Webster, first International Vice President of the Brotherhood of Sleeping Car porters, were placed on the Organization and Shorter Work Day Committees, respectively. This is the first time that Negro delegates (it has been said by some of the old timers) were ever appointed to a committee in a convention of the American Federation of Labor.

Bill Is Second on List Mentioned In Call for Special Congress: Act May Profit by Black Controversy

New York, Oct. 14.—The federal anti lynching bill, which in the closing days of the last Congress in August was put on the Senate calendar as the second item of business in for the next session, will come up in the special session of Congress which may be called about the middle of November, it was learned here this week.

In his conference with the press at Hyde Park on October 6th, immediately upon his return from his western trip, President Roosevelt indicated that a special session probably would be called November 9th or November 15th.

Among the items which the reporters gathered from the interview would surely be taken up are crop control, wages and hours, anti lynching, judiciary reform, and the reorganization of bureaus of the Federal government.

On the Senate calendar, the anti lynching bill is definitely set down for the second item of business the first being an agriculture bill. Observers in Washington agree that the anti lynching bill may bring up a filibuster in the Senate by southern democrats, but practically everyone, including leading southern senators like Pat Harrison of Mississippi, concedes that the anti lynching bill is practically certain to pass, filibuster or no filibuster.

Certain Washington observers also believe that the chances of passage of the anti lynching bill have been made much brighter by the episode of Justice Hugo L. Black with its revelation of his membership in the Ku Klux Klan. They feel that the anti lynching bill will receive some left handed assistance from the revelation because administration voters will be forced to take some definite action to reassure the large bloc of Negro voters in northern states which were thrown into confusion and dismay by the revelation that the new supreme court justice is a former member of the Klan. Although even southern senators

and congressmen in Georgia, Mississippi, Louisiana, and Tennessee that the anti lynching bill is sure to pass in the next session, the NAACP, which is leading the campaign for its passage, issued a warning today to all supporters of the bill not to relax their efforts until the bill is actually passed. The NAACP points out that a filibuster is distasteful to most senators and they will do anything to avoid it and also will give in quickly unless the pressure from the voters at home is kept up until the bill is passed.

Even southern daily papers in Mississippi have given up the ghost, following the pronouncement of Senator Harrison, and are admitting reluctantly that the bill will be passed.

The NAACP again urges voters in their home town to visit their senators while the latter are at home and inform them personally that the anti lynching bill must be passed and a filibuster resisted to the end.

Bishop Remembers "Folks Back Home"

Cape Town, South Africa, Oct. 14 (C)—Bishop R. R. Wright, jr., who is presiding over the fifteenth Episcopal district of the AME church, has the largest district in the church, covering 1,875,000 square miles. It is 3,500 miles from Cape Town of Nanyassa on the north and nearly 2,000 miles from Walvis Bay on the Atlantic to Inhamitane on the Indian ocean, and there are four European languages spoken—English, Dutch, German and Portuguese, a score of native languages, and four different governments.

In a message to his diocese in the current South African Christian Recorder, the Bishop remembers the folks back home when he says: "As I write this to you, my children I am reminded that I am over 10,000 miles away from my home my father and brothers and sisters and my own children. But I have God here in Africa with me, and nothing else matters much. God has given you to me, and your love and your help, and I am supremely happy. Then let us join together in prayer for more of His love to us, and let us share that love with one another."

"I am convinced that God has great things in store for us—for the African Methodist church in Africa, for the African people, for all people who trust Him....."
