TESTIMONY GIVEN THAT TRANSFORMERS AND OTHER EQUIPMENT INSTALLED WITHOUT OWNERS CONSENT

Testimony that transformers and other equipment to serve farms had been installed without owners consent by the Eastern Nebraska Public Power District, was given Thursday afternoon before the state railway commission in Lincoln when hearing of the Nebraska Power Company's petition to prevent duplication of its lines in Cass and Saunders counties was resumed. A. B. Stromer, manager, Alvo Telephone Company, testified that such equipment had been placed at the farm of L. D. Mullen of Alvo which had been untenanted for ten years. Similar equipment he said was installed at District School No. 64 although this school has not been used for two years. Pupils of that district attend the consolidated school at Alvo. H. L. Bornemeier, farmer of near Alvo, corroborated Mr. Stromer's testimony and also stated that he had heard of several other such unauthorized installations of electric service equipment by the public power district.

PORTER'S BROTHERHOOD OF A-F-OF-L DELEGATES FIGHT WHITE PRIMARIES

RABBIS CONDEMN RACE PERSECUTION

New York, Oct. 20 (CNA)—The common cause of Jews and other racial and religious minorities to sustain against advancing fascism, and pleas for recognition of the rights of religious and racial groups were themes that marked the sermon delivered at the Yom Kipper services in this city. "America has no place for the preaching of hate which the emissaries of Hitler are trying to disseminate among the gullible," Rabbi Louis L. Coleman declared at Congregation Rodolph Shalom, 7 West Eighty-third Street. "The propagandists who are creating dissension in the ranks of faithful American citizens of Germanic background should halt their obnoxious efforts at once, or take the

consequences at the hands of their co-racialists." At the Mount Nebah Temple, 130 West Seventy-ninth St. Rabbi L. Feinberg stressed the duty of Jews to rally to the defense of all minority groups. "The duty of Jews in America is not to demand rights for themselves as Jews but to defend the Bill of Rights for all, as Americans. By upholding the Constitution, we preserve our own existence for it is the ultimate safeguard of every minority and creed. The Jews of this country have utmost faith in the ability of its people to distinguish between those who honor the Constitution by observing it, and those who use it as a shield for prejudice and disloyalty."

Houston, Texas, October 20—Reports from the A. F. of L. Convention at Houston, Texas, show that A. Philip Randolph, International President and M. P. Webster, First International Vice President of the Brotherhood of Sleeping Car Porters, battled with force and ability to place the powerful American Federation of Labor behind the fight of the Negro people to break down white primaries and thereby eliminate the disfranchisement of Negroes. In his speech against white primaries in the South, Mr. Randolph attacked the Poll Tax. Brotherhood Delegates Reverse Convention In one of the only two instances when the A. F. of L. Convention reversed its position and the report of the powerful Resolution Committee was overruled when under the attacks of delegates Randolph and Webster, the Brotherhood's Resolution for the restoration of colored maids on a basis of seniority rule was upheld. In a speech on the resolution, Delegate M. P. Webster told the Convention that the membership of the Brotherhood of Sleeping Car Porters included Filipinos, Chinese and that white barbers had made application for membership and would be accepted. He pointed out that the Brotherhood was fighting for maids who, with 20 and 30 years of service were thrown out without any consideration by the Union Pacific Railroad and other carriers. The Brotherhood's resolution on the Scottsboro Boys was adopted and also the resolution for an Anti Lynching Law. The Convention reaffirmed its position in favor of the restoration of the independence of Ethiopia. The Brotherhood resolution against general discrimination against the Negro people provoked an extended and bitter discussion on the floor, with delegate Randolph denouncing the whole jim-crow system of the South, pointing out that it was a form of economic duplication which caused the South to be Nation's according to President Roosevelt. Number one Problem. A. F. of L. Calls on Unions to Abolish Color Bar For the first time since the Brotherhood has been fighting for the elimination of the Color bar, the A. F. of L. Convention, adopted the Brotherhood's resolution which requested committee to be set up in National and International Unions to discuss the question of their succeeding convention in order to keep the issue alive in the unions. Southern delegates and the people of Houston were astonished at the drastic demands and attacks of the Brotherhood delegates against all forms of race discrimination, as attested by general expressions of the Southern delegates. Webster Stirs Negro Houston At a meeting of the National Association for the Advancement of Colored People, Mr. Webster assailed Negro leadership as a failure and called for a working class Negro Leadership which has courage, vision and intelligence as is expressed in the Sleeping Car Porters and other unions. He told the story of the struggle of the Brotherhood and pointed out the significance of the role of the Brotherhood in the A. F. of L. and that the Negro and white workers should unite in a common cause. Dr. Jerome Davis, President of the Teachers' Union backed the Brotherhood's resolutions.

