THIS WEEK IN THOUGHT AND RELIGION

Robert L. Moody Communism The Negro Resorts To Dr. Mark A. Dawber made the following observation and expressed that "More than 20,000 Negroes have joined the Communist Party (while 2,000,000 octon picking Negroes will join if they are put on the economic scrap) because Communism attempts to parallel the Christian attitude. He is called the brother—he is told that there is no segregation in communism and that 'we have the blue prints to solve your economic problems.'" "Negroes in this country are its most needy citizens. Not only economically but religiously." "Communism get its most recruits from the ranks of the destitute, hungry ignorant, homeless, sickness, desperate ones; the folks who believe that there can be no life more miserable and unhappy than the life they now live—so individuals they turn to Communism. Whether all of these statements are true in every sense, they present to the Christian a surmountable challenge to see that "brotherly love continues." How do we meet this challenge?
