Gift For The White House!

Deliver to the White House — one 1250-pound cheese!

Five-year-old Dorothy Jean Jadin, dressed in the fashion of 1800, wears up a mammoth Wisconsin cheese and ties a big red, white and blue bow on it to be presented to the President during National Cheese Week, November 10 to 16.

The huge cheese is a duplicate in size and form of America's first mammoth presented to Thomas Jefferson in 1802 by the Republican Ladies of Massachusetts.

Drawn by six white horses, on a white sleigh, the giant cheese will proceed through the streets

of Washington to the front door of the White House, marking the climax of Cheese Week activities.

The 1250-pound mammoth is the gift of the National Cheese Institute whose membership comprises all major members of the industry. The National committeeman from Wisconsin, as an intermediary between the White House and the National Cheese Institute, worked out preliminary details for the delivery of the cheese to the President through Marvin H. McIntyre, assistant secretary to the President.

The Cheese for the White House, made from more than 12,000 pounds of the finest grade Wisconsin milk, was made in Weyauwega, Waupaca County, Wisconsin, by Raymond J. Patton, a master cheesemaker.

HEALTH, BEAUTY AND CHARM

Keep Young and Beautiful — If You Want To Be Loved

Fall should be a rich colorful season (a riot of color) and this year it is. Those of you who have purchased your new fall outfit will bear me out in the statement that Dame Fashion is working overtime in emphasizing the importance of color in everything we wear.

Never before have the maroons, the deep sapphires, the blues, the dark greens, the rust, the purples, and the deep wines so successfully rivalled the old traditional blacks, and browns for fall clothes.

This array of colors means that correct make-up, in turn, is more important than ever before. The proper shades of powder, rouge, lipstick, and of course the general condition of the skin must be considered. We simply cannot wear these colors with muddy, sun tanned or freckled complexions.

You will be surprised at what a few facials and bleach packs will do for you at this time.

The eyes is our next consideration. Tiny wrinkles (oh how we dislike them) induced by squinting at the glaring sun must be smoothed out and uneven eyebrows reshaped. If you need any assistance we are only too glad to help.
