The beautiful spring day, brought out a very fine attendance at St. John last Sunday. The Sunday school opened at 9:30 with Supt. Thomas H. Goodwin in charge.

Dr. Adams preached a very fine sermon and the spiritual side of the service was very good. One young woman was received into the church on confesion.

The sick of the church are Brother, Cook, Sister Gardner, Sister Hanger and others whose names which were not passed in.

We pray for all their comfort. The church wishes to express its sympathy to Brother C. W. White and family over the passing of their love one as Sister White who has been ill for some time at her home.

Sister White was a very hard worker in the church when she was in good health.

The Lord is calling his children home every day. Are you ready for his call?

The choir went to Tech High last Sunday for a dress rehearsal for the Fifth Annual Goodwill Spring Musical to be presented April 30th in the Tech High school auditorium at 2:45 P. M.

They did not have their 4th Sunday night's request service this month because it has a full schedule all the month. So send in your request now for next month.

The Women of the church are going to put over the financial drive to pay out the debt on the parsonage. Now be a booster and help them. Now is the time to show just what you can do. Let us all put in some direction and put this drive to the safety line.

You will see in a few days the cards with the names and amount each member and friend has paid. Now don't let your name be missing.

When the ones who are appointed to collect this money, comes to you show them you are just as much interested as they are to pay off this debt.

Watch for the card and your name. See that your name is not in the danger column as it will be explained when this card comes out.

We are expecting several out of town visitors in Omaha next Sunday for the Goodwill Spring Musical. Help make them feel welcome at St. John.

Get your local paper and keep posted on your church and social news.

THIS WEEK IN RELIGION & THOUGHT
by ROBERT L. MOODY

Long Long Ago—

The subject suggests many years but we intend to think of a period between seventy and one hundred and nine years. Much progress has been made since 2830. The record states that at that time there were only twenty-three miles of railroad. Now there are thousands of miles between the coasts.

Omaha is one of the most important railroad centers of the United States because of its location. It is really the "Gateway to the West." This week those living now from the past generation with the present generation are re-living the "Golden Spike Days."

It is thrilling to compare the conveniences of the 60's with now. At that time people used kerosene lamps, stagecoaches, horses and buggies. Thirty miles an hour was very swift travel. There were no "Streamliners", radios, airplanes or automobiles. Then it took seven days and seven nights of dangerous and uncomfortable travel to go from the Atlantic to the Pacific. Now one may go this same route by rail in two and three nights. By airplane, one may make this distance in twenty-four hours.

Whatever may be said about the styles of '69, for women they are extravagant but modest. Some would do well to hold-over some of the ideals of modesty of the "Golden Spike Days" for our present age.

City Union of the Ushers and Usherettes

Jack Hall, reporter

Last Sunday afternoon was ideal for our get-together meeting or should I say, our dress rehearsal? As a matter of fact it was both. Well whatever you want to call it, it was well attended. I really had to second the motion when our president said she was quite pleased to see so many present.

Your reporter, took time out during the meeting to run up to Tech to peep in on Rev. Williams and Mr. McVay. You know they too were having a dress rehearsal and believe you me, they were all there, and the out-look according to song-ology should meet the approval of all who hear and see them.

We are glad to see Mt. Morvion's local functioning again. Now you girls must be good girls, or papa spank.

Sorry to hear of the sudden illness of Mr. Austin, the husband of Mrs. Austin of Pleasant Green local. However, we trust at this writing he is able to be up and out again.

All ushers and usherettes who are supposed to work next Sunday at Technical high school are requested to be there at 2 P. M. for last minute instruction and to get your assignments. Of course, you know that your uniform and everything is expected to be in A-1 condition.

Don't forget your "Penny Punch Card. You know you are helping

your local when you help the union. Here's hoping to meet all of you on time next Sunday.

I'll B-c-ing-U.

SAVING MONEY FOR OMAHA'S GAS CONSUMERS

Officials of the Metropolitan Utilities District have expressed a desire to save money for Omaha's gas consumers.

They propose to do this by improving the quality of the gas thus making it permissible to use less gas and still accomplish the same as is being accomplished now when more gas is being used.

To make this change in gas requires a change in the law. The District has submitted the necessary amendment, known as Legislative Bill 374.

The saving to residential consumers will be approximately 20 per cent and slightly less than 20 per cent to industrial users.

If your gas bill now is \$2.00, passage of L. B. 374 will reduce it to \$1.60; if your bill is \$2.50 it will be reduced to \$2.00; if the bill is \$3.00, it will be reduced to \$2.40.

This saving can be accomplished with your cooperation in the campaign for the passage of L. B. 374.

Write or call your state senator today. Urge him to work and vote for the passage of Legislative Bill 374 which has been introduced to save you money.

Douglas County state Senators, Ernest A. Adams, John Adams, Jr., Peter P. Gutoski, Sam Klaver, William J. Norman, Amos Thomas and Charles F. Tvrdik, may be reached at the State Capitol, Lincoln, Nebraska.

Ministers Asked To Preach Insurance Sermons

New Orleans, April 27 (C)—F. A. Young, secretary of the National Negro Insurance Week Committee, 2107 Dryades street, has contacted ministers throughout the country urging that they inform their congregations of the fifth annual observance of National Negro Insurance Week, May 8-13.

Text from Proverbs 6:6 and Timothy 5:8 were submitted with outlines for two different sermons on insurance.

NAVAL NOTES

The sails for the U.S. CONSTITUTION, one of our Navy's historic ships which saw service in the war of 1812, developed six hundred horsepower from a full spread of canvas with a wind that is said to have driven this ship at a speed of 13 knots per hour.

The effectiveness of this type of ship was so noted that the British Admiralty ordered British frigates to cruise in pairs and under no circumstances, where avoidable to accept a single ship action with an American frigate.

The U.S. LEXINGTON is over 100 feet longer than the Woolworth building is tall.

It is contemplated that in the near future chapels designed especially for the holding of Divine Services, will be constructed in warships of the U. S. Navy. The first will be in the battleships North Carolina and Washington, now being built.

Admiral Dewey is the only Naval Officer in history who ever "knocked off" fighting the enemy to hasten the meal pennant for crew breakfast.

The dolphin is reputed to be the fastest thing in the bring deep, as it is conceded to make 70 miles an hour.

It takes approximately 254 gallons of anti-fouling paint to paint the bottom of a battleship.

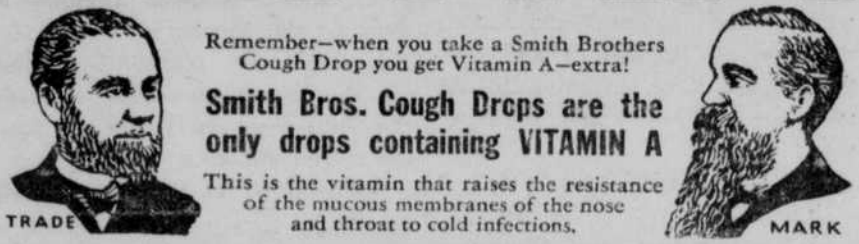

The United States Naval uses more coffee per man than any other naval or military organization in the world.

Do you know that one-legged men were Captains on ancient ships, according to the "Stories of the Sea." One legged men were considered as 'Men of Honor' and given jobs of running the ships of war.
