WORDS WITHOUT MUSIC

By LOUIS REID
Music Features & Photo Syndicate

AMERICA may have a special stamp next year in honor of John Howard Payne, author of "Home, Sweet Home." The Village Board of East Hampton, L. I., has petitioned Washington authorities to have a stamp issued commemorating the 250th anniversary of the erection of Payne's home.

Louis Reid

John Howard Payne was born in East Hampton in 1791 in the building which, erected in 1689, is now maintained as a Memorial Museum.

The Only Happy Kings

Dance music, popular songs, old-time songs, variety programs, musical novelties, semi-classical music and comedy skits are popular in the order given with radio listeners, according to recent broadcast surveys.

The kings of the dance bands are the only real monarchs in the world today. So many persons—broadcasters, advertisers, innkeepers, vaudeville and movie agents—rushing for their services. Dance orchestra leaders, of all these in the radio parade, have profited most from the microphone.

But the song writers who supply the raw material for the orchestral mill still have to be content with cakes and ale. Rare is the song hit that nets its author more than \$15,000, and that includes sheet sales and phonograph royalties.

No News of New York's Anthem

It is now more than a year since Mayor LaGuardia started the country in general and the music world in particular with a clamor for a song "truly representative and typical of New York." The anthem is not yet forthcoming. Even the stimulation of a prize of \$2,500, half to the composer and half to the lyricist, offered by ASCAP through its President, Gene Buck, has not produced a song which meets with the Mayor's favor, though thousands of manuscripts have been submitted.

To write a song "truly representative and typical of New York," is, of course, a task as difficult of achievement as a penning of the Great American Novel. Perhaps, the town is too big, too varied, too utterly bewildering to be captured

HOW OFTEN CAN YOU KISS AND MAKE UP?

FEW husbands can understand why a wife should turn from a pleasant companion into a shrew for one whole week in every month.

You can say "I'm sorry" and kiss and make up easier before marriage than after. Be wise. If you want to hold your husband, you won't be a three-quarter wife.

For three generations one woman has told another how to go "smoothing through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three ords of life: 1. Turning from girlhood to womanhood. 2. Preparing for motherhood. 3. Approaching "middle age."

Don't be a three-quarter wife, take LYDIA E. PINKHAM'S VEGETABLE COMPOUND and Go "Smoothing Through."

Remember that Black-Draught is made to perform the real duties of a laxative. It is made to give you refreshing relief from constipation. It is not only thoroughly effective, but it is economical as well. When you buy Black-Draught, you pay for what you really want—and that is dependable, easy relief from constipation.

in a brief and appropriate musical theme.

Currently there is no popular song title containing the word "round," yet it is a word that usually crops up once or twice a season. Best known songs in this category are "The Last Round Up," "Music Goes Round," "Merry Go Round Broke Down," "Ring Around the Rosie," "Round and Round the Mulberry Bush," "East Side, West Side, All Around the Town," "I've Got a Rainbow Round My Shoulder." In older times they used to have the roundelay.

With recitals coming in quick succession from the foremost bands and concert artists, America is now absorbing more musical culture than in all the years from Washington to Wilson.

That girls rarely go in for orchestral ensemble careers is proved by the scant number of girls' bands. Two notable cases are the organizations of Phil Spitalny and Ina Ray Hutton. . . . Their ranks will soon be augmented by Ramona, former pianist with Whiteman, who is now organizing an orchestra of her own.

A Hollywood song-writer's first and most important duty when he is commissioned to fashion tunes for a movie is to make his melodies fit the mood and action of the script. Tuneman Frank Loesser was recently ordered to do the music for a picture called "Spawn of the North." You would think he would be stumped by the assignment. But not Loesser.

He flashed into his piano, came up with "I Like a Hump-Backed Salmon."

Jimmy McHugh and Harold Adamson are writing the tunes for the next Deanna Durbin picture, "The Certain Age." Victor Schertzinger has installed a pipe organ in his Hollywood home. . . . He's probably heard his "Marchita" on everything but a pipe organ, and wants the novel experience. . . . Biggest hit at the recent Washington press correspondents' dinner to President Roosevelt was a special song, written by veteran tunesmith Pat Ballard. Called "Bonneville, Boulder and Coulee," it poked sly fun at the Administration's interest in dam building. . . . Racy contemporary civilization as provided by excerpt from bandmistress Ina Ray Hutton's ad in Variety: "Girl Trumpet Player Wanted—Must Take off and Play Hot."

I. M.—Please tell me where I can go to make a success? I am thinking seriously of returning to my home town but am undecided.

Ans: You left your home town because you could not make any headway, why should you return? Make up your mind to locate in a large city but on the other hand, choose some kind of work and concentrate on it altogether. A jack of all trades never gets very far.

R. H. J.—Will my wife and I ever go back together and if so how soon?

Ans: You kids really did act very indifferent as well as very childish. Marriage isn't a proposition of spite and unreasonable actions, when you both come down to earth and look at the matter as you should, then you will be able to get along fine together.

A. J. M.—Will I get a teaching position this year, if not, when will I be successful in receiving a job?

Ans: Although you are qualified as a teacher, but due to the fact that it is several months until you could possibly get employment, why don't you take a business course. When fall comes around you will have two chances at employment. It seems to me that you would make a very capable business lady.

C. B.—I read your column in every week's paper and enjoy it. I am congratulating you on your common sense answers to troubled fools like myself. Which one of the boys I am going with mean the most to me?

Ans: The young men are interested but not in love. In fact B. F. has practically given you the "go-by" for a young girl of your acquaintance. A very happy marriage is indicated for you within the next three years.

E. L. C.—Will I have any luck with either one of the two jobs that I am planning on?

Ans: Yes, and mighty good luck at that. A very favorable contact will be made within the next few weeks, make the best of the job that you take.

A. P.—Should I go away and make up the course in beauty culture and is the kind of work I want to do?

Ans: To go into a larger city to make your start would help you as you could get more experience. Beauty culture is interesting work and anyone with your training and initiative will excel in almost any profession of your choice.
