## **BETWEEN THE LINES**by Dean Gord in B. Hancock for ANP EIN KAMPF-

Hitler's "Mein Kampf" has startled the world. In it he sets forth his dreams of a new world order wherein the Germanic people will be the regnant peoples of the world. As a social prophet Hitler made certain predictions which if fulfilled will fill the world with great woes. Step by step Hitler moves towards the consummation predicted in his Mein Kampf and step by step the world moves nearer to the brinks of destruction.

Hitlerism is proving a scourge to the smaller nations of the earth and a threat to the mighty ones. The very foundation of Britain's mighty empire is trembling and our own United States of America is being weighed in the balances of time; and woe unto us if we are found wanting. The most pressing matter before this nation today is to snap out of an indifference and lethargy and money grabbing and real ize that "MEIN KAMPF" lies before us.

Only our supremest efforts will save our great and mighty nation! Our

To refuse to use its best in the very best way, that nation is threatened with destruction. When prejudice is put aisolationists and pacificists have sung head of a nation's safety and security their siren songs of peace until the we may listen for that nation's swan song. In other words that nation that minimizes true patriotism and magnifies false values cannot hope to overthrow so powerful a movement as Hitlerism.

nation becomes so morally unsound as

hour of our doom is nigh at hand. The holding-out power of the British may save us; but it will be merely by the proverbial hair-breath. With Nazi-in spired strikes brooding here and there in the defense industries and with the Nazi-filled industries being crippled in a hundred ways, Uncle Sam needs to: take some positive and summary meas ures if we are going to come through with out national hide intact.

The question in my mind is how long before Uncle Sam will realize that for every Nazi in industry there are ten Negroes who can be trusted without fears or qualms? How long will this country let race prejudice stand between them and that internal security that is more and more a pressing problem? How long will the Negroes' nortunities?

One of the great disgraces of this nation is that a conference at Hampton must be held to decide how to use the nation's most patriotic citizens. As it is, because of blood ties with Europe it is hard to tell when a true American or a Nazi is being given a place of trust when a white man is being given a place. The Negro has no European ties and whenever a Negro goes on a job a hundred per cent American is on that job! In a crisis a nation needs such assurance.

What is the point in hoping and true and tried patriotism be rewarded praying for true Americans when milwith a scant recognition, while foreign lions of Negroes are standing by waittraitors threaten destruction to a coun ing for the word? The Negro must try that takes them to its bosom? How not be grouchy in this crisis. He must long before dear Uncle Sam will see not quarrel and quibble and he must the futility and danger of excluding not sulk in his tents. As in past crisis' from strategic industries Negroes who the Negro must give his best and recan be trusted while bundists and com- affirm the world's exalted opinion of munists enjoy the richest fruits of our him as a nation's super patriot. The great land? How long will America's struggle before our nation and the finest patriots famish with hunger world is a struggle for Christianity while its enemies enjoy its richest op- and denucracy and the Negro's future is bound up therein. Charity"

209 North 13th Street Omaha, Nebraska

## Dear Friend of Humanity:

It is our belief that most people are kindly disposed towards THE SALVATION ARMY, and helps us whenever possible. Everyone is familiar with our work of helping the needy -work which possible only through the whole-hearted cooperation which is given us by the public. We are writing at this time, however, to again call to your attention the special significance which winter has for our organization and it's work of helping others.

The coldest months of the year are just ahead of us, and we know from past experience that hundreds of poorly clad men and women will appeal to us for warm clothing, shoes or bedd\_ ing when winter sets in. In order that we may continue with our work during the months when it is most essential, we are again asking for your kind and unfailing assistance through the donation of goods, useable clothing, odd pieces of furniture, mag azines and newspapers, or any waste materials.

We know that our work this winter will be as great as in former years and we look to you today, as in the past, for aid in our efforts to help the needy.

It is needless to remind you that when people appeal to us, their cases are urgent and we must have a sufficiently large supply of materials on hand to meet these demands which are constantly made upon us.

Won't you look through the basement or attic TODAY for material which no longer are of use to you or your family, then phone JA. 4135 and our truck will gladly call for your donation. Sincerely yours,

R. W. EDWARDS, Adjutant.
