Her friends stood by her; during her dark hours the light of Friendship streamed from many doors and made her Path less difficult.

And she is grateful! VERY grateful! Through this column she desires to express her most sincere

thanks and appreciation for the many expressions of sympathy which she received. She said, "Please consider this as a grateful personal acknowledgement, especially to those whose tangible expressions relieved a heavy load."

Roosevelt Medal Friday, Oct. 27 on which date Carl Sandburg, author and Major Gen. Frank R. McCoy, retired will be similarly honored. Yes, "the world do move."

It is good to realize that in recent years Negro genius and much race talent and brilliancy has been given due recognition. It was not so many years ago when the only mention of Negroes in the white press related to crime, and his photograph was unthinkable—unless it was a "necktie party."

Dr. Carver's "spittin' image" in The New York Times and his dominance of the news article on the Roosevelt Medal strongly indicates his superior interest to the world of science.

Opportunities to earn great wealth thru employment with large corporations were repeatedly turned down by Dr. Carver who insisted upon remaining at Tuskegee and actually GIVING AWAY his scientific secrets and knowledge for the lasting benefit of not only the South but of the Nation and the world.

This genius of our race is indispensable: Humility has at last humbled the proud!
