have worried continuously for the past few years about making your home in Philadelphia and I honestly feel that you would be using good judgement to carry out this plan you have in mind.

A. B.—Is there any way that I can change him as he does not care for church picture shows, dancing or any kind of entertainment?

Ans: Not a possible chance of changing him and don't enter marriage with the thought that you can make him like the kind of like that you do. He is a quiet type and will never be able to frolic in the fashion you desire.

L. S.—There is an attachment run on my car for a bill of my husband's but understand the car is in my name. Will I be able to get it back?

Ans: Laws in different states vary—the thing for you to do is consult a good lawyer and take his advice on the matter. I do think that some adjustment will have to be made about the bill before you are able to get your car.

M. M.—I do want your opinion about my farm as I feel that you will help me if possible?

Ans: Put it up for sale and if you are offered a nice bargain or margin of profit then sell—otherwise hold it for a while. You really do not wish to go back there to live and if you can't get something worthwhile from it, then do so.

E. S.—Please tell me why my people pick at me and what really

Ans: You have a swell disposition and they just take advantage of it to try to arouse your "bad points". The less you have to do with them the happier you will be. Make friends among the people who do not live near you.

### "A HEALTHY SCALP FOR HEALTHY HAIR"

Is your scalp crying out for lubrication? Are you annoyed with dandruff? A dry, irritated scalp produces unattractive hair growth.

Your scalp is the "soil" from whence comes healthy hair. Just as it requires good soil for a successful garden, so too you must cultivate a clean healthy scalp for quality hair.

No woman can successfully treat her own scalp difficulties. It is a scientific process. There is a special technique for scalp massage that only the trained beautician understands.

It is vitally important as a protective measure that all oils used in such a treatment be of high standard and not just any highly advertised product sold over the counter to the public.

Also, correct application of any emollient is essential. Scientific manipulation of one's scalp stimulates circulation and promotes hair health.

Furthermore, there is not better preparation for your hair than a series of our scalp treatments. Your hair will be easier to care for after such a thorough pre-conditioning.

Make treatments now for highly beneficial program of scalp treatment and watch your hair improve.

### BABA'I FAITH

Baha'is attending the Feast of Perfection, Aug. 1st, were reminded that Beauty, Perfection, Brilliance and Spirituality in this existence comes from or through the Word of God. For all it is the supreme goal, the greatest desire, the cause of life, light, and instruction. Man possesses two kinds of susceptibility; the natural emotions which are like dust up on the mirror, and spiritual susceptibilities which are merciful and heavenly characteristics. There is power which purifies the mirror from dust and transforms its reflections into intense brilliancy and radiance so that spiritual susceptibilities may chasten the hearts and heavenly bestowals sanctify them. What is the dust which obscures the mirror? It is attachment to the world, avarice, envy, love of luxury and comfort, haughtiness and self desire; this is the dust which prevents reflection of the rays of the Sun of Reality in the mirror. The natural emotions are blameworthy and are like rust which deprives the heart of the bounties of God. But sincerity, justice, humility, severance, and love for the believers of God will purify the mirror and make it radiant with reflected rays from the Sun of Truth.

Nothing is more fruitful for man than the knowledge of his own shortcomings. The Blessed Perfections says, "I wonder at the man who does not find his own imperfections." We must therefore endeavor ourselves to attain to the perfections of the world of humanity, and lay hold of everlasting life. ### HARRY HENDER

Republican Candidate

for METROPOLITAN UTILITIES DISTRICT

As a candidate for one of the directors of the Utilities Board, I pledge myself to an economical operation of the gas and water system of the city—lower cost of operating expenses should mean lower rates. Every man, woman and child of this city is financially interested in the management of this institution because they pay the bills for water and gas consumed.

I do not think that too large cash reserve is necessary. I believe that the present cash reserves are too large and rates should be lower.

I am in favor of employing local labor, executives and office workers.

I believe I possess the necessary qualifications for the job and, if nominated and elected, I will at all times pass on to the consumer all reasonable profits and savings that may be made in the management of this institution.

If you want a representative on this Utilities Board who is vitally interested in your behalf, vote for me on August 9th.
