

NAVAL NOTES

THE ACT OF JUNE 24, 1933

"A deep sea diver of the United States Navy is well burdened by weighty outfit and equipment. The rubber suit weighs 27 lbs., helmet and breast-plate 53 lbs., belt 80 lbs., and shoes 28 lbs. His working implement include air-driven tools, electric arc burning torch, and hydrogen-oxygen torch which are effectively used under water.

THE AWFUL PRICE YOU PAY FOR BEING NERVOUS

Check Below And See If You Have Any Of The Signs

Quivering nerves can make you old and haggard looking, cranky and hard to live with—can keep you awake nights and rob you of good health, good times and jobs. Don't let yourself "go" like that. Start taking a good, reliable tonic—one made especially for women. And could you ask for anything whose benefits have been better proved than world-famous Lydia E. Pinkham's Vegetable Compound?

ize, the admission of not more than one citizen from each of the American Republics to receive instruction at the United States Naval Academy.

A 'Galley Yarn' is a good sailor's name for a scuttle-but' runner. The term came from the days when the cook was the originator of a great deal of the startling news around a ship because of his access to the officers' quarters.

The monthly pay of a Captain of a ship of 20 guns or more in 1776 was \$60.00 and that of a seaman A. B. was \$8.00.

When a ship reaches the International Date Line and crosses the 180th meridian from East to West, the ship's time is advanced 24 hours or one calendar day. Upon return from West to East over the meridian, the time is set back 24 hours.

ADVERTISE IN THE OMAHA GUIDE

THIS WEEK IN RELIGION & THOUGHT

by ROBERT L. MOODY

Festivity—

The wise man said that "a merry heart doeth good like a medicine." Omaha has had its share of gaiety during the past two weeks. The spirit of goodwill seemed to have been everywhere. Though we are conservative in our thinking about some things that are used to make joy, we admit that pleasantness is a good spring tonic.

For a time we forgot modern things and imagined that we lived in the days of grandfather's childhood. The model kitchen of 1869 as contrasted with that of 1933, was interesting to see. The evolution of transportation was also good.

Then came the Shriner's Convention with all of its good band music, funny sketches and multitude of colors. This seemed to give a finishing touch to the antiquity that preceded it. One proverb says "All work and no play makes Jack a dull boy." Many Omahans have released much of our playful energy and easily return to constructive work.

Hollywood Charm

By Besie Mae West. At-Home Beauty school

The shades of nail polish worn by an individual is one of the outstanding features of their charm. The shades of nail polish we wear is seldom overlooked unless it is natural. There are many shades of nail polish just as there are shades of dresses, or hats, therefore, we must select a shade suitable for the occasion, the complexion and the personality, and one that blends with our costume.

Remember this when you select your next bottle of nail polish. Watch HOLLYWOOD CHARM and visit your cosmetologist for helpful Beauty hints.

BASEBALL DOPE

If and when the Omaha Cash Coal baseball team play, they should be on razor edge. The team has had a lot of time to practice and study signals, for signals is one thing that a ball club needs and they should be perfected before play begins. It has been proven that signals given at the right moments have won baseball games. Nothing is more discouraging to the fans for a team captain or the manager to stop right in the middle of a hotly contested game to whisper to his players. When 2 men are on base and you are one run behind, and you catch the opposition off guard, signals come in handy. Isn't that the truth. So boys, brush up on your signals. C. Lee the old veteran must found that fountain of youth because he sure has got what a fielder needs and that is speed and stamina. Those eye glasses it what you should have had 3 years ago, because your hitting has improved 50 per cent. Stay in these old boy and pitch.

The O. K. Hardware team is made up of only Central High school lads and they haven't lost a game this season in their league and the other two teams is veto-

erans of the old Metro League, so you see the Colored lads have got some stiff position.

I was talking to Freddie Wakefield Wednesday evening looking the picture of health. He was the best Prep school first baseman ever seen in these parts. He said he was going to get in condition. But I hardly think so, because he weighs 10 pounds less than Mr. Fred Davis. By the time he got ready to play ball all the fans will be duck hunting or shoveling snow off the front porch. Good luck, Freddie. There's a little fellow around here his friend call Mouse but his name is Adolph Baldwin. But boy, what a short stopper he is. He is playing soft ball now for Collin Lee's Dr. Pepper team. What an asset he is, for he can run hit and an excellent fielder. Stay in there Mouse. You are tops.

Yours truly, Richard Stanley

tell me how to get some.

But this duck he was explaining mostly about taxes. He told about a company, where it was earning 4 dollars a share and the stockholders they got 2 dollars, and the Gov., it got the other 2, for taxes. But the Gov., it got its 2 bucks first.

And I been pondering ever since, and thinking about the insurance I got. My company it
