ARMS FLOW TO ETHIOPIA

"Arms Flowing into Ethiopia Despite Bans," reads a headline in the New York Herald Tribune. The dispatch is from Linton Wells, who writes from Djibouti, French Somaliland, that he saw a U. S. freighter unload "trucks, tractors and 'sundries' for Ethiopia."

Perhaps knowledge that Ethiopia is pouring modern bullets into his black-shirt troops inspired Mussolini's latest wail, in which he blames others and not himself for the prospect of a new war in Europe.

And perhaps the modern arms which have reached Ethiopia had some bearing on the prophecy recently made in the New York Times, and signed by six Italians, which suggested that Italy's present predicament is due to the mailed fist of Il Duce, and that she could go forward without him. "We, the undersigned," write the six Italians, "always regarded the Fascist rule as inimical to the real welfare of the Italian people and to the peace of the world. Now that the Italian people is confronted with the most dreadful ordeal, and that many of those who were the accomplices of Mussolini's ask: 'what next?' we answer: 'Italy. We trust in the vitality, moral sanity and common sense of the Italian people.'"

"There was an Italy before Mussolini. There will be an Italy after Mussolini—a free Italy within the commonwealth of nations."

And we might add that in the commonwealth of nations will still be free Ethiopia, because she got guns in time.

CHILD EDUCATION

Prof. Charles S. Johnson, distinguished sociologist, writes an interesting and thought-provoking article in the current Opportunity, entitled "The Education of the Negro Child". Mr. Johnson professes his faith as follows: "The education of the Negro child should be realistic. He should be aware not merely of his environment, and his role in it, but of the natural history of his relationship to his culture. He should know how to appraise the principles of the education by which it is expected his life will be shaped. He should know the present limitations of his environment and why it is limited. It is a familiar experience in the secondary schools and colleges to encounter student who, by virtue of the urge of ambitious parents, have reached the college level only to be overwhelmed when the educational philosophy fails them, and without knowing why. Only a wise education for this group would provide for them, freely, a sympathetic knowledge of their own intimate social world and a realistic knowledge of that broader universe in which they must make satisfactory adjustment for survival."

Prof. Johnson has attacked a difficult problem, on which parents prefer to think with their hearts rather than their heads. It is almost too much to have to admit limitations at the start and plan for them. One prefers to hope the limitations will recede or disappear and plan for the ideal.

LIFE INSURANCE HEALTH PLANS

Dr. M. O. Bousfield, medical director of a large insurance company, has sent to Calvin's Newspaper Service his views on health conservation programs of life insurance companies operating among Negroes. Dr. Bousfield's own company (of Chicago), for the past ten years, "has offered to its policy holders the services of the Life Extension Institute for a periodic examination by that organization at the expense of the Company."

Dr. Bousfield says further, "for the past several years, I have attempted to interest the National Negro Insurance Association in this matter as an Association project." The report states that the Association has not yet adopted the proposition, which is that an appropriation of \$500 or \$1000 be made for a health conservation program for policy holders.

Ethel Waters Denies She Forced Eleanor Powell From Play

Josephine Baker Involved In Alleged 'Fend' With Fannie Brice

New York, Feb. 12—(ANP)—Displaying messages of denial sent by both herself and Eleanor Powell, white tap dancing sensation, Ethel Waters this week told the Associated Negro Press that her reported attitude of snubs and criticism toward Miss Powell had not forced the latter out of the Broadway hit show, "At Home Abroad."

Charges that Miss Waters' attitude had influenced other members of the cast to so embarrass the white star that she collapsed and withdrew from the revue were printed by Edna Ferguson, a reporter for the New York Daily News. Immediately on the story's appearance, Miss Powell sent a telegram to Miss Waters declaring the article absolutely untrue and a wire to the News demanding a retraction. Miss Waters has also made several requests for correction, she states, but thus far they have been completely ignored.

Meanwhile Josephine Baker, now appearing on Broadway in the new "Ziegfeld Follies" is being accused of causing the withdrawal of Fannie Brice, due to either illness or anger, and the temporary closing down of the revue. According to the story, there has been a feud between the white star and Miss Baker over prominence in the billing.

In the telegram sent to Miss Waters as soon as the News article appeared, Miss Powell stated:

"My dear Ethel: No statement nor article such as the malicious one that appeared in today's Daily News could possibly express a greater untruth or misstatement of facts. Your friendship, cooperation and help is something I have always appreciated and I will be happy to get back to work as quickly as the doctors permit which I hope will be in a few days. Sincerely, Eleanor Powell."

In the communication to Miss Ferguson of the News, the dancing sensation declared her association with "At Home Abroad" had been very agreeable and if she had been dissatisfied she would not have stayed with the show five months. Miss Powell avowed her friendship for both Miss Waters and Beatrice Lillie and stated both had given her their utmost cooperation. A denial was asked in order to save needless embarrassment to all concerned.

Miss Waters also told the reporter that the entire story was false and asked for a correction. Thus far the News has not published any of these letters or a correction.
