### Yes,

Constipation

Is Serious But It Can't

Poison You!

Say Doctors

Modern doctors now say that the old idea of poisons getting into your blood from constipation is BUNK. They claim that constipation swells up the bowels causing pressure on nerves in the digestive tract. This nerve pressure is what causes frequent billous spells, dizziness, headaches, upset stomach, dull, tired-out feeling, sleepless nights, coated tongue, but taste and loss of appetite.

Don't suffer hours or even days longer than necessary. You must GET THAT PRESSURE OFF THE NERVES TO GET RELIEF, Flush the intestinal system, When offending wastes are gone the bowels return to normal size and nerve pressure STOPS. Almost at once you feel marvelously refreshed blues vanish, and life looks bright again.

That is why so many doctors are now insisting on gentle but QUICK ACTION. That is why YOU should insist on Adlerika. This efficient intestinal evacuant contains SEVEN carminative and cathartic ingredients. It acts on the stomach as well as the entire intestinal tract. It relieves stomach GAS at once and often removes bowel congestion in half an hour. No violent action, no after effects, just QUICK results. Recommended by many doctors and druggists for 35 years.
