U. S. SHOULD BUY SO. AMERICAN FOOD PRODUCTS

The United States should buy South American food products to prevent further Nazi infiltration.

When an American businessman bids on a contract in South America, he is bidding against the German government.

"It would be cheaper," Dr. Laves said, "for the United States to buy South American crops year by year than to build a navy and it would be just as effective in stopping Hitler."

of the treaty division of the United States department of state. will speak on "American Foreign Policy" at a special meeting of the Institute of Government at the University of Omaha November 14.

Attacking the United States foreign policy as being too slow, Dr. Laves stated that "we don't know where we are, where we want to go or where we are going."

The United States, Dr. Laves advocated, should give Great Britain all aid short of war as the best foreign policy. He cautioned that "we have everything to gain by a British victory, and everything to lose by a Nazi victory."

Whether or not Japan shall be permitted to continue her domination in the Far East is considered a crucial issue by Dr. Laves. He said the United States faces the same danger from a Japanese victory as from a Nazi victory.

The real problem of the hour according to Dr. Laves, is "whether or not the American people will sacrifice enough liberties to prepare for defense and yet maintain enough rights to exercise control over governmental actions."

A Prominent Business Woman Praises Mme. C. J. Walker's Preparations

"I use Mme. C. J. Walker's preparations exclusively because I get results from them that I am unable to get from any other preparation," stated a well known business woman the other day. The secret of the remarkable success of Mme. C. J. Walker's preparations is in the fact that they were blended by the late Madame C. J. Walker to reach certain definite conditions of the hair, skin and scalp, and today, after over thirty-five years on the market, they are growing increasingly popular, and notwithstanding the fact that the Company has always refused to reduce the price on these goods, they are still in demand everywhere.
