FELIZ DOCE CLUB

The Feliz Doce club held a Vice Versa Date-Night in honor of Miss LaVerne McLaugh's birthday at the Elite club.

A beautiful gift was presented to Miss McLaugh by the Feliz Doce club of which she was formerly president.

After having spent an enjoyable time at the Elite the guests departed to the home a friend and enjoyed an evening of music and dancing.

The Feliz Doce club election of officers was held Tuesday April 12. The following were elected: President, Mrs. James Wilson; vice president, Mrs. Genevieve Bryant; secretary, Mrs. Juanita Bassett; assistant secretary, Miss Clarice Williams; treasurer, Miss Ethel Grant; sgt.-at-arms, Miss Helen Smith; social committee chairman, Miss LaVerne McLaugh.

Miss Mollie Payne, 2867 Cass street, gave a lovely decorated basket filled with Easter eggs to the inmates of the Old Folks Home.

Mrs. Lulu Dicus, 2520 Ohio street of the Seventh Day Adventist church, has been ill for several weeks and desires her friends to visit her.

Wagon wheelers Have Skating Party

The Wagonwheel Sports club met at the home of Mr. and Mrs. Robert Hammond, Monday evening April 11. After the usual business of the meeting was disposed of, a very delightful menu was served by the hostess who was assisted by Mrs. George Parter. The club had several couples names mentioned for membership and they will be voted upon at the next meeting.

On Easter Sunday afternoon members of the Wagonwheel sports club met at the home of Mr. and Mrs. R. I. Britt for a skating party. The police department roped off the block on Twenty-fifth street between Binney and Maple so that the club could have protection to skate.

With the exception of Jimmie Jones' hard fall and the very slight that Estella Robertson made a she floundered for balance, there were no mishaps. The president and little James Jones, jr., were the experts of the party and spent of their time holding up the others.

Following the skating party, the group hid eggs in the Britt's spacious basement and hunted eggs until six o'clock, when some had to go to church and others had to join the evening East parade.

U. S. Employment

(Continued from Page 1)

domestic and personal service, 10 per cent in agriculture, and 6.5 per cent in manufacturing.

The most favorable placement rate for Negroes was in agriculture where 37 per cent of the men and 64 per cent of the women were colored. The ratio of placements was high also in construction and manufacturing. In most of the other industrial group, including domestic and personal service, the proportion of colored placements was less than their proportion of applicants.

In the South where placements were concentrated in the laboring occupations, the proportion of Negroes placed was so tremendous as to make placements of colored workers more numerous than placements of whites. In the North, on the other hand, where there was need for skilled workers, the placement opportunities for Negroes was limited. More colored women were placed in the North than men because of the large number of openings in domestic and personal service, which accounted for nearly four-fifths of applications and placements among colored.

Placements of Colored Applicant as Compared with Whites

The industrial distribution of placements of Negroes varied from whites. Of colored men placed, 31 per cent were in building and construction, compared to 23 per cent white men. 29 per cent as compared to 42 per cent white men were on relief projects. Only 6 per cent of white men were placed in agriculture compared to 20 per cent colored men—65 per cent of whom were in Texas and California, and more than 85 per cent only temporarily. In domestic and personal service, there were 7 per cent colored men compared to 5 per cent white. Manufacturing, in which 8 per cent white men were placed, included only 6 per cent of colored male applicants.

More than 65 per cent of all colored women and only 56 per cent of white women were placed in domestic and personal service. Exactly 10 per cent of colored women but less than 2 per cent of white women were in agriculture. Placement of colored women in manufacturing industries was 65 per cent of the total compared to 15 per cent for white women, and was almost exclusively in the food, textile, and miscellaneous industries. The processing of tobacco products was one of the largest industries, and the most likely to absorb large numbers of Negroes.

It is evident then, that Negroes were placed in less lucrative and more temporary jobs. For the most part, those jobs which carried with them some degree of permanency were filled by whites.

Ahead of Time

"Isn't it dinner time yet, mother?" "No, dear, not for another hour yet." "Then my tummy must be fast."

First Atlantic Steamers The first Atlantic steamers were usually slower than ships carrying mail alone.

BIENNIAL CONVENTION

With emphasis on democratic practices as well as democratic principles, properly trained leadership and the intelligent application of religion to everyday life, more than 2,000 delegates from Y.W.C.A.'s throughout the country will assemble in Columbus, Ohio, the week of April 22 to 28, for discussion of mutual problems in the fifteenth national biennial convention.

The group, in conformity with the constituency of the community units and the democratic traditions of the YWCA, will be representative of practically every life, from race, religion, youth and maturity to economic status, political thinking and national cultures. Mrs. Austin L. Kimball of Buffalo, N. Y., who is the president of the YWCA's of the United States, of American, will open the sessions on Friday afternoon and will be the chief presiding officer throughout the week's deliberations.

