L. A.—I have a plan that I desire to put before a distant cousin of mine and I am wondering if it will work out all right or not? I am most anxious to begin on my journalistic career and wonder if I will ever accomplish the things in life that I desire?

Ans: Get in touch with your cousin... although it is doubtful to me if this party will ever be able to finance you in the way you desire. They would be glad to help you get started and you must prepare to get employment even though you do make the trip to visit this cousin in March.

Doty Explains Housing Regulations

(Continued from Page 1)
kitchen cabinet and wall shelving. The plumbing fixtures include a deep tub which is adequate for ordinary small time washing. Each back yard is equipped with a clothes post. In addition to these facilities, tenants will be given privilege of using two community laundries at such hours as may be assigned.

Each house is provided with a concrete back yard space where children vehicles can be placed so as not to obstruct walkways when not in use. Two store houses have a large closet under stairs which can accommodate baby carriages, etc. Every tenant leasing an apartment in the Logan Fontenelle Homes will not be expected to any greater or lesser expense than would be required of them when leasing from private landlords.

Lights may be burned at any time and there is no restrictions on use of radios provided they do not necessarily annoy neighbors at late hours or use at unnecessary volumes.

Tenants of 3 room houses will be allowed a kilowatt consumption ranging from 60 kilowatts in June to 80 kilowatts in December. 4 room houses from 70 to 95 kilowatts 5 room houses from 75 to 100.

Gas allowance for 3 room apartment, 1,600 cubic feet; 4 room, 1,880 cubic feet; 5 room, 2,000 cubic feet per month. Consumption of either electric or gas in excess of these allowances will be charged against the tenant as additional rent.

Unmarried persons are not eligible nor will tenants be allowed to rent rooms. Any cohesive (any normal) family group will be eligible such as widowed mothers with children or father with his children. As the purpose of the act is to avoid overcrowding of families.

3 person families may occupy a 3 or 4 room apartment, but more than three persons will not be allowed to occupy 3 rooms. Not more than five persons to 4 room apartments. Not more than seven persons in any house on the project. The family makeup must be taken in consideration in leasing the houses as privacy and decency must prevail.

In no case will an applicant be found eligible who is now living in decent safe and sanitary homes.

When the project is completed and accepted by the United States Housing Authority an initial moving date will be announced. It is hoped that this will be about the first of March, but no positive information can be given at this time. Mrs. Robbie Turner Davis has been appointed Home Investigator. Mr. S. Edward Gilbert has been appointed application clerk. Hezikiah Bates has been appointed janitor. Only one janitor will be required as there are no hallways or public space in the project other than the manager's office.

It is probable other colored persons will be employed as firemen, but no full time crew will be employed on maintenance work. In order to give full time all year round work, it may be decided to use a fireman during the summer as yardman.

The permanent office personnel will be composed of only two persons and these have been filled.

The families of the lowest income group who can afford to pay the rent will be considered first. Minimum income will be determined in case of each applicant. There is no rule stipulated that a person must have an income of three times the rent. This used to be a requirement but no longer evasive of eligibility. Each case will be investigated and decided on its own merits.

The shelter rent is based on \$6.44 per room and utilities \$2.12.

Mr. Doty also stated that there has been no definite law stated about pets. That is entirely left up to the manager. In most cases he feels that tenants will be allowed to keep their pets unless they become a nuisance.

BAHA'I NEWS

During Negro History week, the Baha'is pay homage to one of their pioneer teachers, Louis Gregory, in recognition of his notable achievements and work for the Baha'i Faith. The oneness of mankind is a Baha'i principle, and adherents of the Baha'i Faith pay tribute to Louis Gregory and his wife, Louise Gregory, for their significant contribution to the spreading of the teachings. Last year Mr. and Mrs. Gregory undertook a journey to Haiti, and this year Louis Gregory is carrying on teaching work near Tuskegee to establish a Baha'i group. As executive secretary of the Inter-racial Committee of the Baha'is of the United States and Canada, he has compiled a pamphlet of teachings on the oneness of mankind.

Alain Locke, well known author and editor of 'The New Negro' is also a frequent contributor to Baha'i publications on world unity, and the basic Baha'i principles for the cause of the brotherhood, peace and social justice.

For despite politics and politicians, despite war and the makers of war, the fact is becoming constantly more clear that all mankind is one family inescapably joined by ties of trade, commerce, by the interchange of thought and by mutual fears and hopes.

As 'Abdu'l-Baha, the eldest son of Baha'u'llah said: 'In this day, means of communication have multiplied and the five continents of the earth have virtually merged into one. In like manner all the members of the human family whether peoples or governments, cities or villages, have become increasingly interdependent. For none is self-sufficiency any longer possible.'

Real oneness of mankind is only possible by making the world one vibrant, living unity through unity in the political realm; unity of thought in world undertakings; unity in freedom; unity in religion which is the very essence of the entire structure; unity of nations; unity of races; unity of language.

Baha'is believe that not only will each one of these be accomplished, but that even today the spirit of the new age which was kindled by Baha'u'llah is overcoming the destructive forces of the world of yesterday.
