This Week In Religion and Thought

BY ROBT. L. MOODY

55 MILLION CHRISTIANS? A recent report from the census bureau states that there are 256 religious denominations in the United States and there are 55,807,366 church members in these groups. Such a statement as this makes any serious minded think. This number is estimated to be an increase of one million church members from the period 1926 to 1936 when these figures were compiled.

I think the Jewish groups are counted in this number but if we exclude them and some others and guess the professed Christians to be 54 million, what a vast army this would be? We know this is Utopian, but suppose everyone of these church members were genuine and faithful followers of Christ as their profession implies. If this were true, the United States alone could Christianize the world and this country would be a heaven from which we could journey to the new heaven. We shall discuss another aspect of this report next week.

JEWISH SPONSOR OF ALL-NEGRO TOWN TO ADDRESS BAPTISTS

Philadelphia—(ANP)—Nathan Rathblott, well known business man here, who is the guiding spirit of the "Build a Negro City Movement," at Mizpah, N. U., a town between Philadelphia and Atlantic City, will attend the National Baptist convention at Birmingham next month it was announced this week by the convention committee.

Mr. Rathblott, who owns the 2,000 acre development on which Mizpah is built recently reduced the price of home-sites from \$200 to \$60, with installments of \$2 per month, to increase interest in the "Build a Negro City Movement."

Dr. W. H. Jernagin, chairman of the movement says that Miz-

Marie Downing BEAUTY AND ROMANCE

SPONSORED BY LARIEUSE BEAUTY BUREAU

The Larieuse Beauty Bureau was established by the Godefroy Manufacturing Company to study methods of preserving women's natural beauty, and to make the results of this research available to the public.

The spring and the fall of the year always are periods of change. Now is the time to recondition the home for the winter months... the time to remove furniture slip-covers, and brighten the home for the next few months of indoor activities and living.

This suggests to me the need for a bit of beauty reconditioning! And most of us need just that after three months of summer activity... and summer heat which many times causes us to be negligent in our beauty routine.

Chances are that the summer sun hasn't benefitted our faces. We're probably tanned. The skin is drier. New squint lines can be found around the eyes. A series of professional or home treatments is needed, backed up with a good cleansing cream and a night cream... regularly used.

The reason I emphasize "regularly" is that during the heat of the summer, it is difficult to do anything regularly, especially anything which means exertion. But now that summer's heat is gone and we have the invigorating coolness of fall, we can make repairs for our negligence the past several months. Use creams regularly, and the skin soon will soften once more, will seem to lighten in color and appear more beautiful.

Summer's outdoor activity is not the best conditioner for hands. They may need expert attention. At least they'll need considerable personal attention. Use a hand-lotion frequently. Manicure the nails and cuticle. And remember how important it is that the nails be shaped

to conform with the shape of your fingers. Avoid claw-like hands by all means. But shapely nails can enhance the appearance of stubby fingers, can add to the beauty of well-formed fingers.

Frequent swimming parties, the outdoor sun—all have contributed to today's condition of your hair. It probably is dry, and may even be streaked. Oil shampoos will help. Or you can massage oil into the scalp and leave it overnight, removing it first thing in the morning with a good shampoo. A good hair coloring will cover any streaks and give an appearance of naturalness. Brush your hair more frequently. Besides serving as a good massage, the brushing invigorates the scalp. Most of us shamefully neglect to brush our hair during the summer, and, therefore, must brush it more frequently during the cooler periods of the year.

Yes, it's time to recondition our beauty. It's an endless job, isn't it? But how satisfying it is to have other women... and men... pay the tribute that good beauty care merits. An honest effort, backed up with the careful selection of materials—and the battle can be won.

Let's never forget that beauty means romance!

poet's death. Under the city's reconstruction plans, the square bearing Pushkin's name is to be much increased in size, despite the fact that it is already one of the largest squares in the city. The more important structures at present situated on the square are the large buildings of the Soviet Radio Center and the plant of the newspaper "Izvestia." In Pushkin's time, the largest and most important structure on the present spot was the sprawling Strastnoi Monastery, which was pulled down five years ago.

S. C. YOUTH ACHEFS FOR HITLER'S SCALP

Columbia, S. C., Sept. 12 (ANP) George McDavid, 18 declared that he was "as strong as any man on earth" and the man to "get old Hitler" last week when he applied here to enter the army. His application said he wanted to join the army because he desired to be a soldier, to learn trades and to "help get old Hitler before he gets our country."

First Sgt. Chester R. Vaughn, recruiting officer, said he had filled the first quota ever assigned here of ten Negroes for duty with the 41st engineers at Fort Bragg, N. C., but that he would "sign that boy up" if he got another quota.
