## Medical Group Swats 'Bunk' of Peddlers

New York, Sept. 22 (CNA)—The pseudo-scientific claim peddled by race "theoreticians" that Negroes exude an offensive odor, peculiar to themselves, received a resounding swat this week at the Medical Advisory board of the Daily Worker.

An Atlanta, Ga., white worker, who evidently rid himself of this anti-Negro fiction, sent the following inquiry to the board:

"Can you tell me if there is any difference between the composition of the sweat of a Negro and a white man? I would be grateful if you would give me this information in order to settle an argument. My friend says there is a difference."

The board, which numbers some of the leading physicians and specialists in this city among its members replied:

"As we have pointed out many times in the past, science can entirely disprove the statement made by your friend. No difference has ever been shown in the structure, function, and excretion of Negroes and whites.

"For that matter, some time ago we printed an answer to a question from two groups as to whether Negro skins give off a substance which has a particular smell.

"The fact is that all skins—black and white—give off the same smell, and the smell may be rancid and offensive if not enough baths are taken. The simple fact is that workers cannot take enough baths, if they have to live in dwellings without bathtubs, showers and running water.

"Millions of workers, white and black, in this rich land, not only have no bathrooms, but some even have no toilets and have to use outside—see all the advertisements of glorified bathrooms in the luxury magazines to the contrary.

"Workers, white or Negro, who have no proper bathing facilities at their factories, also smell after a long day of dirty and hot work."

## New Magazine For Teachers Off Press

Washington, Sept. 22 (ANP)—The first issue of The National Educational Outlook Among Negroes was put into circulation on September 11th. This new magazine of digest size is a monthly devoted to the advancement of education among Negroes. It has been designed to serve the interests of teachers on all educational levels, and in all sections, administrators of school and colleges, school patrons, students and pupils. The magazine will serve as a medium of expression for those who have ideas and suggestions for the solution of educational problems and as a permanent record of the progress of education among Negroes.

The magazine is published by the National Educational Press, Inc., Washington, D. C. More than fifty of the outstanding leaders active in the education of Negroes are members of its board of consultants and staff of editorial advisors. The acting managing editor, T. Edward Davis, has indicated that the magazine is being given a wide reception among teachers and other interested persons, and that its pages will always be open to those who have articles, stories, and pictures which are of interest to the large number of persons engaged in improving the educational status of the Negro race.

Dawson, Ga., Sept. 22 (ANP)—D. W. Holley, who "rose from the dead" about a year ago, died again Friday and this time for good.

Holley was jailed a year ago on a charge of stealing a bicycle. He suffered a "fit" and failed to respond to treatment. An undertaker was summoned and the "body" removed to a mortuary. When the undertaker returned next morning the "corpse" had fled.

He was recaptured but was not returned to jail because of his physical condition. He became ill early last week and died Friday. Funeral services were held Sunday.

## Politics Funny In N.Y. LaGuardia In Lead

New York, Sept. 22 (ANP)—New York isn't New York any more, said a song writer years ago, and he was even more right now than he was then. Shades of Tammany Hall chieftains. Who ever heard of a Democratic candidate for Mayor openly avowing his affection for the Republican party. And who ever heard of a New York Republican candidate soliciting Tammany patronage? Well, that's what's going on in these parts, what will Fiorella LaGuardia practically assured of reelection on the record of "the best Mayor New York ever had." And rolling along with LaGuardia is Special Prosecutor Thomas E. Dewey, with ambitious eyes looking ahead to the Governorship. Right now, Mr. Dewey is content to win the election as District Attorney of New York county. And a more unpopular man with crooks and criminals could not have been found, unless the politicians had gone after Edgar Hoover to take the job.

Dewey and LaGuardia are an unbeatable pair say all signs and Tammany is rushing helter skelter trying to find some way to defeat the crushing tide of votes these two will surely pile up. Harlem has paid particular attention to Mr. LaGuardia because, they say Mr. LaGuardia has paid particular attention to Harlem. He has done greater things for the community than any of his predecessors and according to the program mapped out, he will continue to do things for Harlem.

Utica, Miss., Sept. 22 (ANP)—Impressive last rites were held here last week for Lawyer McCadney, son of Pleas McCadney, wealthy farmer of this district and one of Utica's most prominent residents. Lawyer was buried on the campus of Utica Institute of which his father is a trustee. He had recently been employed in Atlanta but returned home after becoming critically ill.

## EDUCATOR

Booker T. Washington, great educator, whose efforts caused the Negroes of the South to become knowledge conscious.

## Tuskegee Starts A New School Year

Tuskegee, Sept. 22 (ANP)—Trains, buses and family cars brought hundreds of new students to the campus of Tuskegee Institute to begin orientation week activities to prepare for the opening classes of the college and high school departments held Monday.

Orientation week program consisted of physical examination, intelligence tests, achievement tests in arithmetic, English, reading and spelling, conferences with the personnel director and his staff, tours of point of interest about the campus, talks on Tuskegee traditions, a pep meeting and a moving picture.

On Thursday night at a special service in the Institute chapel the new students met Dr. F. D. Patterson, president, and Dr. I. B. Derbigny, dean of administration. Dr. Derbigny was the speaker.

Friday night the entire school assembled in Logan hall for the Stunt Night program. This was the evening that gave freshmen an opportunity to display their talents in instrumental and vocal music, acrobatics and such other entertaining talent that one may possess.

Applications already accepted show a heavy enrollment in the commercial dietetics courses and in rural education. Although it is too early for actual figures the School of Agriculture continues to lead in enrollment of men students. The Trade school, with its new attractive offering in non degree courses, is pressing close, however, for first place.

Twelve acres of outdoor space are set aside for model homes and landscaping displays at the 1939 World's Fair on Treasure Island in San Francisco Bay.
