BUYERS' GUIDE

(by CLARENCE H. PEACOCK)

One of the greatest problems of the Negro is the pressing need of employment opportunities for the race. At the present time, throughout the country, the many Negro organizations are launching programs and drives for mass action, for the employment of Negroes. Many of these organizations have as their general slogan "Do not buy where you can't work." Only by mass action can the Negro secure this objective. All Negroes should support these organizations in their vicinity.

Garfield Hayes Says Let Lawyers Join Bar Assn.

The American Bar Association was called upon by the Civil Liberties Union today to remove its discrimination against membership of Negroes as an initial step in conducting a militant fight for minorities, following its recent creation of a special committee on defense of civil rights.

The Union's suggestion was contained in a letter to Frank J. Hogan, president of the Association, by Arthur Garfield Hays, general counsel for the ACLU. Congratulating Mr. Hogan on the action taken at his recommendation in forming the civil liberties committee, Mr. Hays offered the cooperation of the Union and its branches throughout the country.

Mr. Hays added: "We welcome the American Bar Association's long delayed recognition of its responsibility in this field and trust that its work will be conducted on behalf of all minorities without discrimination. As

Mrs. R. C. Price 2411 North 22nd street, wife of the widely known barber, captured a young burglar after he had raised a window leading into the dining room and entered the home. About two months ago she called her husband's attention to a ripped off screen leading into their bedroom, and about two weeks ago she missed a pocket book while watering her lawn late in the evening, which she was positive she had placed in a dresser drawer. The pocket book had about 10 dollars in it. About a week ago she noticed a screen had been lifted from a side dining room window showing evidence someone had entered the house and after a close search of the house, she discovered a saving bank missing which contained about a dollar. Last Sunday about 10:00 A. M. she had a telephone call asking her to come to the YMCA at once to assist the resigning secretary in checking over the books, not thinking it was a call to get her away from home, in order to give a thief a chance

ARMSTRONG GIVES LIE TO SUPREMACY YOUTH SAYS N. Y. TRIBUNE

New York, August 25—The conservative New York Herald Tribune, in an editorial published August 19, poses the question: "What has become of that quaint old theory known as Nordic supremacy," and then proceeds to answer it in terms of the amazing fistic record of three world-title champion, Henry Armstrong.

The complete text of the editorial, entitled "Three Champions in One," follows:
