**PROGRESSIVE THINKERS HOLD MASS MEETING**

At a mass meeting held Tuesday night, Oct. 6, at the Woodson Center, the Progressive Thinkers Club held a special session. Judge Perry Wheeler and Atty. Henry J. Bremmer were present.

Judge Wheeler spoke on the object of the club, which is to promote better fellowship, better citizenship, the morale and social welfare of the people and encourage them to exercise their franchise as true Americans. He received a tremendous ovation for his timely remarks.

Mr. Bremmer spoke on the candidacy of our Robert B. Simmons for senator and Jackson B. Chase for congressman.

Various committees have called on Commissioner Knudson, in regard to the removal of a Negro janitor from the S-Side comfort station—a job that has been held by a Negro since the opening of the station—and replacing him with a white man. The organization went on record as disapproving Commissioner Knudson's stand in the matter. The organization appeals to all well thinking citizens, black and white, to use their influence in maintaining this job for a Negro, and getting Mr. Knudson to discontinue his practice of removing Negroes from jobs and replacing them with whites.

### THREE GENERATIONS OF REPUBLICANS

Republican leaders, representing three generations, meet at national headquarters in Chicago to discuss plans for the current presidential campaign and judging from their expressions, it looks good for the Landon-Knox ticket. On the left is Bert Cumby, assistant director of the Young People's Department of the Republican Colored Division. Seated in the center is Major John R. ... of the ... in addition to being a member and speaker of the Mississippi House of Representatives, served as a U. S. Congressman from Mississippi and is the only Negro ever to act as temporary chairman of the National Republican Convention, this honor occurring in 1884. On the right is Robert R. Church of Memphis, one of the nation's most influential leaders.

**A Three Days' Cough Is Your Danger Signal**  
A cough, chest cold or bronchial irritation today may lead to serious trouble tomorrow. You can relieve them now with Creomulsion, an emulsified Creosote that is pleasant to take. Creomulsion is a medical discovery that aids nature to soothe and heal the irritated membranes and to relieve the irritation and inflammation as the germ-laden phlegm is loosened and expelled.  
Medical authorities have for many years recognized the wonderful effects of Beechwood Creosote for treating coughs, chest colds and bronchial irritations. A chemist worked out a special process of blending Creosote with other ingredients so that now in Creomulsion you get a real dose of Beechwood Creosote which is palatable and can even be taken frequently

**Functional PAINS from poor nourishment**  
A hearty appetite and good digestion are much to be desired.

Women who formerly suffered from a weak, run-down condition as a result of poor nourishment, have reported they obtained much benefit by taking CARDUI, a special medicine for women. They found it helped to increase the appetite and improve digestion, thereby bringing them more strength from their food.

Naturally there is less discomfort at monthly periods when the system has been strengthened and the various functions restored and regulated.

**CARDUI** is given so much praise by the thousands of women who have taken it that it is well worth trying by others who suffer similarly. Of course, if not benefited, consult a physician.

**CHURCH OF GOD IN CHRIST**

## GAS RATES REDUCED!

★ Eleventh Consecutive Reduction Will Save Users of Gas \$110,000 Annually!

THE Board of Directors of the Metropolitan Utilities District is pleased to state, that through savings realized by the use of Natural Gas in our manufacturing process, we are able to announce another substantial reduction in gas rates for Omaha. This is the eleventh consecutive reduction since the city acquired the gas plant in 1920. This new rate schedule will apply on all gas consumed after January 1, 1937, and which will be represented by the bills rendered in February. Approximately \$110,000 will be saved annually to users of gas. Consumer cost of domestic gas over 500 cubic feet monthly has been reduced from 55c to 50c per 1,000 cubic feet net.  
This is the second rate reduction made possible by the use of Natural Gas in the manufacturing

process. The 1934 reduction of 5c per 1,000 cubic feet was made in anticipation of the guaranteed economy by use of Natural Gas instead of gas oil. A total reduction of 10c per 1,000 cubic feet may now be directly attributed to the use of Natural Gas in the manufacturing process.

Compare the new rate of 50c per 1,000 cubic feet for domestic gas with the rate existing at the time the city purchased the gas plant. The rate at that time was \$1.15 per 1,000 cubic feet net. The gas plant was purchased by the city on the assumption that "Dollar Gas" could be realized.

Omaha has had the lowest manufactured gas rate in the United States for some time. This new slash in rates gives Omaha still cheaper gas service.
