A. W.—My husband is a good man but he needs to go to a doctor and every time I suggest it he says he does not have the money. Tell me what to do.

Ans: Your husband don't have the money to throw away....but surely he could arrange to receive the MEDICAL ATTENTION necessary for his health. Make him realize that it is cheaper in the long run for him to see a doctor. He shouldn't neglect himself.

V. H.—Do you think I am doing the right thing in telling myself I care for this man and taking up all my time with him?

Ans: There is no reason why you shouldn't associate with him, however, you should not devote all your time to him. It is quite true that he is agreeable and pleasant but he is not just the man that will be your FUTURE MATE.

J. H.—Does this man that I am so very fond of love me or am I acting silly? Everyone knows I love him and will be with him or is he just like all other men I know, a cheat and a falsehood?

Ans: Of course not.....give the boy a chance to reach an honest opinion. He was truthful when he said he did not know if he loved you or not. Continue your association and be sure that your conduct is above reproach. He is searching for the perfect girl.

M. L. P.—Will you tell me if I am going to take the trip. Could I get a private answer from you?

Ans: You will make the trip as

#### TOMORROW'S KITCHEN IS AVAILABLE TODAY

The ultra-modern American kitchen equipped with a 1937 gas range is in truth the achievement of tomorrow, says W. J. Barber, assistant to the general manager, Metropolitan Utilities District. "Intensive technical and scientific research within the gas industry has brought about the development of a cooking appliance far beyond the expectations of today."

Yesterday's kitchen may reflect the personality of the home-keeper in color and in a certain degree of charm, but it lacks appeal when an outmoded and undependable type of range still is in operation.

"Some women may have the impression that the purchase of a modern gas range is beyond the limitation of her budget," explains Mr. Barber. "Her impression is wrong, for it is so easy to own a new gas range, there being many models correctly priced to coincide with the small and average budgets."

Why is the modern automatic gas range the most effective cooking appliance she can purchase today? Because it is constructed to withstand the severest wear an servile without replacement of parts: because it operates with a minimum of fuel in a continuously measured flow controllable to the most minute degree: because it offers a wide diversity of cooking temperatures or heat speeds instead of a few and therefore cooks food uniformly without failures and loss of palatability.

Equipped with thermostat, heat control, clock control and insulation which keeps the kitchen degrees cooler, the modern gas range has an air conditioned oven through which there is a constant circulation of freshly heated air.

originally planned and the result will be satisfactory. If you desire a private reply, send it quarter for my new Astrology Reading along with full name, correct address, and birthdate and you will receive my free opinion on three questions.

M. P.—I enjoy reading your column. Will my husband change and will I have success in the future?

Ans: Unless something unforeseen happens to give our husband a drastic shock, he will never mend his ways. It is awfully easy for a man to fall into a "rut," but it is mighty hard to climb out. The solution depends mostly on your power of persuasion.

S. V. D.—Tell me whether or not my grandson is really dumb and will not learn anything in school? His mother is very worried.

Ans: No.....your grandson is not dumb. He could learn his school work easily if some would coach him at home and try to make his school work interesting. As long as he considers his training as a job he won't like it. Prepare him for a trade of some kind.

C. W.—Which of the two businesses would be better to start and would either prove successful?

Ans: Both propositions are good ones.....although I am afraid your financial condition would only permit you to enter but one field. Study the propositions over thoroughly before going into them so that you can make it pay from the start....

R. M. S.—The man that I am so much love with does he care anything for me?

Ans: At this particular time he believes himself to be in love with ANOTHER WOMAN. He will enter your life again.....but only for a short time I think for he realizes that he does not love you but likes your friendship.

#### HOW OFTEN CAN YOU KISS AND MAKE UP?

FEW husbands can understand why a wife should turn from a pleasant companion into a shrew for one whole week in every month. You can say "I'm sorry" and kiss and make up easier before marriage than after. Be wise. If you want to hold your husband, you won't be a three-quarter wife. For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three ordeals of life: 1. Turning from girlhood to womanhood. 2. Preparing for motherhood. 3. Preparing "middle age." Don't be a three-quarter wife, take LYDIA E. PINKHAM'S VEGETABLE COMPOUND and go "Smiling Through."

#### To strengthen the whole system against the weakening effects of the changes that take place in MIDDLE LIFE

Good strength is always important, but it is of special importance during the change of life when the body needs the very best nourishment to fortify it against the changes that are taking place. Increased nervous irritability and the distressing symptoms that appear in middle life all need treatment with a view of making the woman as comfortable as possible.

To combat poor nourishment and associated nervous fatigue, Cardui has real usefulness because it is a bitter tonic and stomachic which stimulates the appetite and increases the amount of gastric juice. In this way, digestion is aided, thus favoring more complete transformation of food into living tissue, resulting in improved nutrition and the consequent building up and strengthening of the whole system.

Cardui is a liquid medicine, sold in 9-ounce bottles, with full directions for use.