Dallas Sheriff Protects New Negro Juror

Dallas, Texas, Oct. 19—Police protection is being given W. I. Dickerson, 46 a colored shoe repairman who was summoned for jury duty here October 10. Mr. Dickerson was the first Negro to be called since the brutal assault September 28, upon Dr. G. F. Bortel, president of Wiley Junior College, and a prospective juror who was thrown down the courthouse steps by two white hoodlums when he refused to be "excused" from serving at the suggestion of court officials. Mr. Dickerson and James Childs also colored, wrote registered letters to Sheriff Smoot informing him they had been called for jury service and desired protection. They got it, but Childs took his day's fee and left. White jurors glared at Dickerson and mutterings were heard, but the sheriff quieted everything down. Dickerson, who lives at 2109 Allen, said he wanted to serve on a jury and see how courts work. He paid no attention to the glares.

Roy Page, vice president, Nebraska Power Company, and C. W. Minard, chief engineer, declared that duplication of power lines and services in rural territory would not be to the best interests of the public. In answer to question by Robert Van Pelt, public power district attorney, Mr. Page said that with two electric utilities operating in the same field, lower rates for farm electric service would be impossible. This, he said, is because the two utilities would divide the available customers, thus increasing the cost per customer, through duplication of all operating and maintenance expenses. The hearing was adjourned until October 28.

BUSINESS, PROFESSIONAL WOMEN HOLD CONFAB IN PHILADELPHIA, PENN.

Philadelphia, Oct. 21 (By Bernice Dutricille-Shelton for ANP)—Negro business women have seized the bull of recession by the horns and in doing have gotten a jump on the men—in the matter of formulation of a definite program to offset the effects of the economic plight among Negroes. Setting forth the first week in May for the inauguration of a Negro Business Women's week, marked a decided highlight in the program last Saturday and Sunday of the third annual convention of the National Association of Business Women's Clubs. Sessions were held at the Southwest-Belmont Branch of the YWCA.

Des Moines Hits Beatings By Cops

Des Moines, Iowa, Oct. 21 (CNA)—A protest movement against third degree methods on the part of the Des Moines police department is gaining in this city. Three city detectives, Miller, O'Brien and Rich, attacked Wardell Coyle while he was being held for investigation, and beat him brutally. City authorities, alarmed over the resentment the action caused, hastily fined the detectives seventy five dollars in an effort to head off organized protest. But the beating and other cases of similar terrorism, were the targets of a mass meeting held here this week where resolutions calling for a public investigation of the entire police department, were adopted.

Maine State-Wide Vote Refuses To Go Back To Horrors of Prohibition

In connection with the general State election in Maine September 12, every district in the State was required by law to vote for or against the continuation of the sale of liquor in such district. Now with the returns coming, into the office of the Secretary of State there is no evidence yet that Maine is prepared to take back poisoned alcohol and moonshine liquor after having voted down Prohibition four years ago. Everywhere the cities and towns retained their present systems of the sale of alcoholic beverages and a number of the small town, formerly Dry, turned over into the Wet ranks. Several of the smaller towns

Finds \$500 Hidden In 1931

Scotland, Neck, N. C. Oct. 21 (ANP)—James L. Taylor, a wanderer, returned to Scotland Neck after an absence of seven years. He visited the house occupied before leaving in 1931 and told the tenants that he would like to look for something which he had hidden there before he left. The residents agreed and Taylor went under the rear of the house. There he thought for a moment, slipped a loose brick from the foundation, ratched in and located a waterproof jacket, containing \$500 in bonds.

Louisiana Adds To Lynchings

Shreveport, La., Oct. 21 (ANP)—Because they thought he might have been the man guilty of slaying R. M. Blair, white and his woman companion on a highway Tuesday night, a mob of several hundred whites went to the shack of W. C. Williams, 19 near Ruston, 30 miles from here, Thursday night and lynched him from a tree in an adjacent pine grove. The death of Blair was the second fatality from similar causes within the past few weeks. In the first case following an attack on a white man and his companion, a suspect was arrested and rushed away to thwart an angry mob. Williams had not been arrested when the mob trailed him to his mother's country shack. The day before Williams was lynched, this suspect was released after police became convinced he

THREE SCOTTSBORO BOYS ARE DENIED PARDONS

Montgomery, Oct. 21 (ANP)—After hearing arguments for and against the release of Andy Wright, Charlie Weems and Clarence Norris, three of the youths convicted in the Scottsboro case, the Alabama pardon board this week denied petitions for their freedom. Maurice Shapiro, New York lawyer, pleaded for the boys and former Senator J. Thomas Heflin gave the opposing arguments. Heflin objected to the written arguments which the board had requested and said: "If this board pardons these Negroes, its members won't be safe in their homes." He said he had journeyed all the way from his home in Lafayette to oppose the boys' pleas, and told reporters he would "make a speech every chance I get" to oppose release of the Scottsboro defendants.
