is contributing a subject of exciting interest to the new style program. Speaking of color in velvet this trend is particularly noticeable in many of the early fall hats which are of velvet in delectable warm autumn hues. The little chapeau in the inset here shows is an ultra smart plaid velvet tongue with a green feather curled to the left. The new berets of deep wine green or purple velvet are decidedly picturesque, some of them big floppy affairs dipping down over one eye, others with the new triangular and squared contour, which are decidedly smart and effective.

# AMERICANS TELEPHONE MORE IN A MONTH THAN GERMANS IN A YEAR

The people of the United States lead the world in using the telephone. Germany ranks next to this country in number of telephones but Americans make more calls in a month than Germans do in a year.

The United States has more than half the world's telephones and averages 73,400,000 calls a day. It has the best and cheapest telephone service in the world.

This Company and other Bell companies are better able to meet your needs for telephone service than they otherwise would be because they have back of them the national resources of the American Telephone and Telegraph Company, the Bell Telephone Laboratories and the Western Electric Company.

The American Company coordinates the operations of its associated companies, furnishes them advice and assistance in all phases of telephone operations and owns and operates the long distance lines which tie them together. The Bell Laboratories carry on research to improve service and keep down its cost. The Western Electric Company manufactures standardized equipment of high quality.