Representatives of Omaha will include our Branch Executives, Mrs. Gladys A. Pullum, Mrs. Lois R. Goode, Chairman of Committee of Management; Mrs. Bernice Marshall, member of the Quac club and Mrs. Edna Carr, president.

The Volunteer Institute of the Northside YWCA will begin during the month of May. Watch the paper for the date.

The Membership Drive was a success. There were 123 renewals and new members added to the roll of the "Y".

The Baby Contest sponsored by the Finance Committee of the "Y" with Mrs. Edna Carr, co-chairman, Mrs. Pearl Fletcher and Mrs. Mary Frazier members, was very successful. The total amount raised from this effort was over \$50. The baby winning the contest was baby John Phillips, jr., son of Mr. and Mrs. John Phillips, sr. The amount brought in was \$35.30.

Don't forget the Hobby Show to be held on Saturday, May 7, at the "Y". The show will include articles made by the girls. It will also include a style show of the articles made. Don't forget the time and date. The time will be at 7:30 on Saturday, May 7.

BIRTHDAY PARTY

Mrs. Helen M. Sampson, 2609 Lake street, celebrated her 66th birthday on Good Friday, April 15. The rain delayed the party a little, but the guests who did come were thankful. There was singing, prayer and scripture reading, which was enjoyed very much. A delicious birthday cake was then served, which was baked by the Omar Bakery. It was a two layer white cake, decorated with pink roses and green leaves. Mrs. Sampson has five children living, but only one was present at the party this being, Harry, her youngest child. He supports his mother and does everything he can to make her happy. All readers of the Omaha Guide are asked to lend a helping hand to this young man, that he may make good in life, so that his mother may have many more happy birthdays and be a blessing to his country.

PERPETUAL MOTION CLOCK STILL RUNS

A "perpetual motion" clock which has been keeping the correct time since November, 1916, without being rewound, is seen in this city says an Orebro (Sweden) United Press correspondent.

The clock, actuated by changes in air pressure, is so constructed that if there should be no air pressure change for more than 12 months the clock still will keep on going.

The clock movement consists of seven metal boxes which are affected by changes in atmospheric pressure. The movement they receive from such variations of pressure is employed to draw a weight which turns the clock hands. Never since the clock first started ticking has the weight ever been near its lowest position. The inventor declares that only the wearing out of the parts can stop the clock.

The amount of power the clock needs to move is said to be one-fiftieth part of one horse power. Or, as the inventor puts it, if a line of such clocks were placed around the earth at the equator, the amount of power required for them all would be no more than is needed to operate an ordinary sewing machine.

Loves His Home; Takes It Along When He Moves

London. — A Georgian mansion, recently pulled down at Ipswich, has reappeared at South Cheriton, Somerset.

When Captain Schreiber moved to South Cheriton, he couldn't bear the thought of leaving his old home so he took it with him.

The bricks and masonry of the old mansion were moved by rail from Ipswich to South Cheriton.

The Eighth Annual Style Revue and Dance of the Quack club was held on Monday night, April 18 at Dreamland Hall. There were over 500 persons present. All the modern arrangements of hair was shown by the leading hair stylists of the city. There were such unique hair styles as Dancing Class, College Girl, Exotic, Cinderella, Spring Night, Something in Evening, Spirit of Spring, Double Purpose, Page Boy, Tip Top Curl, Easter Bonnet, Formal Head Dress, Symphony in Silver, Climbing Curls, Finger Wave, Croquinoil, Snack Dutches, Gardenia, Coiffure of Originality, Demure, Innozenation In Paris and Young and Gay. Club models who were represented in the revue were Trojan club of the YWCA, Entre Nous of the YWCA, Dames of the city and the Smart Set of the city. Club girls, that is Quack Girls, were well represented in the fashion parade. Everything from beautiful negligees to formal attire. The wedding scene was very picturesque with Miss Mercedes Ferguson as the charming and beautiful bride and Willie Chapman as the groom; little Beverly Jean Pollard was the flower girl, Barbara Walker and Joyce Rogers as train bearers and Kenneth Rogers as the ring bearer and club girls as brides maids and matron of honor, completed the picture with formally attired girls serving as spectators in the beautiful scene. The affair was very successful, both financially and numerically. Hats off to the Quacks again!

Oldest Railroad Station Mount Clare in Baltimore is the oldest railroad station not only in the United States but in the world. It was built in 1830. It is now used as a freight station.

Swords From Heaven It is believed that ancient traditions of certain fine swords being sent from heaven can be explained by the fact that they were made from meteoric iron.
