LIBERTY OUR HERITAGE (by Charles Stelzle)

Patrick Henry's declaration "Give me liberty or give me death" finds an echo in every true man's heart, no matter what may be his race, his color or his creed. This desire for liberty was planted by the Creator. Therefore, those who stand in the way of its accomplishment and its fulfillment are fighting against God's decree.

To most of us it is a priceless heritage. But while we have gloried in our freedom, some of us have forgotten the price with which our freedom was purchased. We have enjoyed liberty as though it were a gift which carried with it no obligation, and we have been reckless spendthrifts of our inheritance.

While we have been enjoying liberty without discipline, the people in the totalitarian countries have been subjected to discipline without liberty. They have been systematically hardened for brutal combat while we have been softened through indiffer-

ence, self-indulgence and sheer laziness. The virtues which dominated the fathers of our country, who through great sacrifice won for us the freedom and liberty, which we still enjoy, have been replaced by sophistication and wise cracking, and we are permitting crackpots and irresponsible agitators to insult our constitution and ridicule our form of government.

We have viewed with indulgence leaders of movements who frankly declared that they are trying to create class hatred and race prejudice in our midst, and condoned politicians who are too spineless to protest against those who are boldly laying the foundations for our destruction. The same tactics indulged in in the countries which they hold up as idealistic would send them to a concentration camp or a firing squad.

When such enemies of our country flaunt their contempt in our faces, the time has come for every loyal American to stand up in his wrath and speak out as a loyal citizen, particularly as we are now confronting forces which threaten our future as a Republic of free men and women.

Every true American should vigorously oppose those whose sole purpose is our destruction and humiliation, lest we be subjected to the rule of those who are opposed to the principles of freedom and liberty which were bought at so great a price, and which have made America the haven for the oppressed of all nations.

MOBILE CLINICS—

J. D. Ratcliff published a very creditable article about Negro health in the September (1940) issue of the "Survey Graphic".

He tells of the traveling clinics that are sponsored by the Alpha Kappa Alpha Sorority. These clinics have done much for the Negroes of Holmes and Bolivar Counties in Mississippi. The 12 workers volunteer their services during the summer and go from farm to farm during "laying by time." They help mothers and children; they give diphtheria toxin and small pox vaccine. Now they are educating these people in preparing proper and healthful diets.

\*All of this work is free to the recipient because they couldn't pay

if they wanted to. The average yearly income of the sharecropper is thirty-eight dollars. Twenty percent (20%) do not receive cash income at all.

"In Bolivar County 25% die without the presence of a doctor; 80% of children have diseased tonsils and adenoids; 54% of the Negro children under 12 years old suffer from malnutrition."

"Their principle diet is the 3 M's meal, meat, molasses. There is no wonder that in 1938 in this country there were 400 cases of pellagra and 1,000 cases of dysentery. The population of Bolivar County was 80,000 and 60,000 were Negroes of which number 24,000 had syphilis.

These facts may or may not be typical of many southern counties and states. We who live in better places should be thankful and we should sympathize with these our black brethren. We should help them through whatever agency that is possible.
