K K Ks Threaten Indiana Minister

Lexington, Ky., Oct. 19—The Rev. William H. Brown, rector of St. Andrew's Episcopal church here, has received a threatening letter signed "K.K.K." from Moore's Hill, Ind. because he has purchased a farm in the vicinity of that town. Mr. Brown is a World War veteran and in June received his bonus money. He decided to invest a portion of it in a farm for his family and, after investigation, completed negotiations for a piece of property in Indiana.

During the transaction with real estate agents and others Mr. Brown voluntarily brought up the question of color so that he would be assured of peace for his family. There was no indication from any one concerned that a colored family would have any trouble in that section of Indiana. However, two days after the deal was completed, Mr. Brown received the following letter, printed in capital letters by hand:

"Mr. Brown, I am taking time to drop you a few lines, as I understand you are dealing for a piece of property near Moore's Hill, Ind. I would like to let you know before it's too late that there are no other colored folks in his community and I think this will not be a desirable place for you and your family as the feeling is running very high since the news has come out that you were coming into our community. I would advise you for

your own benefit to not buy property here.

Yours truly
K. K. K."

Mr. Brown has been an active worker for and supporter of the NAACP and has communicated with Walter White, national secretary in New York, who in turn has placed the matter before Governor Paul V. McNutt of Indiana, the two Indiana senators, and all the representatives of the state in Congress. Mr. White's letter to Gov. McNutt declares:

"We are taking the liberty of requesting you as governor of the state to take such action as lies in your power in investigating and bringing to justice under the laws of the state under the laws of the state of Indiana the persons responsible for these threats, and to protect to the fullest extent of the law, Mr. Brown in his rights, as a citizen, and as a soldier who fought for democracy."

THEY WILL BE SURPRISED WHEN WE TELEPHONE THEM.

YES, PEOPLE IN EUROPE DON'T USE THE TELEPHONE NEARLY AS MUCH AS WE DO.

AMERICANS LEAD THE WORLD IN THEIR USE OF TELEPHONE SERVICE

The average American makes nine times as many telephone calls as the average European.

In the United States, you can get more and better service for your money than anywhere else in the world. Under such conditions, it is natural that Americans should use telephone service more than do the people of other countries.

Your telephone dollar has been buying more and more each year. It buys swifter, more accurate and more dependable local service; it buys out-of-town service amazingly faster, clearer and more sure at substantially lower cost.

For more than half a century, the Bell System has worked constantly to improve and extend telephone service and to keep down its cost to telephone users. In this way, it has helped to give the United States world leadership in telephone service.
