Plan New Jim Crow Law In Tampa, Fla.

Tampa, Fla., Aug. 6 (By James H. Boykins or CNA)—Two weeks ago the City Commissioners acted to bar Negroes from the Ybor City section of Florida. Last week when aldermen pointed out that such segregation would be illegal, even under Florida law, unless applied to all section of the city, a new bill providing city-wide segregation was hastily written.

Negro resident are protesting the measure.

IN MEMORY

We pause here to pay respect to one of the most outstanding personalities ever to grace 24th street, the late Adrian Stamps.

The progressive Youth Movement of which he played the lead, has suffered a great loss.

Adrian was a "Natural." He displayed unusual ability as a leader and organizer, and his work in engineering the Negro Leader Movement, known as the Negro Mayor Race, was a masterpiece of performance on his part. He worked day and night until his program was successful then took to his bed to rest until death.

This little warrior, must be listed among braves, he was the most courageous ever to fight and endure so long against stacked odds.

Death lurked in corners of the room many times, but his stamina, his fight and desire to live, challenged death, and stayed its victory until such times, as the world could take notice of his metal.

We extend to members of the bereaved family, our deepest and heartfelt sympathy in these extreme hours of sorrow, and ask for consolation for Him who restores strength while under the affliction of grief.

"We will think of him in silence; no eye can see us weep; but still within our aching hearts; his memory we shall keep."

In memory of this great life, which was well lived, for the short time granted, we, The Omaha Negro Council, make a permanent entry in to files commemorating the life of our deceased member.

Black Legion Leader Sought In New York

New York, Aug. 6 (CNA)—General Virgil F. Effinger, alleged national commander of the terrorist Black Legion was being sought by New York police this week.

Effinger, a fugitive from justice for more than a year since revelations of Black Legion terrorism in Michigan, has been reported seen here.

New York police are looking for him on the request of the police of Columbus, O., who swore out a fugitive warrant. He walked out of an extradition hearing at Lin. O., last August.

The unmasking of Black terrorism followed the arrest of Payton Dean, confessed trigger-man of the Legion, after the killing of Charles Poole, a white WPA worker during the trials Dean testified that officials of the outfit had killed a Negro automobile worker for a "thrill."

Chinese, Japanese Battle in No. China

Peiping, Aug. 6 (CNA)—Chinese and Japanese troops were locked in battle on a hundred fronts in North China this week as Chinese authorities rejected a Japanese ultimatum demanding the withdrawal of Chinese troops from North China, paramount to surrender of North China to Japanese imperialism.

Following a Japanese attack on the ancient walled city of Peiping, Chinese troops opened a savage surprise attack on Japanese troops in Tientsin, North China, where the invaders have established a base of operations. Bombs exploded in the heart of the Japanese occupation and shells fell within the city. It was reported that the Japanese troops were driven from their positions near the railroad station.

Major engagements were in progress over a wide area in the Peiping region as the Chinese people their patience exhausted by Japanese bullying and seizure of their territory, lashed back at last against the invaders from the islands to the North. A showdown fight for possession of North China appeared in prospect. Chinese forces scored several initial victories for which the Japanese retaliated by bombing scores of towns from the air.

CIO Opens Steel Drive in Texas

Houston, Tex., Aug. 6 (By J. H. Harmon, jr. for CNA)—The Committee for Industrial Organization, which has so successfully entered the oil fields in Texas, Oklahoma and Louisiana through the International Association of Oil Field, Gas Well and Refinery Workers, is now making a drive to organize the steel works and the Southern Pacific Shop workers here in Houston territory.

The Southern Pacific is a large employer of Negroes in its shops, roundhouses, and in its yards as brakemen and hosslers. The Negro was largely introduced into the employ of the Southern Pacific as strikebreakers in 1922 during the great railroad strike. Due to the stupidity of the railroad Brotherhoods and their jimcrow practices, Negroes were used successfully to break their strike, and today the company maintains a strong influence over most of its colored workers through its company union, known as Shopcraft, and through the church.

However, it is well known that the workers are none too satisfied with conditions, especially with the denial of equal opportunity for advancement from the lower paid jobs to better paid categories. Another factor favorable to the CIO drive is its reputation for protecting the rights of Negro and white unionists alike and giving the Negro an even break. The CIO has already made a favorable impression on Negro workers in this state, and is going to make its job of breaking the influence of the company union much easier than would be the case under discredited A. F. of L. leadership.
