### CANDIDATE FOR COUNTY CLERK

MR. SLAVIK

Mr. Slavik is the Republican candidate for the office of County Clerk of Douglas County, having been chosen unanimously by the Republican Central Committee as the nominee to fill the unexpired term of the former County Clerk.

This is the first time he has ever been a candidate for any public office. However, he has been employed in the County Assessor's office for a period of 14 years. He worked under the late Sam K. Greenleaf for 12 1/2 years and was made Chief Deputy by Mr. Stollinski when he was elected County Assessor in 1938.

After accepting the nomination he immediately resigned as Chief Deputy in the Assessor's office, knowing that the campaign would require a great deal of time and he did not want to slight his duties in the County Assessor's office and campaign at the expense of the tax-payer.

The County Clerk has many important duties under the law. In addition to his duties as County Clerk, he is also ex-officio County Comptroller and as such, is general accountant and fiscal agent of the County and exercises supervision over all of the offices of the County, charged in any manner with receipt and collection and disbursement of county revenue.

The office of County Clerk each

year, handles large sums of money representing fees paid to that office. Mr. Slavik will, if elected, favor increasing the amount of personal surety bond from the present \$5,000 to \$10,000 an additional protection for the public and will require his deputy to counter sign all checks drawn by his office and will insist upon a quarterly audit of all fee offices in the Court House.

He is in favor of working in harmony with other county offices for the benefit of the tax payers and further favors the modernization system of keeping the county records, not only of the County Clerk but all other county offices handling public funds.

With his 14 years experience in the Court House, we feel that he possesses the necessary qualifications for this important office and trust you will favor him with your vote and support.

### Facts About The Railway Commission

75,340 voters (15 percent) of those who went to the polls in the 1938 general election did not mark their ballots for the office of Railway Commissioner.

While the office of Railway Commissioner is the farthest down on the list of state offices, as it appears on the ballot, it is still an important one.

The average citizen is not familiar with the duties and responsibilities of the Railway Commission and it is difficult for a candidate for this office to personally meet more than a few persons in each community.

The Railway Commission is a fact finding body. In other states a similar commission is often called "Commerce Commission", "Public Utility Commission" or "Public Service Commission".

Briefly the Railway Commission has certain duties and responsibilities in the regulation of rates and service of railroads, bus lines, trucks, power companies and telephone companies. It represents the people before the Interstate Commerce Commission. This office is of sufficient importance that every voter should know some thing about his candidate.
