OUR COMMENTS

"EYEBROW GROOMING GIVES EYE ALLURE"

Well groomed eyebrows emphasize eye expression. Eyebrows thinned to a pencil line, after manner of Hollywood stars are no longer in vogue but all feminine eyebrows require guiding and a bit of trimming, of course, the natural line of growth must be skillfully followed.

It is a difficult and annoying task for any woman to arch her eyebrows correctly. When it is poorly done, it is most unattractive. A steady experienced hand with a knowledge of what constitutes the correct amount of thinning is essential if one would enhance the beauty of her eyebrow line. Eyebrow grooming is a special

service we give customers at a reasonable price. You will like your eyes much better after having our professional eyebrow treatment.

NEGRO WHITE PICKETS MARCH IN RICHMOND

Richmond Va., Aug. 24 (CNA)—In one of the first solidarity actions of its kind in this section, 200 white clothing workers members of the Amalgamated Clothing Workers of America marched in a mass picket line around the plant of the Export Leaf Tobacco Co., where 200 Negro tobacco workers have been on strike since Monday.

The bi-racial picketing was significant in that it aimed at the end of one of the South's most potent anti-labor weapons: the division between Negro and white workers. The policy of Southern employers has been to keep Negro and white labor completely divided either in separate branches of the same industry or in separate departments if working in the same plant. This policy has been actively supported by the A. F. of L. top leadership with its jim-crow unions and its outright refusal to organize Negroes.
