ABBE WALLACE, P. O. BOX 11, ATLANTA, GA.

G. A. L.—Would it be advisable for me to go north with my husband for the season. Would he be kind to me away from my mother?

two to tour the country each year. His services will be in demand continuously.

Ans: Indeed he would be kind to you. He's your husband and your place is with him regardless of where his work carries him.

R. C. B.—I feel that I must make a change just as soon as possible. I am cramped and dissatisfied and do not know which way to turn and would appreciate any advice?

Ans: Pack your baggage

without fall from your druggist. Over a million women have written in letters reporting wonderful benefits.

and return to Chicago. You did make a miserable mistake to leave and come here and the only way to right this wrong is to go back.

P. C.—My boy friend and myself are planning to take a trip to California this summer. We have saved quite a bit of money and wonder if things will turn out successfully?

Ans: Yes, indeed you will. But the very first thing you should do before starting the trip is to see a minister.

I. C. F.—My very heart is broken because I have been misunderstood. Tell me pray where did my husband go and stay so late last night and is there anything between him and anyone else?

Ans: Nothing whatever, your worries are absolutely groundless. His night out was not with women, but he did have a little fun with the boys down on the Avenue.

W. A. H.—Will I win a prize from the company that I have ordered from? Should I send for another order as they tell me no one is ahead of me as yet?

Ans: Prizes are hard to

win. If it is necessary that you load yourself up with a supply of goods that you can't hope to profit from, then force yourself to forget about the prize.

M. L. W.—Please tell me whether we will be able to move to the place that we planned this summer and if so, how will things turn out?

Ans: Your family should be able to profit from a change of this description. I see no reasons why you should worry and no doubt you will get along better than you are right now.

S. L. C.—Did this man actually fall in love with me on sight as he says in his letters?

Ans: He is pulling a gag. He has written dozens of letters of this kind in the past. Pay no attention to them.

P. P.—Will I be able to go to camp as I have planned.

Ans: Yes, and-by all means go. These few weeks away from home will be enjoyable to you.

NEGRO SHARECROPPERS

(continued from page 1)

greater than the average for the United States, and represents 47 percent of the population in the State of Mississippi.

The WPA Index discloses that 71 percent of the tenant farms operated in Mississippi were by Negro tenants as compared with 29 percent for white tenants.

"Approximately 56 percent of all farms in the State were occupied by tenants who had been on the farm for less than five years," the WPA Index reports.

The close relationship of farming to shifting populations is observed as the WPA Index outlines reports made by the State Planning Boards of Virginia, Illinois, North Carolina and Mississippi.

The loss by persons moving out of Virginia over an influx of new residents was 110,866 for Negroes and 97,265 for the white population.

Decrease in the number of children under five years of age in the rural population per one thousand families 15 to 44 years of age in Virginia was from 637 to 574.

The average monthly wage of farmers in Virginia was \$34 without board. The annual wage per wage earner in the manufacturing industry was reported as \$878.

Through migration, Illinois gained a net increase of two hundred thousand Negroes in its population from 1900 to the last census, the WPA Index points out in an outline of a report of the Illinois State Planning Board.

Meanwhile, there was a loss by migration of 20 Negroes to every one hundred whites in North Carolina from 1880 to the last census.

Births and deaths of white citizens remain practically stable in Mississippi between 1925 and 1934. Births among Negro citizens in the State increased from 23,298 in 1925 to 255,563 in 1934.

Deaths within the race decreased from 14,086 to 12,436 in respective years.

The WPA Index of Research Projects also lists and summarizes the situation of the Negro in farm management, population and migration, and general social problems.

Many of these research activities in urban and rural communities have been made possible by the assistance of the WPA Research Projects employing trained white collar workers taken from relief rolls.

WORKERS' DIETS FOUND INADEQUATE Washington, Mya 25 (CNA)—About half of the white workers' families in 43 industrial centers and over 60 percent of Negro families in Southern cities did not have adequate diet in the period, 1934-37 according to a survey made by the Bureau of Home

Calvin's Newspaper Service TESTED RECIPE

By Frances Lee Barton

WHEN young folks entertain it's more fun for them when their elders "give them the floor" and let them run the party for themselves, with a tactful hint that hilarity must be kept within bounds.

DR. BINGA DISMOND PUBLISHES PAPER FOR HARLEM DOCTORS

New York, June 2 (C)—The second issue of "The Harlem Physician" has made its appearance, with Mrs. Geraldine Diamond as editor and Dr. H. Binga Diamond as Medical Editor.

The four page paper is published from 111 Lenox avenue by the Medical Secretaries Associates, and is "dedicated to the dignity and prestige of the Harlem profession." The current issue attacks editorially the policy of the American Medical Association of listing Negro physicians as "Negro." The paper declares that as long as the AME persists in its policy, it will list all Jewish Doctors as "Jude," starting with Dr. Morris Fishbein, president of the AME who is listed as a Jew.
